Summary of the primary business of our Company

We are an IT Infrastructure solutions and IT managed services company headquartered in Ahmedabad, Gujarat. As an IT Infrastructure solutions and IT managed services company, we are sector agnostic and service a wide variety of projects for both government/public sector undertakings (PSUs) and private sector with a focus on government/PSU projects. The range of projects undertaken by us are inclusive of supply and installation of IT hardware and software (eg. computers, servers), setting up of ICT labs, setting up of smart classes, installing digital infrastructure for public distribution system, digitalisation of primary agriculture credit societies etc. For further details of our business, please see “Our Business” on page 130.

Summary of the industry in which our Company operates

The IT industry plays a pivotal role in driving India’s overall economic growth. The industry contributed 7.5% to India’s GDP in FY 2023, up from 7.4% in FY 2022. The IT industry added an impressive 3.2 lakh new jobs in FY 2023, taking the total workforce to 5.72 million people. IT infrastructure services provide the foundation for India's digital transformation by building and managing data centers, networks, and cloud platforms. This ensures ubiquitous internet access, critical for connecting citizens, businesses, and government entities. IT Infrastructure Management Services (IMS) encompass a range of services focused on the planning, design, implementation, operation, and ongoing management of an organization's IT infrastructure. Financial data

Our Company’s and Subsidiary’s Fiscal Year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular Fiscal Year, Fiscal or Fiscal Year, unless stated otherwise, are to the 12 months period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year.

Unless the context requires otherwise or as otherwise stated, the financial information as at and for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021 as mentioned in this Draft Red Herring Prospectus is derived from our Restated Financial Information, as at and for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021 comprising of the restated statement of assets and liabilities as at December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021, the restated statement of profit and loss for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021, and the restated statement of cash flows and restated statement of changes in equity for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021 and the summary statement of significant accounting policies, and other explanatory information, each prepared in accordance with the requirements of Section 26 of Part I of Chapter III of the Companies Act, as amended, the SEBI ICDR Regulations and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the ICAI, as amended from time to time. For further details, see ‘*Financial Information*’ on page 177.

Unless otherwise stated or the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 24, 130 and 232, respectively, and elsewhere in this Draft Red Herring Prospectus have been calculated on the basis of amounts derived from our Restated Financial Information.

Ind AS and Indian GAAP differ in certain significant respects from other accounting principles and standards with which investors may be more familiar. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of Indian GAAP or any other accounting principles or standards. If we were to prepare our financial statements in accordance with such other accounting principles, our results of operations, financial condition and cash flows may be substantially different. For details in connection with risks involving differences between Ind AS and Indian GAAP see “*Risk Factors – 66. Significant differences exist between Ind AS and other accounting principles which investors may be more familiar with and may consider material to their assessment of our financial condition.*” on page 49. Prospective investors should consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. The degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, Ind AS, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with these accounting principles and regulations on our financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

All figures, including financial information, in decimals (including percentages) have been rounded off to two decimals. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded-off to such number of decimal points as provided in such respective sources. In this Draft Red Herring Prospectus, (i) the sum or percentage change of certain numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row; any such discrepancies are due to rounding off.

All figures in diagrams and charts, including those relating to financial information, operational metrics and key performance indicators, have been rounded to the nearest decimal place, whole number, thousand or lakhs, as applicable.

Currency and units of presentation

All references to:

- “₹” or “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India; and
- “US\$” or “USD” are to United States Dollars, the official currency of the United States of America;

In this Draft Red Herring Prospectus, our Company has presented certain numerical information. All figures have been expressed in lakhs, except where specifically indicated. 10 lakhs represent one million or 10,00,000 and 1 crore represents ten million or 10,000,000. However, where any figures that may have been sourced from third party industry sources are expressed in denominations other than lakhs in their respective sources, such figures appear in this Draft Red Herring Prospectus expressed in such denominations as provided in such respective sources.

Exchange rates

This Draft Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The information with respect to the exchange rate between the Indian Rupee and the U.S. Dollar, as on the dates indicated, is set forth below:

Currency	Nine months ended		Exchange Rate as on		
	December 29, 2023*	December 30, 2022*	March 31, 2023	March 31, 2022	March 31, 2021

Industry and market data

Unless stated otherwise, industry related information contained in this Draft Red Herring Prospectus, including in “Risk Factors”, “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 24, 94, 130 and 232, respectively, have been obtained or derived from the report titled “Industry Report on IT Infrastructure Industry in India” issued in May 2024 that has been prepared by Dun & Bradstreet Information Services India Private Limited. For risks in relation to the D&B Report, please see “Risk Factor- 45. Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by Dun & Bradstreet Information Services India Private Limited exclusively commissioned and paid for by us for such purpose.” on page 42. The D&B Report is available on the website of our Company at www.armeeinfotech.com.

The D&B Report is subject to the following disclaimer:

“This study has been undertaken through extensive secondary research, which involves compiling inputs from publicly available sources, including official publications and research reports. Estimates provided by Dun & Bradstreet (“Dun & Bradstreet”) and its assumptions are based on varying levels of quantitative and qualitative analysis including industry journals, company reports and information in the public domain.

Dun & Bradstreet has prepared this study in an independent and objective manner, and it has taken all reasonable care to ensure its accuracy and completeness. We believe that this study presents a true and fair view of the industry within the limitations of, among others, secondary statistics, and research, and it does not purport to be exhaustive. The results that can be or are derived from these findings are based on certain assumptions and parameters/conditions. As such, a blanket, generic use of the derived results or the methodology is not encouraged.

Forecasts, estimates, predictions, and other forward-looking statements contained in this report are inherently uncertain because of changes in factors underlying their assumptions, or events or combinations of events that cannot be reasonably foreseen. Actual results and future events could differ materially from such forecasts, estimates, predictions, or such statements.

The recipient should conduct its own investigation and analysis of all facts and information contained in this report is a part and the recipient must rely on its own examination and the terms of the transaction, as and when discussed. The recipients

should not construe any of the contents in this report as advice relating to business, financial, legal, taxation or investment matters and are advised to consult their own business, financial, legal, taxation, and other advisors concerning the transaction.”

Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable. The data used in these sources may have been reclassified or re-ordered by us for the purposes of presentation. Data from these sources may also not be comparable. Industry sources and publications may also base their information on estimates and assumptions that may prove to be incorrect. The extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends upon the reader’s familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which our Company conducts business and methodologies and assumptions may vary widely among different market and industry sources. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those disclosed in “*Risk Factors*” on page 24.

In accordance with the SEBI ICDR Regulations, “*Basis for Issue Price*” on page 83 includes information relating to our peer group company. Such information relating to our peer group has been derived from publicly available sources, accordingly, no investment decision should be made solely on the basis of such information.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain forward-looking statements. All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “can”, “continue”, “expect”, “estimate”, “intend”, “may”, “objective”, “plan”, “project”, “propose”, “seek to”, “shall”, “likely”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our expected financial condition, results of operations, business, prospects, strategies, objectives, plans, or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward looking statements. The forward-looking statements are based on our current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

These forward-looking statements are based on our present plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. For the reasons described below, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Therefore, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally, which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in laws, regulations and taxes, changes in competition in our industry, incidence of natural calamities and/or acts of violence.

Important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- Acquire new private clients;
- Retain our relationships with third-party service providers, and attracts new relationships;
- Expand in new geographies;
- Continue to innovate and adapt to changes in our industry;
- Successfully integrate the business, technologies, services and products that we acquire or invest in, our business;
- Inability to qualify for, compete and win projects or identify and acquire new projects;
- Any adverse changes in the central or state government policies;
- Inability to sustain growth in future; and
- Delays or defaults in client payments and receivables may have an adversely impact our profits and cash flows.

For further discussion of factors that could cause the actual results to differ from the expectations, please see “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 24, 130 and 232, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses in the future could materially differ from those that have been estimated and are not a guarantee of future performance.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given the uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. None of our Company, our Directors, our KMPs, the Syndicate or any of their respective affiliates has any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the BRLMs will ensure that investors are informed of material developments from the date of the Red Herring Prospectus until the date of Allotment pursuant to the Issue.

SECTION II: RISK FACTORS

An investment in equity shares involves a high degree of risk. Investors should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares, the industry in which we operate or to India. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in conjunction with “Industry Overview”, “Our Business”, “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 94, 130, 177 and 232, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Issue including the merits and risks involved.

Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries.

This Draft Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. For further information, see “Forward-Looking Statements” on page 23.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Information included in this Draft Red Herring Prospectus. For further information, see “Restated Financial Information” on page 177.

Unless otherwise indicated, industry and market data used in this section has been derived from the industry report titled “Industry Report on IT Infrastructure Industry in India” issued in May 2024, prepared and issued by Dun and Bradstreet, appointed by us on February 8, 2024 and exclusively commissioned and paid for by us in connection with the Issue. The data included herein includes excerpts from the D&B Report and may have been re-ordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the proposed Issue), that has been left out or changed in any manner. Unless otherwise indicated, financial, operational, industry and other related information derived from the D&B Report and included herein with respect to any particular year refers to such information for the relevant calendar year. A copy of the D&B Report is available on the website of our Company at www.armeeinfotech.com. For more information, please see “Risk Factors - 45. Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by Dun & Bradstreet Information Services India Private Limited exclusively commissioned and paid for by us for such purpose.” on page 42. Also see, “Certain Conventions, Presentation of Financial, Industry and Market Data – Industry and Market Data” on page 21.

Internal Risks

Risks Relating to the Business of our Company

- 1. We depend on orders from the Government/PSU clients for majority of our revenue, which may expose us to risk. Additionally, the loss of or inability to qualify for such orders may adversely affect our business, financial condition, results of operations and prospects.***

As of date, our services majorly cater to the needs of Government/PSU clients. Revenue earned from the Government/PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29%, respectively, as a percentage of total revenue from operations, for these periods.

The projects undertaken for Government/PSU clients are subject to certain restrictions including mandatory inspections by authorities of departments which awarded that particular project. If we fail to comply with contractual obligations or any other requirements of the project terms there may be penalties imposed like monetary damages, forfeiture of bank guarantees, or any other legal action as may become applicable under the terms of the projects. In certain instances, we may also face delays associated with collection of receivables from Government/PSU clients. Further, any default in the agreement with the Government or public sector clients could lead to a potential debarring and/or blacklisting of the Company for further dealing with respective Government or public sector clients. The occurrence of any of these actions could harm our reputation and ability to generate new business and in turn could have a material adverse effect on our business, results of operations and

financial condition.

In addition, we obtain majority of our projects by bidding on government e-marketplace, which subjects us to additional terms and conditions applicable to the bidders listed on e-marketplace, such as, registering and updating the list of our products and service offerings in correct category, ensuring that products offered are in public interest and other varied terms and conditions. Failure to adhere to such terms and conditions may lead us to facing administrative action as maybe deemed fit by the government e-marketplace, including but not limited to debarring us from listing our products/services on the e-marketplace platform. This could hamper our ability to bid for Government/PSU tenders. For the bidding process in a project cycle, please see “*Our Business- Project Cycle*” on page 139.

In addition, the tender processes conducted by the Government may be subject to changes in qualification criteria, unexpected delays and uncertainties. There can be no assurance that the projects for which we bid will be tendered within a reasonable time, or at all. In the event that new projects which have been announced and which we plan to bid for are not put up for tender within the announced timeframe, or qualification criteria are modified such that we are unable to qualify, our business, prospects, financial condition, cash flows and results of operations could be materially and adversely affected.

Further, any change in policies of the Government, impacting the public at large, scaling back of Government policies or initiatives towards IT infrastructure projects and/or changes in Governmental or external budgetary allocation, can significantly and adversely affect the business, financial condition and results of operations.

2. *We are dependent on our Technology Partners for various hardware and software products which we provide to our clients. The failure of our Technology Partners to deliver these products in the necessary quantities, on time or to meet specified quality standards or technical specifications, could adversely affect our business and our ability to deliver orders on time.*

We source various hardware products such as servers, laptops, desktops, printers, webcams, interactive panels, point of sale machines, storage hardware, and third-party software products such as operating system software, database software, antivirus software and other allied hardware and software products from the OEMs and distributors (“**Technology Partners**”).

Our business is, therefore, heavily dependent on our relationships with Technology Partners. Our top three Technology Partners for the nine months ended December 31, 2023, were Acer India Private Limited, Kaatsys Tech and Supertron Electronics Private Limited. During the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, 96.41%, 72.82%, 51.04% and 46.56% of our purchases from Technology Partners are from our top three Technology Partners for the nine months ended December 31, 2023.

We do not enter into any long-term contracts with our Technology Partners for supply of these products. We place purchase orders with Technology Partners from time to time basis our requirements and prices for products are normally based on the quotes we receive from these Technology Partners. Further, the client acceptance of our products depends on the quality of products delivered by a Technology Partner. In past, there has been an instance where we had to return few PoS devices back to our Technology Partners on account of quality concerns. Thus, any failure on part of our Technology Partners to deliver products in necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients. In order to avoid occurrence of such instances, we place orders with our Technology Partners as soon as an LOI is awarded to us. This ensures that we have enough time on our hand to conduct multiple quality checks. Additionally, we safeguard our interest by taking product warranties for such period which may extend beyond our project completion timelines.

Certain other factors affecting supply of products we source from Technology Providers and thereby impeding our access to products are political and economic instability in India or political instability in certain states of India where our Technology Partners are located, labour problems experienced by them, the availability of raw materials, merchandise quality issues, transport availability and cost, transport security, inflation, and other factors. The operations of the Technology Partners are further subject to various operating risks, including breakdowns and failure of equipment, industrial accidents, employee unrest, severe weather conditions and natural disasters. In addition, if any of our Technology Partners experience any financial distress or bankruptcy, this may cause disruption in our supply chain. If such events take place, we may be unable to meet our desired level of quantity or quality, which may give rise to contractual penalties or liability for failure to perform contracts, which we may not be able to recover from our Technology Partners. We may also lose clients and suffer damage to our reputation. Any of the above could adversely affect our results of operations.

3. *Most projects we operate have been awarded primarily through a competitive bidding process and our financial performance is largely dependent on our successful bidding for new projects. We may not always be able to qualify for, compete and win projects. If we are not able to successfully bid for new projects, it may adversely affect our business operations and financial conditions.*

As a part of our business and operations, we bid for projects on an on-going basis. Projects are awarded following competitive

bidding processes and satisfaction of prescribed qualification criteria. While service quality, technological capacity and performance, as well as reputation, experience and sufficiency of financial resources are important considerations in authority decisions, there can be no assurance that we would be able to meet such qualification criteria, particularly for multilocal IT infrastructure projects. Further, once the prospective bidders satisfy the qualification requirements of the tender, the project is usually awarded based on the quote by the prospective bidder and reverse auction. We spend considerable time and resources in the preparation and submission of bids. We cannot assure you that we would bid where we have been prequalified to submit a bid or that our bids, when submitted or if already submitted, would be accepted. If we are not able to pre-qualify in our own right to bid for large IT infrastructure projects, we may be required to partner and collaborate with other companies in bids for such projects. If we are unable to partner with other companies or lack the credentials to be the partner-of-choice for other companies, we may lose the opportunity to bid for large IT infrastructure projects, which could affect our growth plans.

The growth of our business mainly depends on our ability to obtain new IT Infrastructure projects. Therefore, it is critical that we are able to secure new projects of similar value and volume. We are not in a position to predict whether and when we will be awarded a new contract. In the event that we are not able to continually and consistently secure new projects of similar or higher value this would have an adverse impact on our financial performance. Further, our future results of operations and cash flows can fluctuate materially depending on the timing of contract awards. In addition, the scope of work in a project, which is dependent on its scale and complexity, will affect the profit margin of the project and our financial performance.

Further, all our Ongoing Projects have been awarded to us for a definite term and the relevant authorities may float further tenders for such/similar projects after expiry of the current term. There is no assurance that we will be awarded such future projects. There may be a lapse of time between the completion of our Ongoing Projects and the commencement of our subsequent projects. Any cancellation or delay of projects could lead to idle or excess capacity, and in the event that we are unable to secure replacement projects on a timely basis, this may adversely affect our business operations and financial conditions.

In addition, projects awarded to us may be subject to litigation by unsuccessful bidders. Legal proceedings may result in delay in award of the projects and/or notification of appointed dates, for the bids where we have been successful, which may result in us having to retain unallocated resources and as a result, it would adversely affect our results of operations and financial condition. Further, we may be required to incur substantial expenditure, time and resources in defending such litigation. Any unsuccessful outcome in any such proceedings may lead to termination of a contract awarded to us, which could have a material adverse effect on our future revenues and profits.

4. Most of our business operations are concentrated in the state of Gujarat. Due to this geographic concentration of our business operations, our results of operations and growth might be restricted to the economic and demographic conditions of Gujarat.

We have a predominant presence in the state of Gujarat. As of December 31, 2023, out of our 13 Ongoing Projects, 10 projects are based in the state of Gujarat and one project each is based in Uttar Pradesh, Karnataka and Bihar. For the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, 92.27%, 82.81%, 58.77% and 61.15% of our revenue from operations for the respective periods came from the projects executed by us in the state of Gujarat. The following table sets forth the revenue from operations generated during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, presented according to the states where we have provided our comprehensive range of services:

(In ₹ lakhs, except for percentages)

Particulars	Nine months ended December 31, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Amount	% of revenue from operations	Amount	% of revenue from operations	Amount	% of revenue from operations	Amount	% of revenue from operations
Gujarat	51,689.68	92.27%	41,627.67	82.81%	7,356.45	58.77%	6,424.18	61.15%
Bihar	1,171.08	2.10%	4,179.10	8.32%	-	0.00%	-	0.00%
Jharkhand	-	0.00%	-	0.00%	-	0.00%	625.76	5.96%
Karnataka	2,561.32	4.57%	679.69	1.35%	442.94	3.53%	300.52	2.86%
Maharashtra	-	0.00%	37.27	0.07%	600.53	4.80%	-	0.00%
Rajasthan	-	0.00%	-	0.00%	517.06	4.13%	-	0.00%
Uttar Pradesh	595.89	1.06%	3,745.78	7.45%	3,601.00	28.77%	3,154.83	30.03%
Total	56,017.97	100.00%	50,269.51	100.00%	12,517.98	100.00%	10,505.29	100.00%

A natural calamity, economic slowdown or any disruption in Gujarat may hinder us from conducting our business operations in Gujarat, economically and otherwise. Due to such factors, we may experience adverse effects on our results of operations,

financial condition and cash flows than if it were further diversified across different geographical locations. Further, since majority of our projects are projects from Government/PSU entities of state of Gujarat, any change in the policy by the state Government of Gujarat which curtails the government spend on the IT infrastructure in the state may dry out our project pipelines. In order to mitigate this risk of client concentration, we intend to increase our presence pan India by securing and servicing projects in other states of India. For further details please see, “*Our Business. Strategies - Continue to expand our geographical footprints*” on page 134.

5. *We have experienced negative cash flow in the past and any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.*

The following table sets forth certain information relating to our cash flows for the nine months ended December 31, 2023, and Fiscals 2023, 2022 and 2021:

Particulars	For nine months ended December 31, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Net cash generated from/ (used) in operating activities	776.35	(677.76)	(217.44)	(760.01)
Net cash generated from/ (used) in investing activities	(763.98)	551.06	233.46	(49.10)
Net cash generated from/ (used) in financing activities	339.20	148.62	(193.88)	760.97

We have sustained negative cash flow used in operating activities for the Fiscals 2023, 2022 and 2021 attributable to decrease in trade receivables, increase in non-current provisions, increase in other current financial liabilities and increase in other current liabilities. Further, we have sustained negative cash flow in investing activities for the nine months period ended December 31, 2023 mainly on account of investment in acquiring our Wholly Owned Subsidiary and for the Fiscal 2021 on account of investment in property, plant and equipment. In addition, we sustained negative cash flow in Fiscal 2022 from financing activities on account of repayment of borrowings. For further details see, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations - Cash Flow*” on page 251. There can be no assurances that cash flows will be positive in the future thereby creating an adverse impact on our ability to meet working capital expenditure, repay loans without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

6. *We derive a significant portion of our revenues from a limited number of clients. The loss of any significant clients may have an adverse effect on our business, financial condition, results of operations, and prospects.*

The majority of our revenue is generated from projects that we undertake for our Government/PSU clients. Owing to the nature of our business, our clients may vary annually. Depending upon the projects undertaken by us, our business and financial condition in any given period could be heavily reliant on few projects/clients. Set forth below are the details of revenue generated, along with percentage of revenue contributed, by our top five clients in nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021:

Clients	December 31, 2023		Fiscal 2023		Fiscal 2022		Fiscal 2021

As we continue to bid for projects in the normal course of our business, the composition of revenue generated from these clients might change. However, our revenue may be adversely affected if there is an adverse development with such top five clients during the course of our projects. And there can be no assurance that we will not lose all or a portion of the revenue generated from these clients or will be able to offset such loss by obtaining new clients in a timely manner. Further, since we bid for projects, we may be required to accept onerous contractual terms in projects awarded to us by such clients. While our Company has not experienced any such instances in the past, in the event that our Company is unable to comply with its obligations as per the terms of the projects with such top five clients, it could result in possible termination of such projects. This in turn could adversely affect our business, financial condition and results of operations.

While we endeavour to maintain good client relationships, considering the nature of our business, we are subject to external factors such as pre-qualification, availability of tender and aggressive price bidding by peers which limits our ability to receive repeated orders from our existing clients. We believe that our experience in the IT infrastructure industry and efficient track record has enabled us to maintain our continued eligibility and qualification for bidding for projects. However, due to certain unforeseen circumstances such as, failure to get requisite clearances and approvals or litigations filed against the projects awarded to us by unsuccessful bidders, our clients may either terminate our project or may delay or default in payments owed to us, which may adversely affect our Order Book. During the disclosed financial period, neither have we experienced any event wherein any litigation was filed against the projects awarded to us by an unsuccessful bidder, nor have we experienced any material bad debts. Further, in the event we are unable to complete our projects within the time period prescribed under our projects or within the extended period of projects, or the quality of our work deteriorates, then our relationship with our clients may get severed and cause reputational harm, which may adversely affect our business. In addition, for the purpose of the Issue, our Company has sent out request letters seeking consents from our top five clients for inclusion of their names in the Draft Red Herring Prospectus. However, we have not received consents from any of our top five clients and there is no assurance that we will receive these consents before filing of the Prospectus.

7. *Our projects with Government/PSU clients usually contain terms that are premeditated by the Government/PSU clients and our ability to negotiate terms of these projects is limited and we may have to accept restrictive or onerous provisions. Our inability to negotiate terms that are favourable to us may have a material adverse impact on our financial condition and results of operations.*

The projects with Government/PSU clients are usually based on forms chosen by the Government/PSU clients. As a result, we have limited ability to negotiate the terms of these projects, which tend to favour our Government/PSU clients. The contractual terms may present risks to our business, including:

- a) liability for defects arising during the warranty period;
- b) clients' discretion to grant time extensions, which may result in project delays and/or cost overruns;
- c) clients' discretion to increase or decrease the quantity of order up to 25% of bid quantity at the time of placement of order or during the currency of the projects;
- d) the right of the Government/PSU clients to terminate the projects without cause after providing us with the required written notice; and
- e) the right of the Government/PSU clients to debar us from bidding from future projects with them upon failure on our part to perform or remedy failure after providing us with the required written notice.

In addition, we undertake skill development projects for Government/PSU clients. Under these projects we are required to conduct multiple skill development training programmes and provide trainings to a certain number of trainees. The total number of trainees is ascertained by these Government/PSU clients. However, if a trainee leaves in the middle of such training programmes, we may not be able to recover all dues payable to us on completion, even though we have put in a considerable amount of resource and capital.

Our ability to continue operating or undertake projects thus largely depends on our Government/PSU clients, who may terminate the relevant projects for reasons set forth in these agreements. Further, under our projects, the project value and scheduled completion date of the project may not be adjusted for any unforeseen difficulties or costs, and we are responsible for having unforeseen difficulties that may arise in completing the project. In the event we commit a delay in delivering the products, we may be subjected to a penalty amounting to a maximum of 10% of the project value. Such onerous conditions in the Government/PSU clients projects may have adverse effects on our profitability.

8. *We are required to furnish bank guarantees as part of our business contracts. Our inability to arrange such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition.*

As part of our business and as is customary, we are required to provide performance bank guarantees ("PBG") in favour of our clients under respective projects. The PBGs furnished by us usually range from three to 10 % of the project value. These PBGs are required to be furnished at the beginning of the project and could remain valid up to a period beyond the date of completion of all contractual obligations, including warrantee obligations depending upon the terms of the projects. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts.

As of December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 we had issued PBGs (including letter of credit) amounting to ₹ 2,089.08 lakhs, ₹ 2,553.34 lakhs, ₹ 1,304.13 lakhs and ₹ 1,060.87 lakhs, respectively, towards securing our financial/performance obligations under our Ongoing Projects. The said PBGs amounted to 3.73%, 5.08%, 10.42% and 10.10% of our revenue from operations for the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively. We may be unable to fulfil any or all of our obligations under our Ongoing Projects due to unforeseen circumstances which may result in a default under our contracts resulting in invocation of the PBGs issued by us. Although as of date none of the

PGGs were invoked, however if any or all the PBGs are invoked in future, it may result in a material adverse effect on our business and financial condition. Also see, “Risk Factor– 33. As of December 31, 2023, we had contingent liabilities which have not been provided for in our financial statements and could adversely affect our financial condition.” on page 37.

9. ***We enter into warehousing agreements with third party service providers from time to time, for our warehousing needs. The failure to enter into warehousing agreements in a timely manner could adversely affect our business and our ability to deliver orders on time, which in turn may have impact of our business, results of operations and financial condition.***

As of the date of the DRHP, our Company operates warehouses on a leasehold basis and enters into warehousing agreements with third party service providers from time to time to meet other warehousing requirements. The agreements with warehouse providers are entered on a need basis depending upon the locations of the projects being serviced by us at any time. We store our project-based inventories in these serviced warehouses, and transport products from these serviced warehouses to our clients, based on project requirements. As on date, we have taken four warehouses on leasehold basis from third party service providers.

There is no assurance that we will be able to enter into warehousing agreements for our additional needs as per our terms in a timely manner. Further the operations of the third party service providers are subject to various operating risks, including breakdowns and failure of equipment, industrial accidents, employee unrest, severe weather conditions and natural disasters. If there is any disruption to the operations at these serviced warehouses, our supply chain and operations will be adversely affected, impacting our ability to honour our contractual obligations.

10. ***Our Promoters have provided personal guarantees in respect of the secured and unsecured borrowings availed by the Company and its Subsidiary. Any default in repaying such borrowings will trigger repayment obligation on our Promoters. In case Promoters fail to effectively satisfy their obligations to the lenders, it could lead to termination of the credit facilities availed by us which could adversely impact our business and operations. Additionally, these obligations may impact our Promoters’ ability to provide guarantees on future borrowings, affecting our potential to avail credit facilities in future.***

As of April 30, 2024, the majority of the secured borrowings and unsecured borrowings availed by the Company and its Subsidiary are backed by personal guarantees provided by our Promoters. The total amount of guarantees provided by our Promoters as of April 30, 2024, for our secured and unsecured borrowings, are ₹ 1,830.62 lakhs and ₹ 416.51 lakhs, respectively. Out of the total secured borrowings, ₹ 951.29 lakhs, constituting 50.43 % of the total secured borrowings of the Company has been secured by the personal guarantee and personal property of the Promoters. Any default or failure by our Company or its Subsidiary to repay loans in a timely manner or at all could trigger repayment obligations on the part of our Promoters. In case, our Promoters are unable to satisfy their guarantee obligations under such loans, it could result in a breach of such facility agreements. Such breach may lead to termination of the credit facilities and/or accelerated repayment of all amounts due under such credit facilities, this could have an adverse effect on our business, results of operation and financial condition. Further, if our Promoters were to withdraw or terminate their guarantee obligations, our lenders may ask for alternate guarantees, or repayment of all outstanding amounts under such facilities, or terminate such facilities.

We cannot assure you that, (a) our Company or its Subsidiary will not default in repayment of loans, or (b) our Promoters will continue to provide such guarantees in respect of the credit facilities availed by us in future, or (c) that our Promoters will continue to be associated with us as our promoters; or (d) Promoters shall not withdraw or terminate the guarantees, provided by them. In the absence of guarantees or collateral security extended by our Promoters on behalf of our Company and/or its Subsidiary, we may not be successful in procuring guarantees satisfactory to the lenders, and as a result we may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our business prospects, financial condition, results of operations and cash flows, which in turn, will also impact our ability to avail future credit facilities.

11. ***Multi locational projects subject us to additional execution risks. If such risks materialise it could have a material adverse effect on our business, financial condition and results of operations.***

We have been involved in and will continue to be involved in a number of multi locational projects. Multi locational projects are often undertaken in phases, and a client may cancel or delay any additional planned phases. These terminations, cancellations or delays may result from the business or financial condition of our clients or the economy generally, as opposed to factors related to the quality of our products and services. Cancellations or delays make it difficult to plan for project resource requirements and resource planning inaccuracies may have an adverse impact on our profitability. In addition, such larger projects may involve multiple parties in the delivery of services and require greater project management efforts on our part. Any failure in this regard may adversely impact our performance.

Further, multilocal projects have stringent procedural requirements at various stages of the project. For example, upon delivery of products we are required to get delivery registered in the date stock register, until such an entry is made by the local administrator, the products are not considered delivered. Since, such procedural requirements involve multiple stakeholders at multiple check points, we cannot assure that all such necessary procedural requirements will be completed in a timely manner, which could delay timely completion of our contractual obligations.

In addition, multilocational projects are more complex and generally require us to establish closer relationships with our clients and potentially with other technology service providers and vendors, and require a more thorough understanding of our clients' operations. Our ability to establish these relationships will depend on a number of factors including the proficiency of our technology professionals and our management personnel.

These risks are particularly relevant for our turnkey solutions offerings which require us to develop advanced IT Infrastructure solutions that are tailored to different circumstances and in relation to which we may not have any prior direct experience. For example, at present, our experience in the execution of projects to provide turnkey solutions is limited to services such as setting-up of ICT labs, setting up of PoS devices for automation of fair price shops, and digitization of classrooms in rural areas. There can be no assurance as to our capability to execute future turnkey solutions projects based upon our past experience.

12. We rely on independent contractors and third party service providers for some part of our services and any failure on their part to perform their obligations could adversely affect our reputation, business, results of operations and cash flows.

From time to time, we utilize independent contractors and third party service providers for some part of our services such as electrification, installation, networking, logistics, contractual employees/worker, depending upon the requirements of projects awarded to us. The timely execution of these services depends on the availability and skill of these independent contractors and third party service providers, as well as contingencies affecting them, including labour shortages, the availability of equipment, merchandise quality issues, transport availability and cost, transport security, inflation, and other various reasons including industrial action such as strikes and lockouts. Since we utilize independent contractors and third party service providers, we cannot control all of the factors that might affect the quality and fulfilment of these services and products. Further, to ensure timely execution of these services, we furnish a copy of our standard operating procedure while entering into agreements with these independent contractors and third party service providers. And our team regularly monitors whether or not these independent contractors and third party service providers are complying with our standard operating procedures. In past, such instances haven't occurred, however, if the independent contractors and third party service providers on which we depend are unable to continue to provide their services, or experience difficulty in meeting our requirements or standards, or revoke or fail to renew our service agreements with them, we could have difficulty in operating key aspects of our business, which could damage our business and reputation. We cannot assure you that the services rendered by any of our independent contractors and third party service providers will always be satisfactory or match our requirements for quality, which may affect our results of operations and cash flows.

13. We have delayed in payments of employee state insurance contributions, provident fund and other statutory dues in the past. We may be subject to regulatory actions and penalties for any such past or future delays which in turn could have an adverse impact on our business, financial condition, results of operations and cash flows.

We are required to make payments to various statutory authorities from time to time, including but not limited to payments pertaining to provident fund, employee state insurance contributions ("ESIC") and other statutory dues. There have been instances in the past where we have failed to make payments for these statutory dues within the requisite timeframe on account of some administrative delays. The table below sets out the details of such statutory dues paid and pending for the nine months ended December 31, 2023 and Fiscals 2023, 2022 and 2021:

(In ₹ lakhs, except for number of employees)

Period	Number of employees (in numbers) [#]	Provident fund*		ESIC*		Income tax*	
		Dues pending	Dues paid	Dues pending	Dues paid	Dues pending	Dues paid
As of December 31, 2023	1,632	1.51	259.83	Nil	26.81	Nil	51.02
Fiscal 2023	1,585	2.03	326.10	Nil	29.64	Nil	52.35
Fiscal 2022	1,450	Nil	51.69	Nil	4.75	Nil	81.07
Fiscal 2021	43	Nil	7.06	Nil	0.66	Nil	21.59

*On a consolidated basis

Number of employees on whom provident fund is applicable

We cannot assure you that we will be able to pay our statutory dues in a timely manner, or at all, in the future. Further, although no penalties have been levied in the past by any of the relevant statutory authorities, any further delay in payment of statutory dues which may arise in the future could lead to imposition of financial penalties from the relevant statutory authorities which in turn may have a material adverse impact on our business, financial condition and cash flows.

14. Inability to obtain or protect our intellectual property rights may adversely affect our business.

As on the date of this Draft Red Herring Prospectus, our Company has registered two trademarks in India for which we have obtained valid registration certificates under class 9 and 37 from the Trade Marks Registry, Government of India under the Trade Marks Act, 1999 ("Trade Marks Act"), as amended. The following table provides the details of registered trademarks which are currently being used by our Company:

Registered Trademark	Class of trademark under the Trade Marks Act	Registering Authority
 ArMee	9	Trade Marks Registry, Ahmedabad
 ArMee	37	Trade Marks Registry, Ahmedabad

Our Company has also filed for six applications for trademark of the logo of our Company,  under classes 11, 35, 36, 38, 41 and 42 respectively, which are currently pending and have been objected. Three of these applications have been objected by the Registrar of Trademarks, Ahmedabad on the grounds that they are identical with or similar to earlier marks in respect of identical or similar description of goods or services, and we have filed replies to these objections. Two of these applications have been objected on the grounds that we were required to provide supporting documents (bills, invoices) since 2017 till the date of application. One of these applications has been objected on the grounds that the mark is a common surname/personal name or a non-distinctive. Our Company has filed replies to the examination reports received in connection with these applications.

There can be no assurance that we will be able to successfully obtain such registrations in a timely manner or at all. In the event of rejection of applications of the trademarks of our logo, our ability to protect our intellectual property may be diluted to such extent, and could adversely affect our reputation and business, which could in turn adversely affect our financial performance and the market price of the Equity Shares. We cannot assure you that our logo will be registered in our name, and we will continue to enjoy uninterrupted use of the said logo. Any claim of intellectual property infringement from third parties, regardless of merit or resolution of such claims, could force us to incur significant costs in responding to, defending, and resolving such claims, and may divert the efforts and attention of our management and technical personnel away from our business. Our inability to obtain or maintain our trademarks in our business, could adversely affect our reputation, goodwill, business prospectus, and results of operations.

15. We have not spent certain allocated portions of our profits towards CSR, as required under the Companies Act, 2013. The unspent amounts have been transferred to the CSR unspent account and are required to be used for CSR purposes within three Fiscals from the date of transfer. Failure to do so may subject us to penalties, and have an adverse effect on our reputation, financial condition, cash flows and results of operations.

The Companies Act, 2013 mandates that the Board of Directors ensure that we spend, in each Fiscal, at least two percent of our average net profits during the three immediately preceding Fiscals. We have adopted a CSR policy (“CSR Policy”) on October 13, 2022, in compliance with requirements of the Companies Act, 2013 and the Companies (Corporate Social Responsibility) Rules, 2014, as amended, since we booked a profit of more than ₹ 500 lakhs in Fiscal 2022. Our CSR Committee was constituted on October 13, 2022. In line with the CSR Policy adopted by us, our CSR activities are focused on areas of promoting education and skill development. In the nine months period ended December 31, 2023, and Fiscal 2023, we incurred CSR expenses amounting to ₹ 10.48 lakhs and ₹ 9.20 lakhs, respectively. For Fiscal 2022 and 2023, while we made profits and accordingly allocated a portion of such profits towards CSR activities formulated under our CSR Policy, we could incur the requisite portion of the expenditure towards such activities. In such case, our Company was required to transfer such unspent amounts to a special account within a period of thirty days from the end of the respective financial year. Such unspent amounts have been transferred by our Company to the CSR unspent account on April 29, 2023, to be spent for ongoing projects. Therefore, there has been a delay in transferring the unspent amount for Fiscal 2022 to a special account, as mandated under the Companies Act, 2013. The amount transferred to the CSR unspent account shall be spent by our Company on CSR activities within a period of three Fiscals from the date of such transfer. Failure to do so may require us to transfer any unspent amounts into a separate statutory fund or lead to imposition of penalties under the Companies Act, 2013 for any default or non-compliance with the CSR requirements, which could adversely affect our cash flows, reputation and business.

16. If we cannot attract and retain highly-skilled IT professionals, our ability to obtain, manage and staff new projects and to continue to expand existing projects may result in loss of revenue and an inability to expand our business.

Our ability to execute and expand existing projects and obtain new clients depends largely on our ability to hire, train and retain highly skilled IT professionals, particularly project managers, IT engineers, other senior technical personnel and other technical support staff. As of December 31, 2023, we had a total of 1,686 employees, including 1,640 employees in our technical support team. For further details in relation to our manpower, please see “Our Business – Human Resources” on page 143. Given our recent growth and strong demand for IT professionals from our competitors, we cannot assure you that we will be able to hire or retain the number of technical personnel necessary to satisfy our current and future client needs. We need to staff a number of locations across India to provide a pan-India service, including across tier 3 and tier 4 cities in India. We also may not be able to hire and retain enough skilled and experienced IT professionals to replace those who leave. If we have to replace

personnel who have left our employment, we will incur increased costs not only in hiring replacements but also in training such replacements until their productivity is enhanced. We tend to hire IT professionals for particular projects as and when needed and as such there is no assurance that we will be able to find such IT professionals in time, or at all. We may have to increase the levels of employee compensation in order to retain our employees and may be unable to pass on this increase to our clients. In addition, we may not be able to redeploy and retrain our IT professionals in anticipation of continuing changes in technology, evolving standards and changing client preferences. Our inability to attract and retain IT professionals could have a material adverse effect on our business, financial condition and results of operations.

17. Failure to obtain or renew approvals, licenses, registration and permits to operate our business and/or undertake a project in a timely manner may adversely affect our operations.

We require certain statutory and regulatory permits, approvals, licenses, registrations and permissions (hereinafter collectively referred to as “Permits”) that are necessary to conduct our business and operations. These Permits may be subject to numerous conditions. As on the date of this Draft Red Herring Prospectus, our Company has applied for the following material Permit for which applications are currently pending before relevant authorities:

Name of the approval	Date of application	Authority applied to	Application Number
Application for establishments employing contract labour (principal employer)	May 27, 2024	Labour Superintendent, Patna	EECLPE/2024/00074

In addition, some of these Permits are granted for a fixed period of time and need renewal from time to time. Non-renewal of the said Permits would adversely affect our operations. Our operations are subject to certain state specific approvals, for instance, shops and establishment certificates under the respective state shops and establishment legislations and GST registrations. These certificates are subject to expiry or cancellation and, we cannot guarantee that we will receive the renewed certificates in a timely manner or at all.

Further as of date, we are not required to obtain any additional approvals, licenses, registrations and permits for any of our Ongoing Projects. However, in future we could undertake a project under which we may be required to obtain certain additional approvals, licenses, registrations and permits. The process to obtain such Permits may be time consuming and there can be no assurance that we shall obtain such Permits in time or at all.

There can be no assurance that the relevant authorities will issue any or all such Permits in the time-frame anticipated by us or at all. Any failure by us to apply in time, renew, maintain or obtain the required permits, licenses or approvals, or revocation, cancellation or suspension of any of the permits, licenses or approvals may result in the interruption of our operations or interruption of the continuity of the project undertaken, either of which could have a material adverse effect on our business, results of operations and financial condition.

18. We engage contractual workers for carrying out certain functions in relation to few of our Ongoing Projects. In the event of non-availability of such contractual workers at reasonable cost, any adverse regulatory orders or any default on payments to them by the independent contractors could lead to disruption of our business operations.

We engage independent contractors through whom we engage contractual workers for performance of certain functions in relation to few of our projects. As on December 31, 2023, we have engaged 820 contractual workers for various functions. Although we do not engage contractual workers directly, we may be responsible for any wage payments in terms of the applicable laws and the Code on Wages, 2019, to be made to such employees in the event of default by such independent contractors, who employ them. If we are required to pay the wages of the contractual workers, our results of operations and financial condition could be adversely affected. While there has been no past instance where we were held responsible for payment of wages to contractual workers, we cannot assure you that we would not be held liable for payment of wages in the future. Further, we could be held liable for the acts committed by, or omission on the part of, personnel engaged by us on a contract basis.

In addition, while we have applied for registration as a principal employer under the Contract Labour (Regulation and Abolition) Act, 1970 (the “Act”) on May 27, 2024 to the Labour Superintendent, Patna, our registration application is pending as on the date of the Draft Red Herring Prospectus. We cannot assure you that we shall receive the registration certificate before the filing of the Prospectus. If we do not receive the requisite registration, we shall not be able to employ contractual workers in our projects and we may be subject to penalties under the Act. The Act stipulates that if the amenities (like canteens, rest-rooms and first-aid facilities) required to be provided to the contractual workers are not provided by the independent contractor, such amenities shall be provided by the principal employer. If we are responsible to provide such amenities to the contractual workers, our results of operations and financial condition could be adversely affected. While there has been no past instance where we were held responsible to provide any amenities to contractual workers, we cannot assure you that we would not be held liable for provision of amenities in the future.

Additionally, pursuant to the Contract Labour (Regulation and Abolition) Act, 1970, as amended, the appropriate government may, after consultation with the Central Advisory Contract Labour Board or the State Advisory Contract-Labour Board, as the case may be, prohibit by notification, the employment of contract labour in any process, operation or other work in any establishment. We cannot assure you that such a notification will not be issued by the appropriate government in respect to our Ongoing Projects or future projects. If such a notification prohibiting the employment of contract labour is issued with respect to our operations, it will have an adverse impact on our ability to employ contract labour in our business operations, and may adversely affect our business, results of operations, financial condition, cash flows and future prospects.

19. *Our business requires working capital. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.*

Our business is working capital intensive. We have a continued and sustained working capital requirements to maintain sufficient inventory of products for steady supply. In addition, we require working capital for certain costs such as employee expense, lease payments, payment for inventory and project execution expenses, margin money deposit, etc. During the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, our working capital requirements amounted to ₹ 8,810.46 lakhs, ₹ 6,253.02 lakhs, ₹ 5,084.37 lakhs and ₹ 4,359.72 lakhs, respectively, amounting to 15.73%, 12.44%, 40.62% and 41.50% of our revenue from operations for the respective periods.

We may meet part of the working capital requirements through additional borrowings in future. A significant amount of our working capital is required for meeting operating expenses of our business. Our working capital requirements may increase if we secure new projects. This may result in increases in the amount of our receivables, short-term borrowings and the cost of availing such working capital funding.

Growth in our operations may result in increase in the quantum of current assets, particularly trade receivables. Our inability to obtain adequate amount of working capital at such terms which are favourable to us, in a timely manner or at all, may also have an adverse effect on our financial condition. Continued increases in our working capital requirements may have an adverse effect on our financial condition and results of operations. We cannot assure you that we will be successful in arranging adequate working capital through borrowings or cash flows from operations. Our inability to maintain sufficient cash flows, credit facilities and other sources of funds, in a timely manner or at all, to meet our working capital requirements may adversely affect our operations and financial condition.

20. *A portion of our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control.*

We intend to use the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 75. As on the date of this Draft Red Herring Prospectus, our funding requirements are based on management estimates in view of past expenditures, and have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the Net Proceeds are based on current conditions and are subject to change in light of changes in external circumstances, costs, business initiatives, other financial conditions or business strategies. While we will use the Net Proceeds for (i) augmentation of working capital requirements of our Company; (ii) prepayment or repayment of all certain outstanding borrowings availed by our Company; and (iii) general corporate purposes in the manner specified in “*Objects of the Issue*” on page 75, the amount of Net Proceeds to be actually used will be based on our management’s discretion. Owing to the nature of the Objects for which we propose to use the Net Proceeds, we have not entered into any definitive agreements to use the Net Proceeds. However, the deployment of the Net Proceeds will be monitored by a monitoring agency appointed pursuant to the SEBI ICDR Regulations. Our internal management estimates may exceed fair market value or the value that would have been determined by third-party appraisals, which may require us to reschedule or reallocate our capital expenditure and may have an adverse impact on our business, financial condition, results of operations and cash flows. We may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations and other financial and operational factors. Accordingly, prospective investors in the Issue will need to rely upon our management’s judgment with respect to the use of Net Proceeds. If we are unable to deploy the Net Proceeds in a timely or an efficient manner, it may affect our business and the results of operations. For further details, please see “*Objects of the Issue*” on page 75.

21. *Our business is manpower intensive, and the success of our business depends on employees who are able to maintain quality and consistency in client service. Our inability to attract or retain employees could adversely affect our business, financial condition and results of operations.*

Our business is manpower intensive and the success of our business depends on maintaining skilled employees, who are able to liaise with the Technology Partners, as well as our clients. This is dependent on our ability to attract, hire, train, and retain skilled personnel, monitor them continuously on key service parameters and guide them regularly. As of December 31, 2023, we had 1,686 employees, for further details in relation to our manpower, please see “*Our Business – Human Resources*” on page 143. Across our operations, we experienced attrition (calculated as employees who have left/ total employees) of 3.44%, 3.27%, 2.81% and 21.82% in the nine months ended December 31, 2023 and Fiscals 2023, 2022, 2021, respectively. We may not always be able to retain our personnel or find and hire personnel with the necessary experience or expertise. In addition, we

may need to increase the overall compensation and other benefits in order to attract and retain personnel in the future and that may affect our costs and profitability. There can be no assurance that we will be able to recruit and retain the right personnel and functional experts or will be successful in delivering consistent services.

22. *Any failure to maintain the quality of client service and deal with client complaints could materially and adversely affect our business and operating results.*

We provide client support at all stages to our clients through e-mail and telephone support via a dedicated client care number. If we fail to provide quality client service, our clients may be less inclined to purchase our products and services for future projects. Our ability to ensure a satisfactory client experience for a large part depends on our Technology Partner's ability to provide high-quality products and services. Client complaints also typically relate to miscommunication or misunderstanding regarding the quality of products, as well as matters which do not involve any default or deficiency on our part. However, failure to maintain the quality of client services or satisfactorily resolving client complaints, could harm our reputation and our ability to retain existing clients and attract new clients, which may materially and adversely affect our business, financial condition, cash flows and results of operations. Further, negative client feedback can result in diversion of management attention and other resources, which may adversely affect our business operations.

23. *An inability to effectively manage our growth and expansion may have a material adverse effect on our business prospects and future financial performance.*

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our ability to achieve our growth strategies will be subject to a range of factors, including our ability to identify market opportunities and demands in the industry, compete with existing companies in our markets, consistently exercise effective quality control, hire and train qualified personnel to provide our services. Many of these factors are beyond our control and there is no assurance that we will succeed in implementing our strategies. We may face increased risks when we enter new markets in India, and may find it more difficult to hire, train and retain qualified employees in new regions.

Our business growth could strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems on a timely basis and to expand, train, motivate and manage our workforce. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability, and may adversely affect our growth prospects. Our inability to manage our business and implement our growth strategy could have a material adverse effect on our business, financial condition and profitability.

24. *We enter into certain related party transactions in the ordinary course of our business, and we cannot assure you that such transactions will not have an adverse effect on our results of operation and financial condition.*

We have entered into transactions with related parties in the past and may enter into related party transactions in the future from time to time. These transactions, among others include sales, purchases, services, salaries, wages and bonus to KMPs, salary to a relative of KMPs by virtue of the relative being an employee of the Company, rent expenses, borrowings availed, etc. All such transactions have been conducted on an arm's length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and have not been prejudicial to the interests of our Company. All related party transactions that we may enter into post-listing, will be subject to an approval by our Audit Committee, Board, or Shareholders, as required under the Companies Act and the SEBI Listing Regulations. Such related party transactions in the future or any other future transactions may potentially involve conflicts of interest which may be detrimental to the interest of our Company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects. For instance, our Company uses certain properties that are leased from one of our Promoter, please see "*Our Promoters and Promoter Group—Interest of our Promoters*" on page 171. For further information, please see "*Issue Document Summary - Summary of Related Party Transactions*", and "*Restated Financial Information - Related Party Disclosure – Note-32*" on pages 15 and 210, respectively.

25. *Our growth strategy to expand our geographical footprints exposes us to certain risks, and if we are unable to manage these risks it may have a material adverse effect on our operations.*

Currently, we provide IT Infrastructure solutions and IT managed services to various sectors including education, healthcare, public distribution system, rural & urban development, science & technology sectors etc. While we have a predominant presence in the state of Gujarat. We intend to increase our presence pan India by securing and servicing projects in other states of India and we may be exposed to risks, which may arise due to lack of familiarity and understanding of the economic conditions, demography, trends, client tastes and preference and culture of such areas. For further information, see "*Our Business – Strategies - Continue to expand our geographical footprints*" on page 134. The risks involved in entering a new geographical areas and expanding operations, may be higher than expected, and we may face significant competition in such markets.

Any potential expansions into new geographical regions, could subject us to additional risks associated with establishing and conducting operations, including:

- compliance with a wide range of laws, regulations and practices, including uncertainties associated with changes in laws, regulations and practices and their interpretation in that region;
- ability to understand client preferences and local trends in such new regions;
- exposure to expropriation or other government actions; and political, economic and social instability; and
- right location for setting up our branch, service centre or warehouse.

Further, there can be no assurance that even if we are able to successfully implement our plan to deepen geographical penetration, we may be able to effectively manage our expanded operations. If we are not able to manage the risk of such expansion it could have a material adverse effect on our operations.

26. *We may seek to expand our service portfolio by tapping into niche categories of IT Infrastructure solutions and IT managed services. If such services do not witness demand that we expect them to, our business and results of operations may be adversely affected.*

We plan to expand into niche high-growth service categories such as data migration, payment devices and experience zone. For further information, please see “*Our Business – Strategies – Expanding and augmenting our products and service portfolio*” on page 134. Our focus on such service diversification may expose us to new operational, regulatory and market risks as well as risks associated with additional capital requirements as well as other considerable risks, including:

- our inability to integrate new operations, personnel, products, services and technologies;
- unforeseen or hidden liabilities, including exposure to lawsuits associated with new services quality and sales;
- the diversion of resources from our existing businesses;
- failure to comply with laws and regulations as well as industry or technical standards of service and product categories into which we seek to diversify;
- our inability to generate sufficient revenues to offset the costs and expenses behind focusing our resources on the new service categories; and
- potential loss of, or harm to employees or client relationships.

Any of these events could disrupt our ability to manage our business, which in turn could have a material adverse effect on our financial condition and results of operations. Such risks could also result in our failure to derive the intended benefits of the service diversification, and we may be unable to benefit from such expansion initiatives, which may adversely impact our growth and prospects.

27. *We have issued Equity Shares during the last one year at a price that may be below the Issue Price.*

In the last one year, we have issued Equity Shares at a price that may be lower than the Issue Price. We made a bonus issuance of 1,97,76,155 Equity Shares of face value of ₹ 10 each, on February 12, 2024 to our existing shareholders. For further details, see the section titled “*Capital Structure*” at page 63 of this Draft Red Herring Prospectus. The price at which the Equity Shares have been issued in the last one year is not indicative of the price at which Equity Shares may be offered in the Issue or at the price at which they will trade upon listing.

28. *We may be subject to employee unrest, slowdowns and increased wage costs, which may have an adverse effect on our business, operations, our cash flow and financial condition.*

As of December 31, 2023, we have 1,686 permanent employees. In the nine months ended December 31, 2023 and Fiscals 2023, 2022 and 2021 and, we incurred employee benefits expense of ₹ 3,012.98 lakhs, ₹ 3,739.55 lakhs, ₹ 716.91 lakhs and ₹ 467.03 lakhs, respectively, amounting to 5.38%, 7.44%, 5.73% and 4.45% of our revenue from operations in the corresponding periods. As on the date of this Draft Red Herring Prospectus, our employees are not unionised. However, in the event that employees seek to unionise, it may become difficult for us to maintain flexible labour policies, which may increase our costs and adversely affect our business. We believe our employees and personnel are critical to maintain our competitive position. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal, and legislation that imposes certain financial obligations on employers upon retrenchment. Although we have not experienced any labour unrest, we cannot assure you that we will not experience disruptions in our work due to disputes or other problems with our workforce, which may adversely affect our ability to continue our business operations. Any employee unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. Due to the nature of our business, we need to hire temporary and contractual labourers which makes our operations vulnerable to regional labour unions. Further, our third-party suppliers may experience strikes or other labour

disruptions and shortages that could affect our operations, possibly for a significant period of time, resulting in increased wages, shortage in manpower and other costs and otherwise have a material adverse effect on our business, results of operations or financial condition. These actions are very difficult for us to predict or control and any such event could adversely affect our business, results of operations and financial condition. A potential increase in the salary scale of our employees as a result of organisation or unrest, or a disruption in services from our employees or contract manufacturers due to potential strikes, could adversely affect our business operations and financial condition.

29. We have to invest a substantial amount of resources to procure new projects which, if we are unable to procure, could have an adverse effect on our business, financial condition and results of operations.

We are constantly seeking to expand our business with existing clients and secure new clients. In addition, in order to continue expanding our business, we may need to significantly expand our sales and marketing efforts, which would increase our expenses and may not necessarily result in a substantial increase in business. If we are unable to generate a substantial number of new engagements for projects on a continued basis, our business, financial condition and results of operations would likely be adversely affected.

Furthermore, our business involves identifying IT Infrastructure solutions that will be useful and relevant to the business of the client in question and then developing the IT Infrastructure solutions once we secure the project. The period between our initial contact with a potential client and our securing of the project can extend over one or more fiscal quarters. To secure projects related to IT Infrastructure solutions, we generally have to educate our potential clients about the use and benefits of our IT Infrastructure solutions, which may require significant time and efforts without assurance of guaranteed business. In addition, we may have to incur expenditure and spend considerable amount of time in identifying, bidding and successfully securing new projects.

Overall, any significant failure to generate revenue or delays in recognising revenue after incurring costs related to our sales or services process could have a material adverse effect on our business, financial condition and results of operations.

30. Our Company, Directors, Promoters and Subsidiary are or may be involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows and results of operations.

There are outstanding legal and regulatory proceedings involving our Company, Directors and Promoters which are pending at different levels of adjudication before various courts, tribunals and other authorities. Such proceedings could divert the management's time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavorable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, business, financial condition and results of operations. The summary of such outstanding material legal and regulatory proceedings as on the date of this Draft Red Herring Prospectus is set out below:

Name of entity	Criminal proceedings	Tax proceedings	Statutory or regulatory proceedings	Disciplinary actions by the SEBI or the stock exchanges against our Promoters in the last five Fiscal Years	Other pending proceedings	Aggregate amount involved (in ₹ lakh)*
Company						
<i>Against our Company</i>	1	3	Nil	Not applicable	2	143.54
<i>By our Company</i>	Nil	Nil	Nil	Not applicable	Nil	-
Directors						
<i>Against our Directors</i>	Nil	Nil	Nil	Not applicable	1	2.86
<i>By our Directors</i>	Nil	Nil	Nil	Not applicable	Nil	-
Promoters						
<i>Against our Promoters</i>	Nil	Nil	Nil	Nil	1	2.86
<i>By our Promoters</i>	Nil	Nil	Nil	Not applicable	Nil	-
Subsidiary						
<i>Against our Subsidiary</i>	Nil	Nil	Nil	Nil	Nil	Nil
<i>By our Subsidiary</i>	Nil	Nil	Nil	Nil	Nil	Nil

Our Group Company is currently not a party to any pending litigation which would have a material impact on our Company. We cannot assure you that any of these on-going matters will be settled in favour of our Company, Directors or Promoters, respectively, or that no additional liability will arise out of these proceedings. Further, we cannot assure you that there will be no new legal and regulatory proceedings involving our Company, Promoters, Subsidiary, Directors and Group Company in the

future. An adverse outcome in any such proceedings may have an adverse effect on our business, financial position, prospects, results of operations and our reputation and divert the time and attention of our management. For further information, see “*Outstanding Litigation and Material Developments*” on page 259.

31. Documents related to educational background in connection with the biographies of one of our Promoters included in the section “Our Promoters and Promoters Group” of this Draft Red Herring Prospectus are not available.

Certain documents supporting the information included in this Draft Red Herring Prospectus with respect to educational background of one of our Promoters, Kiritkumar Chimanbhai Patel, disclosed in the section titled “*Our Promoters and Promoter Group*” on page 170, are not available. Accordingly, reliance has been placed on an affidavit furnished by our Promoter, Kiritkumar Chimanbhai Patel, to us and the BRLMs to disclose the details of his educational qualifications.

32. Non-compliance with, and changes in, safety, health, labour and other laws could adversely affect our business, results of operations and cash flows.

We are, and may be, subject to a broad range of safety, health, environmental and labour laws in the ordinary course of our business. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, any environmental damage or pollution and the presence of such substances or materials. Failure to comply with these laws can result in penalties or other sanctions. Finally, future laws, ordinances or regulations and future interpretations of existing laws, ordinances or regulations may impose additional material environmental liability. While we believe we are in compliance, in all material respects, with all applicable safety, health and environmental laws and regulations, the discharge of hazardous substances or other pollutants as a result of us disposing of goods or waste, particularly electronic waste, into the air, soil or water may nevertheless cause us to be liable to the Government of India or to third parties. In addition, we may be required to incur costs to remedy the damage caused by such discharges, pay fines or other penalties for non-compliance, which may adversely affect our financial condition and results of operations. Similarly, we may be subject to penalties if we are not in compliance with labour legislations and fail to make appropriate contributions as required by law. Accordingly, compliance with, and changes in, safety, health, environmental and labour laws may increase our compliance costs and as a result adversely affect our financial condition and results of operations.

33. As of December 31, 2023, we had contingent liabilities which have not been provided for in our financial statements and could adversely affect our financial condition.

As of December 31, 2023, our contingent liabilities that have not been accounted for in the Restated Financial Information, were as follows:

Particulars		As of December 31, 2023 <i>(in ₹ lakhs)</i>
(A)	Claims against the Company /disputed liabilities not acknowledged as debts	-
(B)	Disputed Statutory Claims	-
	Income Tax - Appeals preferred by Company	30.88
	Others	30.90
	Total	61.78

“(C) There are no commitments on account of estimated amount of contracts remaining to be executed on capital account and not provided for relating to property, plant and equipment.”

“(D) The Company is working with Government Department. Company have to give bank guarantee for each and every orders. The Bank guarantees are subject to completion of order, warranty of products. And the total of bank guarantee given as at December 31, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 is ₹ 2,089.08 lakhs, ₹ 2,553.34 lakhs, ₹ 1,304.13 lakhs and ₹ 1,060.87 lakhs, respectively, same should consider as contingent liability.”

If a significant portion of these liabilities materialize, it could have an adverse effect on our business, financial condition and results of operations. For further information, see “*Restated Financial Information –Note-31*” on page 209.

34. Our branch offices and warehouses are located on premises held by us on a leasehold basis. We cannot assure you that the lease deeds governing these premises will be renewed upon termination or that we will be able to obtain other premises on same or similar commercial terms.

Our branch offices, and warehouses are located on leasehold premises, and the agreements governing the premises may expire in the ordinary course. The respective leases for our branch offices and warehouses have a term ranging between one year and three years. We cannot assure you that we will be able to continue operating out of our existing premises or renew our existing leases on acceptable terms or at all. Any such event may adversely impact our operations and cash flows and may divert management attention from our business operations. In case of any deficiency in the title of the owners from whose premises we operate, breach of the contractual terms of any lease deed, or lease and license agreements, or if any of the owners of these premises do not renew the agreements under which we occupy the premises, or if they seek to renew such agreements on terms

and conditions unfavorable to us, or if they terminate our agreements, we may suffer a disruption in our operations and will have to look for alternate premises.

In addition, certain of our lease deeds include provisions specifying fixed increases in rental payments over the respective terms of the lease deeds. While these provisions have been negotiated and are specified in the lease deeds, they will increase our costs of operation and therefore may materially and adversely affect our results of operation if we are not able to consistently increase our sales for the subsequent years.

Where we do not have an option to renew a lease deed, we must negotiate the terms of renewal with the lessor, who may insist on a significant modification to the terms and conditions of the lease deed. If a lease deed is renewed at a rate substantially higher than the existing rate, or if any existing favourable terms granted by the lessor are not extended, we must determine whether it is desirable to renew on such modified terms.

We may be delayed or be unable to enter a definitive lease deed for various reasons, some of which are beyond our control, which may result in us not being able to recover deposits placed with relevant owners. Further, in the event such letters of intent lapse or are terminated, we may have to identify suitable alternate locations for which we may have to expend significant time and resources. In addition, lease deeds are required to be duly registered and adequately stamped under Indian law and if any of our lease deeds is not duly registered and adequately stamped, we may face challenges in enforcing them and they may be inadmissible as evidence in a court in India subject to penalties along with the requisite stamp duty prescribed under applicable Indian law being paid.

35. *Our Registered and Corporate Office is located on leased premises and there can be no assurance that the lease agreement will be renewed upon termination or that we will be able to obtain other premises on lease on same or similar commercial terms.*

We do not own the premises on which our Registered and Corporate Office is located, and we operate from premises which are taken on leave and license from our Promoter and Managing Director, Ridhish Kiritbhai Patel. The leave and license is valid for three years starting from February 10, 2022 with six months of lock-in period. We cannot assure that there won't be any adverse impact on the lease in case of the Promoter's disassociation with the Company or that we will be able to retain or renew our lease on commercially acceptable terms or at all. In the event that we are required to vacate our current premises, we would be required to make alternative arrangements for new offices and other infrastructure and we cannot assure that the new arrangements will be on commercially acceptable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay increased charges, which could have an adverse effect on our business, financial condition, cash flows and results of operations.

36. *Our Statutory Auditors have included matters of emphasis on the basis of preparation of the Restated Financial Information.*

Our Statutory Auditors have included the following emphasis of matter in the audit reports in our Restated Financial Information:

Our opinion is not modified in respect of this matter.”

37. We are dependent on our Promoters, our Senior Managerial Personnels, and Key Managerial Personnels, and the loss of our Senior Managerial Personnels or Key Managerial Personnels may adversely affect our growth and performance.

We are dependent on the continued contributions of our Promoters, Ridhish Kiritbhai Patel, Kiritkumar Chimanbhai Patel and Ami Ridhish Patel, who have spearheaded our growth. We believe that the inputs and experience of our Senior Managerial Personnels and Key Managerial Personnels are valuable for the growth and development of business and operations and the strategic directions taken by our Company. In addition, while we remunerate our Senior Managerial Personnels and Key Managerial Personnels based on bottom line performances to maintain lower costs, we may need to increase their overall compensation and other benefits in order to attract and retain such personnel in the future and that may affect our costs and profitability. While there have not been any resignations or changes to our key managerial personnel in the nine months period ended December 31, 2023 and Fiscals 2023, 2022 and 2021, except as disclosed in “*Our Management- Changes in the Key Managerial Personnel or Senior Management Personnel in last three years*” on page 169, we cannot assure you that we will be able to retain these individuals or find adequate replacements in a timely manner, or at all.

38. We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition.

Some of the financing arrangements entered into by us include conditions that require our Company to obtain consents/NOCs from respective lenders prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents/NOCs could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions that require prior consents/NOCs from or intimations to certain lenders include, amongst others, are (i) adverse changes in capital structure; (ii) undertaking any new project, scheme of expansion or

diversification or capital expenditure; (iii) change in our constitution, structure, members, management control and legal and/or beneficial ownership; (iv) dilution of the shareholding of the existing Promoters and/or directors below current levels or dilution in their controlling stake whether by way of pledge, transfer, attachment, lien, charge or in any other manner for any reason; (v) change in the shareholding pattern; (vi) opening any account with other bank; (vii) change the practice with regard to remuneration of our Directors by means of ordinary remuneration or commission, scale of sitting fees etc. except where mandated by any legal or regulatory provisions; (viii) take any action which might have material adverse effect on the constitution of borrower; and (ix) approaching the capital market for mobilizing additional resources.

While we have received all relevant consents/NOCs required for the purposes of this Issue and have complied with these covenants, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. While we have not defaulted on any covenants in financing agreements as on April 30, 2024 or in last three Fiscals, we cannot assure you that this will continue to be the case in the future. We may avail non-fund based bank guarantees which contain restrictive covenants, which may in turn adversely affect our business, results of operations, cash flows and financial condition.

A failure to observe the covenants under our financing arrangements constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements, that include, among others, (i) termination or cancellation of either part or whole of the facility; (ii) modification or revision of the terms of the facility; (iii) lender possessing the assets hypothecated and/or mortgaged to the lenders; (iv) appointing a nominee director on the Board of our Company to look after lender's interest; (v) imposition of monetary penalty; (vi) enforcement of security; and (vii) acceleration of repayment or initiation of recalling of the loans. If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. In addition, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. A default by us under the terms of any financing agreement may also trigger a cross-default under some of our other financing agreements, or any other agreements or instruments of our containing cross-default provisions, which may individually or in aggregate, have an adverse effect on our operations, financial position and any credit ratings. For further information regarding our borrowings, please see "Financial Indebtedness" on page 230.

39. Certain unsecured loans availed by our Company and its Subsidiary are repayable on demand. Any demand for repayment of such unsecured loans, may adversely affect our cash flows.

As of April 30, 2024, we had availed unsecured loans aggregating to ₹ 985.45 lakhs, out of which ₹ 416.51 lakhs are from banks and financial institutions and ₹ 568.94 lakhs are from our Directors and Promoters. The unsecured loans our Company and Subsidiary have availed from our Directors and Promoters are repayable on demand. Please see below table indicating the unsecured loans our Company and Subsidiary have availed from our Directors and Promoters, as at April 30, 2024:

Unsecured loans availed by Company from our Promoters and Directors:

<i>(In ₹ lakhs)</i>	
Name of the Director	Outstanding as on April 30, 2024
Ami Ridhish Patel	437.51
Kiritkumar Chimanbhai Patel	Nil
Ridhish Kiritbhai Patel	91.12

Unsecured loans availed by the Subsidiary from our Promoters and Directors:

<i>(In ₹ lakhs)</i>	
Name of the Director	Outstanding as on April 30, 2024
Ami Ridhish Patel	38.98
Kiritkumar Chimanbhai Patel	0.33
Ridhish Kiritbhai Patel	1.00

Any failure to service such indebtedness, or otherwise perform any obligations under such financing agreements may lead to acceleration of payments under such credit facilities, which may have a material adverse effect on our business, cash flows and financial conditions. For further information regarding our loans, please see "Financial Indebtedness" on page 230.

40. We rely on financing from banks or financial institutions to carry on our business operations, and inability to obtain additional financing on terms favourable to us or at all could have an adverse impact on our financial condition. Further, certain of our financing agreements involve variable interest rates and an increase in interest rates may adversely affect our results of operations and financial condition. If we are unable to raise additional capital, our business and future financial performance could be adversely affected.

As of April 30, 2024, we had total outstanding consolidated financial indebtedness of ₹ 7,976.93 lakhs. Our existing operations

and execution of our business strategy may require substantial capital resources and we may incur additional debt to finance these requirements in the future. However, we may be unable to obtain sufficient financing on terms satisfactory to us, or at all. If interest rates increase it will be difficult to obtain credit. We will continue to incur significant expenditure in maintaining and growing our existing infrastructure. We cannot assure you that we will have sufficient capital for our current operations, any future expansion plans that we may have and our ability to complete such expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. Any unfavourable change to terms of borrowings may adversely affect our cash flows, results of operations and financial conditions. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations, financial condition and cash flows could be adversely affected.

Changes to government policies may create restrictions on our ability to raise capital. Further, we are susceptible to changes in interest rates and the risks arising therefrom. Certain of our financing agreements provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further, under certain of our financing agreements, the lenders are entitled to charge the applicable rate of interest, which is a combination of a base rate/MCLR rate that depends upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company's credit risk rating. Further, in recent years, the GoI has taken measures to control inflation, which included tightening the monetary policy by raising interest rates. As such, any increase in interest rates may have an adverse effect on our business, results of operations, cash flows, and financial condition.

There can be no assurance that we will be able to comply with our current financing agreements or continue to access funds, including by way of short-term borrowings, on acceptable terms or at all. While we seek to mitigate against such risks by exploring favourable funding options from banks/financial institutions, there is no assurance that we will be successful in doing so. Any failure to obtain the requisite funds to meet our requirements or expand or modernize existing capabilities could result in our inability to effectively compete with other players in the healthcare industry, which could have a material adverse effect on our profitability, cash flows and results of operations.

41. Any downgrade in our credit ratings could increase our borrowing costs, affect our ability to obtain financing, and adversely affect our business, results of operations and financial condition.

The cost and availability of our capital depends on our credit ratings. Credit ratings reflects the opinion of the rating agency on our management, track record, diversified clientele, increase in scale and operations and margins, medium term revenue visibility and operating cycle. Infomeries Ratings has assigned us a long term rating of 'IVR Triple B Minus with Stable Outlook' and a short term rating of 'IVR A Three' to our bank facilities *vide* its ratings rationale dated April 26, 2023.

While we have not had any downgrade in our credit ratings in the nine months period ended December 31, 2023 and the last three Fiscals, we cannot assure you that this will continue to be the case in the future. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows. In addition, any downgrade in our credit ratings could increase the probability that our lenders impose additional terms and conditions to any financing or refinancing arrangements we enter into in the future and adversely affect our business, results of operations and financial condition.

42. Demand for our business is dependent on industry, Government spending and general economic conditions, there can be no assurance that future fluctuations in economic or business cycles, or other events that could influence GDP growth, will not have an adverse effect on our business and as a result our results of operations.

The demand for our business is also dependent on the level of domestic, regional and global economic growth and we are vulnerable to general economic downturns with respect to our business. Our business is also directly affected by changes in Government spending.

During periods of strong economic growth, demand for our business may grow at a rate equal to, or even greater than, that of the Indian GDP. Conversely, during periods of slow GDP growth, such demand may exhibit slow or even negative growth. Recent global economic developments have adversely affected the Indian markets. India's economy is showing signs of resilience with GDP growing to estimated 7.3% in FY 2024. Although this translates into only a slight uptick in demand (compared to FY 2023- 7.2%), the GDP growth in FY 2023 represents a return to pre pandemic era growth path. Despite this moderation in growth, India continues to remain one of the fastest growing economies in the world. [Source: D&B Report] However, there can be no assurance that future fluctuations in economic or business cycles, or other events that could influence GDP growth, will not have an adverse effect on our business and as a result our results of operations.

43. Our insurance policies may not be adequate to cover all losses incurred in our business. An inability to maintain adequate insurance cover to protect us from material adverse incidents in connection with our business may adversely affect our

operations and profitability.

We have obtained insurance policies that we believe are customary in our industry, such as ‘property insurance’ for our registered office and ‘stock insurance policy’ for our products in warehouses. Additionally, we have also obtained group mediclaim policy, employee personal accident policy and employees compensation insurance policy for our employees. Further, due to our contractual obligation for our Ongoing Projects, we have also obtained ‘fire insurance policy’, ‘burglary insurance’ and ‘goods storage policy’ for our project locations and we may have to maintain aforementioned as well as any additional insurance policies for our ongoing and future projects. For further information regarding the insurance policies obtained by us, see “*Our Business – Insurance*” on page 143. As of the nine months ended December 31, 2023, and Fiscals 2023, 2022, 2021, our insurance coverage was for ₹ 8,699.99 lakhs, ₹ 1,106.46 lakhs, ₹ 316.20 lakhs and ₹ 327.59 lakhs, respectively, which was 72.14%, 60.94%, 9.14% and 7.63% of our net tangible assets for the respective periods. Our insurance coverage may not adequately protect us against all material hazards as the policies may not be sufficient to cover all our economic losses.

Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. Our inability to maintain adequate insurance cover in connection with our business or honour the contractual obligations could cause reputational damage and adversely affect our operations. In addition, our insurance policies are subject to annual review, and we cannot assure you that we will be able to renew these policies on similar or otherwise acceptable terms, or at all. To the extent that we suffer loss as a result of events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected.

44. Our Promoters and certain of our Directors are interested in our Company’s performance in addition to their remuneration and reimbursement of expenses.

In addition to regular remuneration or benefits and reimbursement of expenses, our Promoters and certain of our Directors are otherwise interested in our Company. This interest is to the extent of their shareholding in our Company, their rights to the extent of any dividends, bonuses or other distributions on such Equity Shares, repayment of unsecured loans Company availed from our Promoters, and their rights in relation to certain properties leased by them to our Company. We cannot assure you that our Promoters and Directors will exercise their rights as Shareholders to the benefit and best interest of our Company. As Shareholders of our Company, our Promoters or Directors may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see “*Our Management*” and “*Our Promoters and Promoter Group- Interests of Our Promoters*” on pages 153 and 171, respectively.

45. Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by Dun & Bradstreet Information Services India Private Limited exclusively commissioned and paid for by us for such purpose.

We have availed the services of an independent third-party research agency, Dun & Bradstreet Information Services India Private Limited, appointed by our Company on February 8, 2024, to prepare an industry report titled “*Industry Report on IT Infrastructure Industry in India*” issued in May 2024 for purposes of inclusion of such information in this Draft Red Herring Prospectus to confirm our understanding of the industry in which we operate. The D&B Report is a paid report and is subject to various limitations and based upon certain assumptions that are subjective in nature. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus. The D&B Report uses certain methodologies for market sizing and forecasting. Accordingly, investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context. Given the scope and extent of the D&B Report, disclosures are limited to certain excerpts and the D&B Report has not been reproduced in its entirety in this Draft Red Herring Prospectus, but is available on the website of the Company at www.armeeinfotech.com. For further information, including disclosures made by Dun & Bradstreet Information Services India Private Limited in connection with the preparation and presentation of their report, please see “*Certain Conventions, Presentation of Financial, Industry and Market Data – Industry and Market Data*” on page 21.

46. The average cost of acquisition of Equity Shares by the Promoters may be less than the Issue Price.

The average cost of acquisition of Equity Shares by the Promoters may be less than the Issue Price. The details of the average cost of acquisition of Equity Shares held by the Promoters are set out below:

S. No.	Name of the Promoter	Number of Equity Shares (of face value of ₹ 10 each) held on a fully diluted basis	Average cost of acquisition per Equity Shares* (in ₹ lakhs)
1.	Ami Ridhish Patel	1,80,81,180	5.63

2.	Kiritkumar Chimanbhai Patel	25,21,542	6.26
3.	Ridhish Kiritbhai Patel	14,01,492	18.09

*As certified by M/s Kantilal Patel & Co, Chartered Accountants, by way of their certificate dated June 21, 2024.

47. Our Promoters will continue to exercise significant influence over us after completion of the Issue.

As on the date of this Draft Red Herring Prospectus, our Promoters held 92.72% of the issued and outstanding equity share capital of our Company. Post listing, our Promoters and Promoter Group will continue to exercise significant influence over us through their shareholding after the Issue. In accordance with applicable laws and regulations, our Promoters will have the ability to exercise, directly or indirectly, a significant influence over our business.

48. Our Company may not be able to pay dividends in the future. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures and the terms of our financing arrangements.

Any dividends to be declared and paid in the future are required to be recommended by our Company's Board of Directors and approved by its Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. Our Company's ability to pay dividends in the future will depend upon our future results of operations, financial condition, cash flows, sufficient profitability, working capital requirements and capital expenditure requirements. Our Company has not paid any dividends since its incorporation. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our Shareholders in future, or at all. Please see "Dividend Policy" on page 176 of this Draft Red Herring Prospectus.

49. None of the Promoters of our Company have experience of being a promoter of a public listed company.

The Promoters of our Company do not have the experience of being a promoter or director of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, the Company will require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited quarterly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies. Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Promoters of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

50. We have in this Draft Red Herring Prospectus included certain non-GAAP financial measures and certain other industry measures related to our operations and financial performance. These non-GAAP measures and industry measures may vary from any standard methodology that is applicable across the Indian information technology distribution industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies.

Certain non-GAAP financial measures and certain other industry measures relating to our operations and financial performance have been included in this Draft Red Herring Prospectus. We compute and disclose such non-GAAP financial measures and such other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of Indian information technology distribution industry, many of which provide such non-GAAP financial measures and other industry related statistical and operational information. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our audited financial statements as reported under applicable accounting standards disclosed elsewhere in this Draft Red Herring Prospectus.

These non-GAAP financial measures and such other industry related statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other companies. Risks Related to India

51. *Recent global economic conditions have been challenging and continue to affect the Indian market, which may adversely affect our business, financial condition, results of operations and prospects.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors’ reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India and could then adversely affect our business, financial performance and the price of our Equity Shares.

Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our equity shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders’ equity and the price of our Equity Shares.

52. *Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as typhoons, flooding, and/or earthquakes), epidemics, pandemics such as COVID-19, and man-made disasters, including acts of war, terrorist attacks, and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, and results of operations. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, adversely impact availability of natural gas, increase in supply chain, logistics times and costs, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India. Our operations may be adversely affected by fires, natural disasters, and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity, and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic, and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1, and H1N1 strains of influenza in birds and swine and more recently, the SARS-CoV-2 virus and the monkeypox virus. A worsening of the current outbreak of the COVID-19 pandemic or future outbreaks of SARS-CoV-2 virus or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business and the trading price of the Equity Shares.

53. *Any downgrading of India’s sovereign debt rating by an international rating agency could have a negative impact on our business and results of operations.*

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to credit ratings for India and other jurisdictions we operate in by international rating agencies may adversely impact our ability to raise additional financing. This could have an adverse effect on our ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Share.

54. *Changing laws, rules or regulations and legal uncertainties including taxation laws, or their interpretation, such changes may significantly affect our financial statements.*

The regulatory environment in which we operate is evolving and is subject to change. The GoI may implement new laws or other regulations that could affect the industry in which we operate, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Accordingly, any adverse regulatory change in this regard could lead to fluctuation of prices of raw materials and thereby increase our operational costs. For information on the laws applicable to us, see “Key Regulations and Policies” on page 145.

The Income Tax Act, 1961 (“IT Act”) was amended to provide domestic companies an option to pay corporate income tax at the effective rate of approximately 25.17% (inclusive of applicable surcharge and health and education cess), as compared to

effective rate of 34.94% (inclusive of applicable surcharge and health and education cess), provided such companies do not claim certain specified deductions or exemptions. Further, where as company has opted to pay the reduced corporate tax rate, the minimum alternate tax provisions would not be applicable. Any such future amendments may affect our ability to claim exemptions that we have historically benefited from, and such exemptions may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability. Due to the COVID -19 pandemic, the GoI had also passed the Taxation and Other Laws (Relaxation of Certain Provisions) Act, 2020, implementing relaxations from certain requirements under, amongst others, the Central Goods and Services Tax Act, 2017 and Customs Tariff Act, 1975.

Further, with the implementation of GST, we are obligated to pass on any benefits accruing to us as result of the transition to GST to the consumer thereby limiting our benefits. In order for us to utilise input credit under GST, the entire value chain has to be GST compliant, including us. While we are and will continue to adhere to the GST rules and regulations, there can be no assurance that our suppliers and dealers will do so. Any such failure may result in increased cost on account of non-compliance with the GST and may adversely affect our business and results of operations.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax (“**DDT**”), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and health and education cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the GoI has amended the IT Act to abolish the DDT regime. Accordingly, any dividend distributed by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the Company is required to withhold tax on such dividends distributed at the applicable rate.

Further, the GoI has notified the Finance Act, 2024 (“**Finance Act**”), which has introduced various amendments to the IT Act. As such, there is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business and operations, could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent, may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

Similarly, changes in other laws may require additional compliances and/or result in us incurring additional expenditure. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

55. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, United States, United Kingdom, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market

liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

56. *If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate thereby reducing our margins.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, wages, raw materials and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our clients, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or entirely offset any increases in costs with increases in prices for our products. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the Government has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

57. *We may be affected by competition laws, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended (“**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“**AAEC**”). Under the Competition Act, any formal or informal arrangement, understanding, or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment, or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. On March 4, 2011, the Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to and pre-approved by the Competition Commission of India (the “**CCI**”). Additionally, on May 11, 2011, the CCI issued Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered by us could be within the purview of the Competition Act. Further, the CCI has extraterritorial powers and can investigate any agreements, abusive conduct, or combination occurring outside India if such agreement, conduct, or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered by us cannot be predicted with certainty at this stage. However, since we pursue an acquisition driven growth strategy, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows, and prospects.

Risks Relating to the Equity Shares and this Issue

58. *The trading volume and market price of the Equity Shares may be volatile following the Issue.*

Conditions in the Indian securities market may affect the price or liquidity of the Equity Shares. Further, the market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts’ recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;

- changes in exchange rates;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

59. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

60. *Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.*

SEBI and the Stock Exchanges have introduced various pre-emptive surveillance measures in order to enhance market integrity and safeguard the interests of investors, including ASM and GSM. ASM and GSM are imposed on securities of companies based on various objective criteria such as significant variations in price and volume, concentration of certain client accounts as a percentage of combined trading volume, average delivery, securities which witness abnormal price rise not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net worth, price/earnings multiples and market capitalization, among others. Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of client accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency, reduction of applicable price band, requirement of settlement on gross basis or freezing of price on upper side of trading, as well as the mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by any of the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares and the same may in cause disruptions in the development of an active trading market for our Equity Shares.

61. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as STT paid, the quantum of gains and any available treaty exemptions. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India.

Furthermore, if non-resident shareholders of entities holding the Equity Shares exit by way of sale or redemption of the shares held by them abroad in such entities, such non-resident shareholders could be taxed on capital gains in India if the offshore shares derive substantial value from Indian assets, subject to certain exemptions. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India only in limited situations and generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. Similarly, any business income realized from the transfer of Equity Shares held as trading assets is taxable at the applicable tax rates subject to any treaty relief, if applicable, to a non-resident seller.

Furthermore, the Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

Our Company cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our Company's business, results of operations, financial condition and cash flows. Investors should consult their own tax advisors about the consequences of investing in or trading in Equity Shares.

62. *Our Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for our Equity Shares.*

Prior to this Issue, there has been no public market for our Equity Shares. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. We cannot assure you that an active trading market for the Equity Shares will develop or be sustained after this Issue. The Issue Price of our Equity Shares will be determined through the Book Building Process and may not be indicative of the market price of our Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of our Equity Shares may be subject to significant fluctuations in response to various factors, including variation in our operating results, market conditions specific to our industry, and volatility in stock exchanges and securities markets.

Further, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a company. These broad market fluctuations and industry factors may materially reduce the market price of our Equity Shares, regardless of our Company's performance. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

63. *There is no guarantee that our Equity Shares will be listed on the BSE and NSE in a timely manner or at all. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid/ Issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

64. *Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.*

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares including to comply with minimum public shareholding norms applicable to listed companies in India or, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

65. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or

reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Instruments Rules, all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the FDI Policy dated October 15, 2020 and the FEMA Non-debt Instruments Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India.

We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 301.

66. *Significant differences exist between Ind AS and other accounting principles, which investors may be more familiar with and may consider material to their assessment of our financial condition.*

Our Restated Financial Information for the nine months period ended December 31, 2023 and Fiscals 2023, 2022, 2021 have been prepared and presented in conformity with Ind AS. Ind AS differs in certain significant respects from other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should be limited accordingly.

67. *The determination of the Price Band is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue. Further, the current market price of some securities listed pursuant to certain previous issues managed by the BRLMs is below their respective issue prices.*

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLMs through the Book Building Process. These will be based on numerous factors, including factors as described under “*Basis for Issue Price*” on page 83 and may not be indicative of the market price for the Equity Shares after the Issue.

In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the BRLMs is below their respective issue price. For further information, see “*Other Regulatory and Statutory Disclosures – Price information of past issues handled by the BRLMs*” on page 272. The factors that could affect the market price of Equity Shares include, among others, broad market trends, financial performance and results of our Company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

68. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Bidders are not permitted to withdraw their Bids after Bid/Issue Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are required to block the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of equity shares or the Bid Amount) at any stage after submitting a Bid. Similarly, Retail Individual Bidders can revise or withdraw their Bids at any time during the Bid/Issue Period and until the Bid/ Issue Closing date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within six Working Days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors’ decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment.

We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the investors’ ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing. Therefore, QIBs and Non-Institutional Bidders will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash

flows or otherwise between the dates of submission of their Bids and Allotment.

69. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

70. *The requirements of being a publicly listed company may strain our resources.*

We are not a listed company and have historically not been subjected to the compliance requirements and increased scrutiny of our affairs associated with being a listed company by shareholders, regulators and the public at large. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations or cash flows as promptly as other listed companies.

Furthermore, as a listed company, we will be required to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, financial condition, results of operations and cash flow. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

71. *A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.*

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of SEBI Takeover Regulations.

72. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, Directors' fiduciary duties, responsibilities and liabilities, and Shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholders of our Company than as a shareholder of an entity in another jurisdiction.

Use of Net Proceeds by our Company	For details of the use of proceeds from the Issue, see “ <i>Objects of the Issue</i> ” on page 75.

- (1) Our Board has authorised the Issue, pursuant to a resolution dated May 3, 2024. Our Shareholders have authorised the Issue pursuant to a special resolution dated May 9, 2024.
- (2) If at least 75% of the Issue cannot be Allotted to QIBs, the entire application money will be refunded forthwith. In the event aggregate demand in the QIB Portion has been met, subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company in consultation with the BRLMs and the Designated Stock Exchange, in accordance with applicable laws. Under-subscription, if any, in the Net QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.
- (3) Our Company may, in consultation with the BRLMs, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will be accordingly reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion will be reserved for domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Issue Price. In case of under-subscription or non- Allotment in the Anchor Investor Portion, the remaining Equity Shares will be added back to the Net QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIBs (other than Anchor Investors) in proportion to their Bids. Please see “Issue Procedure” on page 284.
- (4) Not more than 15% of the Issue shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 2,00,000 and up to ₹ 10,00,000 and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 10,00,000 and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. The allocation to each Non-Institutional Investor shall not be less than the minimum application size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI ICDR Regulations
- (5) Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories at the discretion of our Company, the BRLMs and the Designated Stock Exchange subject to applicable law. For further details, please see “Issue Structure” on page 281.

Pursuant to Rule 19(2)(b) of the SCRR, the Issue is being made for at least [●]% of the post-Issue paid-up Equity Share capital of our Company. Allocation to all categories, except the Anchor Investor Portion, if any, the Non-Institutional Portion and the Retail Portion, shall be made on a proportionate basis, subject to valid Bids being received at or above the Issue Price. The allocation to each Retail Individual Bidders shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to Anchor Investors shall be on a discretionary basis. For further details, please see “Issue Structure”, “Terms of the Issue” and “Issue Procedure” on pages 281, 276 and 284, respectively.

(b) *Details of Promoters' contribution and lock-in*

Pursuant to Regulations 14 and 16 (1)(a) of the SEBI ICDR Regulations, an aggregate of at least 20% of the fully diluted post-Issue Equity Share capital of our Company held by our Promoters shall be considered as the minimum Promoters' contribution and is required to be locked-in for a period of eighteen months from the date of Allotment ("**Minimum Promoters' Contribution**"). Our Promoters' shareholding in excess of 20% shall be locked in for a period of six months from the date of Allotment.

The details of the Equity Shares held by our Promoters, which shall be locked-in for Minimum Promoters' Contribution for a period of eighteen months, from the date of Allotment are set forth below: *

Name of the Promoter	Number of Equity Shares locked-in	Date up to which Equity Shares are subject to lock-in	Date of acquisition of Equity Shares and when made fully paid-up	Nature of transaction	Face value (₹)	Issue/Acquisition price per Equity Share (₹)	Pre- Issue Equity Share capital (%)	Percentage of post- Issue Equity Share capital
[•]	[•]	[•]	[•]	[•]	[•]	[•]	[•]	[•]

*To be completed prior to filing of the Prospectus with the RoC.

Our Promoters have given consent to include such number of Equity Shares held by them as disclosed above, constituting 20% of the fully diluted post-Issue Equity Share capital of our Company as Minimum Promoters' Contribution and have agreed not to sell, transfer, charge, pledge or otherwise encumber in any manner the Minimum Promoters' Contribution from the date of filing this Draft Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

Our Company undertakes that the Equity Shares that are being locked-in will not be ineligible for computation of Minimum Promoters' Contribution in terms of Regulation 15 of the SEBI ICDR Regulations. For details of the build-up of the share capital held by our Promoters, please see "*Capital Structure —Details of build-up, contribution and lock-in of Promoters' shareholding and lock-in of other Equity Shares – Build-up of Promoters' Equity shareholding in our Company*" on page 66.

In this connection, we confirm the following:

- (i) The Equity Shares offered towards Minimum Promoters' Contribution have not been acquired during the three immediately preceding years (a) for consideration other than cash and revaluation of assets or capitalization of intangible assets, or (b) arising from bonus issue by utilization of revaluation reserves or unrealised profits of our Company or from a bonus issue against Equity Shares, which are otherwise ineligible for computation of Minimum Promoters' Contribution;
- (ii) The Equity Shares offered towards Minimum Promoters' Contribution have not been acquired by our Promoters during the year immediately preceding the date of this Draft Red Herring Prospectus at a price lower than the Issue Price;

- (iii) Our Company has not been formed by the conversion of one or more partnership firms or a limited liability partnership firm into a company;
- (iv) The Equity Shares forming part of Minimum Promoters' Contribution are not subject to any pledge; and
- (v) All Equity Shares held by our Promoters are in dematerialised form as on the date of this Draft Red Herring Prospectus.

(c) *Details of Equity Shares locked-in for six months*

In addition to the Equity Shares proposed to be locked-in as part of the Minimum Promoters' Contribution as stated above, the entire pre-Issue Equity Share capital of our Company will be locked-in for a period of six months from the date of Allotment in terms of Regulation 16(1)(b) and 17 of the SEBI ICDR Regulations.

(d) *Lock-in of the Equity Shares to be Allotted, if any, to the Anchor Investors*

50% of the Equity Shares Allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment, and the remaining 50% of the Equity Shares Allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

(e) *Other requirements in respect of lock-in*

Pursuant to Regulation 20 of the SEBI ICDR Regulations, details of locked-in Equity Shares will be recorded by relevant depositories.

Pursuant to Regulation 21 of the SEBI ICDR Regulations, the locked-in Equity Shares held by our Promoters may be pledged only with scheduled commercial banks or public financial institutions or a systemically important NBFC or a housing finance company as collateral security for loans granted by such scheduled commercial bank or public financial institution or systemically important NBFC or housing company, provided that specified conditions under the SEBI ICDR Regulations are complied with. However, the relevant lock-in period shall continue pursuant to the invocation of the pledge referenced above, and the relevant transferee shall not be eligible to transfer the Equity Shares till the relevant lock-in period has expired in terms of the SEBI ICDR Regulations.

Pursuant to Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters, which are locked-in in accordance with Regulation 16 of the SEBI ICDR Regulations, may be transferred to and among our Promoters and any member of the Promoter Group, or to a new promoter of our Company and the Equity Shares held by any persons other than our Promoters, which are locked-in in accordance with Regulation 17 of the SEBI ICDR Regulations, may be transferred to and among such other persons holding specified securities that are locked in, subject to continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the SEBI Takeover Regulations, as applicable.

Except for any employee stock options that may be granted pursuant to the ARMEE ESOP PLAN 2024, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments into, or which would entitle any person any option to receive Equity Shares, as on the date of this Draft Red Herring Prospectus.

22. Our Company shall ensure that there shall be only one denomination of the Equity Shares, unless otherwise permitted by law.
23. Neither the Book Running Lead Managers nor any associate of the Book Running Lead Managers (except Mutual Funds sponsored by entities which are associates of the Book Running Lead Managers or insurance companies promoted by entities which are associate of Book Running Lead Managers or AIFs sponsored by the entities which are associate of the Book Running Lead Managers or FPIs, other than individuals, corporate bodies and family offices sponsored by the entities which are associate of the Book Running Lead Managers) shall apply in the Issue under the Anchor Investor Portion.
24. None of the investors of the Company are directly or indirectly related with the Book Running Lead Managers and/or their associates.
25. As on the date of this Draft Red Herring Prospectus, none of the Equity Shares held by our Promoters and members of our Promoter Group are pledged or otherwise encumbered.
26. No person connected with the Issue, including, but not limited to, the members of the Syndicate, our Company, our Directors, our Promoters, members of our Promoter Group or Group Company, shall offer or make payment of any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid, except for fees or commission for services rendered in relation to the Issue.
27. **Employee Stock Option Scheme**

Our Company, pursuant to the resolutions passed by our Board in its meeting dated May 7, 2024 and our Shareholders in its meeting dated May 9, 2024, adopted ARMEE ESOP PLAN 2024 which is in compliance with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, as amended. The maximum number of Equity Shares that may be issued pursuant to the exercise of options granted to participants under ARMEE ESOP PLAN 2024 are such number of Equity Shares not exceeding 5% of the paid-up share capital of our Company (subject to adjustments for corporate actions such as subdivision of Equity Shares or consolidation of Equity Shares). Further, our Company undertakes that any options that may be granted under ARMEE ESOP PLAN 2024 will be in compliance with the requirements of the Companies Act, 2013 and shall only be granted to such individuals who as of the date of the grant are employees of the Company.

Our Company has not undertaken any other employee stock option scheme and has not granted any options since its incorporation.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan, management estimates and other commercial and technical factors. However, such fund requirements and deployment of funds have not been appraised by any bank, or financial institution. We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial and market condition, business and strategy, competition, variation in cost estimates on account of factors, incremental pre-operative expenses and other external factors such as changes in the business environment and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable laws. Our historical expenditure may not be reflective of our future expenditure plans. No bank, financial institution or other appraising entity has been appointed in relation to the Issue and the deployment of the Net Proceeds. For further information, see “*Risk Factors – 20. A portion of our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control.*” on page 33.

In the event that the estimated utilization of the Net Proceeds in a scheduled fiscal year is not completely met, due to the reasons stated above, the same shall be utilised in the next fiscal year, as may be determined by our Company, in accordance with applicable laws. Subject to applicable laws, in the event of any increase in the actual utilization of funds earmarked for the purposes set forth above, such additional funds for a particular activity will be met by way of means available to us, including from internal accruals

and any additional equity and/or debt arrangements. Further, if the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding other existing Objects.

Means of finance

Fund requirements for our Objects are proposed to be funded from the Net Proceeds and/ or through our internal accruals. Accordingly, we confirm that there are no requirements to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, in addition to the Net Proceeds, under Regulation 7(1)(e) of the SEBI ICDR Regulations.

Details of the Objects of the Issue

1. Augmentation of working capital requirements of our Company

As on December 31, 2023, our Company's net working capital consisted of ₹ 8,810.46 lakhs as against ₹ 6,253.02 lakhs as on March 31, 2023. Our business is working capital intensive and we fund a majority of our working capital requirements in the ordinary course of business from internal accruals and by entering into financing arrangements with various banks and financial institutions and unsecured loans. For details of the working capital facilities availed by our Company, see "*Financial Indebtedness*" on page 230.

In recent years, the business of our Company has grown substantially. Our Company had achieved revenue from operations of ₹ 50,269.51 lakhs in Financial Year 2023, ₹ 12,517.98 lakhs in Financial Year 2022 and ₹ 10,505.29 lakhs in Financial Year 2021, representing a CAGR of 118.75%. The Order Book of our Company as on December 31, 2023, is ₹ 64,310.78 lakhs. Considering the growth of our Company, we will require additional working capital to fund our growth. We intend to utilise up to ₹ 16,000.00 lakhs from the Net Proceeds to fund the working capital for meeting business requirements of our Company, providing earnest money deposit for bidding for various projects and margin deposits for bank guarantees, in Fiscal 2025 and Fiscal 2026.

Key assumptions for working capital projections

The working capital projections made by our Company are based on certain key assumptions, as set out below:

Sr. No.	Particulars	Assumptions
1.	Inventories	<p>The inventory generally depends upon nature and quantity involved in the projects.</p> <p>The inventory holding period is maintained in the range of 10 to 19 days for the Fiscal Year 2024 to 2026 as against the range of 13 to 109 days experienced during the Fiscal Year 2021 to 2023.</p> <p>To meet the requirements of business activities projected for the Fiscal Year 2025 and 2026 the levels of inventories have been considered in the assessment accordingly.</p>
2.	Trade receivables	<p>The major clients of the Company are Government/PSU entities. Even though the Company has an agreement with them for recovery of dues in 60-90 days, there has always been an experience of late payment due to technical and administrative issues. In Fiscal Years 2021 and 2022, COVID adversely affected the business worldwide which was out of the Company's control, the receivable days increased to 142 days and 141 days respectively. The majority of accumulated receivables were collected towards the end of Fiscal Year 2023 which brings down receivable drastically up to 57 days.</p> <p>However, the Company has estimated 74 days for Fiscal Year 2024 and projected 74 days and 66 Days as trade receivable days for Fiscal Years 2025 & 2026.</p>
3.	Other financials and current assets	<p>The category of "Other financial and current assets" primarily includes balances such as, security deposit, balances with statutory authorities, and amount due from customers (unbilled revenue). Unbilled revenue is revenue that has been earned by the Company only act of invoicing is pending. To align with the projected business activity, the Company has projected the level of other current assets as of 71 days for the Fiscal Year 2024 and 77 days for Fiscal Year 2025.</p>
4.	Trade payables	<p>The Company's trade payable days (with respect to payments to be made to suppliers of materials) for Fiscal Year 2024 and Fiscal Year 2025 are in line with the Fiscal Year 2023 (figures of Fiscal Years 2021 & 2022 are not considered for comparison since COVID adversely affected the business worldwide which was out of our control). As the Company was unable to recover the trade receivables on time during Fiscal Years 2021 and 2022, the Company's capacity to clear its trade payables was adversely affected. Subsequently, as a majority of such accumulated trade receivables were collected by the end of Fiscal Year 2023, it resulted in a higher clearing of the trade payables in Fiscal Year 2023, as compared to Fiscal Years 2021 and 2022, with trade payables days dropping drastically from 256 days (in Fiscal Year 2022) to 86 days (in Fiscal Year 2023). The Company has received an order for supply, installation and maintenance of various products related to IT Infra etc, which involves procurement of material to execute orders. Hence, blended trade payable has been projected at 140 days and 106 days for the Fiscal Years 2025 and 2026.</p>
5.	Other financial and current liabilities	<p>The category "Other financial and current liabilities" primarily includes statutory dues payable, advance from customer, tax expenses and similar obligations. To align with the projected business activity, the Company has projected the level of</p>

Sr. No.	Particulars	Assumptions
		other current liabilities within the range of 2 to 4 days for Fiscal Years 2025 and 2026.

Note: As certified by M/s Kantilal & Co., Chartered Accountants, by way of certificate dated June 21, 2024.

2. Prepayment or repayment of certain outstanding borrowings availed by our Company

Our Company has entered into various financing arrangements from time to time, with various lenders. The financing arrangements availed by our Company include, *inter alia*, term loans, business loans and working capital facilities. For further details, please refer “Financial Indebtedness” on page 230. As of April 30, 2024, our total outstanding borrowings amounted to ₹ 7,976.93 lakhs, on a consolidated basis. Our Company proposes to utilise an estimated amount of up to ₹ 1,063.22 lakhs from the Net Proceeds towards pre-payment or repayment of all of certain unsecured loans and other types of facilities availed by our Company.

We believe that the pre-payment or repayment will help reduce our existing borrowings, assist us in maintaining a favourable debt-equity ratio and enable utilisation of our internal accruals for further investment in business growth and expansion.

The following table provides details of loans and facilities availed by our Company, out of which we propose to pre-pay or repay, all of the below mentioned loans and/or facilities, up to an amount aggregating to ₹ 1,063.22 lakhs from the Net Proceeds:

S. No	Name of lender	Nature of borrowing	Date of sanction letter	Amount sanctioned as per sanction letter (In ₹ lakhs)	Amount outstanding as on December 31, 2023 (In ₹ lakhs)	Purpose for which loan was availed	Tenor/ Repayment schedule	Interest rate per annum as of December 31, 2023	Pre-payment penalty, if any
Borrowings by our Company									
1	Deutsche Bank	Loan against property	November 6, 2023	995.00	986.11	Business expansion	Monthly repayment for 84 months	9.00%	4.00% of the loan outstanding at the time of loan closure
2	Aditya Birla Finance Ltd	Flexi loan	May 30, 2023	70.00	54.71	Working capital	Monthly repayment for 24 months	17.50%	4% of the total withdrawable amount + GST
3	Tata Capital Financial Services	Dropline overdraft	July 27, 2023	25.20	22.40	Business loan	Monthly repayment for 36 months	17.00%	5%+GST of pre-payment amount
	Total			1,125.20	1,063.22				

Note: In accordance with Clause 9(A)(2)(b) of Part A of Schedule VI of the SEBI ICDR Regulations which requires a certificate from the statutory auditor certifying the utilization of loan for the purpose availed, our Company has obtained the requisite certificates from the Statutory Auditor of the Company dated June 21, 2024 in respect of the Company.

The loans that we propose to repay from Net Proceeds (amounting to ₹ 1,063.22 lakhs) constitute 26.30% of the total outstanding borrowings of our Company as on December 31, 2023. The selection of borrowings proposed to be repaid/pre-paid by us shall be based on various factors including (i) any conditions attached to the borrowings restricting our ability to prepay the borrowings and time taken to fulfil such requirements, (ii) levy of any prepayment penalties and the quantum thereof, (iii) other commercial considerations including, among others, the interest rate on the loan facility, the amount of the loan outstanding and the remaining tenor of the loan, (iv) receipt of consents for prepayment and (v) provisions of any law, rules, regulations governing such borrowings. The borrowings with a higher rate of interest are proposed to be repaid by the Company. Further, our Company has obtained written consents from our lenders for undertaking the Issue.

Payment of additional interest, prepayment penalty or premium, if any, and other related costs shall be made by us out of the internal accruals or out of the Net Proceeds as may be decided by our Company. Given the nature of the above-mentioned borrowings and the terms of repayment, the aggregate outstanding borrowing amounts which we propose to repay may vary from time to time. In light of the above, if at the time of filing this Draft Red Herring Prospectus or after that date, any of the above-mentioned loans or facilities may be repaid in part or full or refinanced and our Company may also avail additional borrowings and/or draw down further funds under existing loans from time to time. Accordingly, the table above shall be suitably revised to reflect the revised amounts or loans as the case may be which have been availed by our Company. In addition to the above, we may, from time to time, enter into further financing arrangements and draw down funds thereunder. In such cases or in case any of the above loans are prepaid, repaid, redeemed (earlier or scheduled), refinanced or further drawn down prior to the completion of the Issue, we may utilize Net Proceeds towards prepayment

and/or repayment of such additional indebtedness availed by us, details of which shall be provided in the Red Herring Prospectus.

3. General Corporate Purposes

We will have flexibility in utilizing the balance Net Proceeds, if any, for general corporate purposes, subject to such utilisation not exceeding 25% of the Gross Proceeds from the Issue in accordance with Regulation 7(2) of the SEBI ICDR Regulations, including but not restricted towards strategic initiatives, funding growth opportunities i.e. to enter any joint venture/partnership for any specific project, including acquisitions and meeting exigencies, brand building, capital expenditure, business development initiatives i.e. one time expenditure, meeting expenses incurred by our Company in relation to its projects for procuring equipment or other expenditures, as may be applicable. The quantum of utilisation of funds toward the aforementioned purposes will be determined by our Board based on the amount actually available under the head “General Corporate Purposes” and the corporate requirements of our Company, from time to time.

In case of variations in the actual utilization of funds designated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any which are not applied to the other purposes set out above. In the event our Company is unable to utilise the Net Proceeds towards any of the objects of the Issue for any of the reasons as aforementioned, our Company may utilise such Net Proceeds towards general corporate purposes, provided that the aggregate amount deployed towards general corporate purposes shall not exceed 25% of the Gross Proceeds from the Issue.

In addition to the above, our Company may utilize the Net Proceeds towards other expenditure (in the ordinary course of business) considered expedient and approved periodically by our Board. Our Company’s management, in accordance with the policies of our Board, shall have flexibility in utilising surplus amounts, if any, and consequently our funding requirement and deployment of funds may also change. This may also include rescheduling the proposed utilization of Net Proceeds and increasing or decreasing expenditure for a particular Object i.e., the utilization of Net Proceeds.

Interim use of Net Proceeds

The Net Proceeds pending utilisation for the purposes stated in this section, shall be deposited only with scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as amended. Monitoring of Utilization of Funds

In terms of Regulation 41 of the SEBI ICDR Regulations, prior to filing the Red Herring Prospectus with RoC, we will appoint a SEBI registered credit rating agency as monitoring agency to monitor the utilization of the Gross Proceeds. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee. Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Gross Proceeds and submit the report required under Regulation 41(2) of the SEBI ICDR Regulations. Our Company will disclose the utilisation of the Gross Proceeds, including interim use under a separate head in its balance sheet until such time as the Gross Proceeds remain unutilized, clearly specifying the purposes for which the Gross Proceeds have been utilised. Our Company will also, in its balance sheet for the applicable fiscal periods, provide details, if any, in relation to all such Gross Proceeds that have not been utilised, if any, of such currently unutilised Net Proceeds.

Pursuant to the SEBI Listing Regulations, our Company shall on a quarterly basis disclose to the Audit Committee the uses and application of the Gross Proceeds. Our Company shall, on an annual basis, prepare a statement of Gross Proceeds utilised for purposes other than those stated in this Draft Red Herring Prospectus and place it before our Audit Committee. Such disclosure shall be made only until such time that the Gross Proceeds have been utilised in full. The statement shall be certified by the Statutory Auditors. Furthermore, in accordance with the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Issue from the Objects of the Issue as stated above; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Issue from the Objects of the Issue as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results and explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

Variation in Objects

In accordance with Sections 13(8) and 27 of the Companies Act, our Company shall not vary the Objects of the Issue unless our Company is authorized to do so by way of a special resolution of its Shareholders. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details and be published in accordance with the Companies Act. The notice will be published in the newspapers, one in English, one in Hindi and one in Gujarati (Gujarati being the regional language of Gujarati, where our Registered Office is located). Pursuant to Sections 13(8) and 27 of the Companies Act, 2013, our Promoters will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the Objects, subject to the provisions of the Companies Act, 2013 and in accordance with such terms and conditions, including in respect of pricing of the Equity Shares, in accordance with the Companies Act, 2013 and the SEBI ICDR Regulations.

Appraising agency

None of the Objects of the Issue for which the Net Proceeds will be utilized have been appraised by any bank/ financial institution/any other agency.

Other confirmations

None of our Directors, Promoters, Promoter Group, Key Managerial Personnel or Senior Management Personnel, will receive any portion of the Issue proceeds. There are no material existing or anticipated transactions in relation to the utilisation of the Net Proceeds entered into or to be entered into by our Company with our Promoters, Promoter Group, Directors, Key Managerial Personnel and/or Senior Management Personnel.

BASIS FOR ISSUE PRICE

The Price Band and the Issue Price will be determined by our Company, in consultation with the BRLMs, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of the qualitative and quantitative factors as described below. The face value of the Equity Shares is ₹ 10 each and the Issue Price is [●] times the Floor Price and [●] times the Cap Price.

Investors should also refer to “Risk Factors”, “Our Business”, “Restated Financial Information”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 24, 130, 177 and 232, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the Issue Price are:

- Proven track record in executing projects for Government and PSU clients;
- Consistent track record of financial performance;
- Ability to service IT Infrastructure solutions and IT managed services to clients engaged in diverse sectors; and
- Experienced Board of Directors and management with extensive domain knowledge.

For further details, please see “Our Business – Our Strengths” on page 132.

Quantitative Factors

Certain information presented below relating to our Company is derived from the Restated Financial Information for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021. For details, please see the section titled “Restated Financial Information” on page 177.

Some of the quantitative factors which may form the basis for calculating the Issue Price are as follows:

I. Basic and diluted Earnings per Share (“EPS”):

Fiscal Year / Period ended	Basic EPS (in ₹)	Diluted EPS (in ₹)	Weight
March 31, 2023	6.98	6.98	3
March 31, 2022	1.42	1.42	2
March 31, 2021	1.57	1.57	1
Weighted Average	4.23	4.23	-
Nine months ended December 31, 2023 [^]	10.52	10.52	-

[^] Not annualized

Notes:

- 1) The face value of each Equity Share is ₹10.
- 2) Basic EPS (₹) = Restated profit for the year/period attributable to the equity Shareholders of the Company divided by weighted average number of Equity Shares outstanding during the year/period.
- 3) Diluted EPS (₹) = Restated profit for the year/ended attributable to equity Shareholders of the Company divided by weighted average number of diluted Equity Shares and all dilutive potential Equity Shares outstanding during the year/period.
- 4) Basic EPS and Diluted EPS calculations are in accordance with Indian Accounting Standard 33 - ‘Earnings per Share’.
- 5) Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weight factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the period.
- 6) Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/total of weights.
- 7) The Board of Directors at its meeting held on December 25, 2023, had approved the bonus issue in the ratio of 5:1, i.e., five Equity Shares for every one Equity Share held and which was approved by the Shareholders by means of a special resolution dated January 18, 2024. Through a Board resolution dated February 12, 2024, the Company had allotted 1,97,76,155 Equity Shares of face value of ₹10 each as bonus shares to the existing equity Shareholders of the Company. Accordingly, the earnings per Equity Share have been adjusted for the bonus issue.
- 8) The Company acquired Armee Technology Services Private Limited as the wholly owned subsidiary, w.e.f. October 10, 2023. Accordingly, Armee Technology Services Private Limited became a Wholly Owned Subsidiary of the Company on October 10, 2023. The acquisition of shares was made by way of purchase of 9,54,600 fully paid-up equity shares of face value ₹ 10 each (which includes 100 shares held by Ridhish Kiritbhai Patel as nominee of the Company) of Armee Technology Services Private Limited.
- 9) The figures disclosed above are derived from the Restated Financial Information.

II. Price/Earning (“P/E”) ratio in relation to Price Band of ₹ [●] to ₹ [●] per Equity Share of our Company:

Particulars	P/E at the lower end of the Price Band (number of times)*	P/E at the upper end of the Price Band (number of times)*
P/E ratio based on basic EPS for Fiscal 2023	[●]	[●]
P/E ratio based on diluted EPS for Fiscal 2023	[●]	[●]

*Will be populated after finalization of Price Band

III. Industry Peer P/E ratio

Based on the peer company information (excluding our Company) given below in this section:

Particulars	Industry P/E (number of times)
Industry P/E	44.71

Notes:

1) There is only one listed peer company which is in the similar line of business segments as us. Hence, the highest, lowest and average industry P/E is same as shown above based on the peer information provided below under “Comparison of accounting ratios with Listed Industry Peer” on page 85.

2) P/E figures for the peer are computed based on closing market price as on May 24, 2024 available on the BSE, divided by Diluted EPS based on the financial results sourced from the annual report / financials of the listed industry peer for Fiscal 2023, as available on the website of the Stock Exchanges.

IV. Return on Net Worth (“RoNW%”) as derived from the Restated Financial Information

Fiscal Year / Period ended	RoNW (%)	Weight
March 31, 2023	35.49%	3
March 31, 2022	11.53%	2
March 31, 2021	13.96%	1
Weighted Average	23.92%	-
Nine months ended December 31, 2023 [^]	35.66%	

[^]Not annualised.

Notes:

1) Return on Net worth (%) shall mean the restated profit for the year/ period divided by net worth.

2) Net Worth shall mean the aggregate value of the paid-up share capital and all reserves created out of the profits, securities premium account and debit or credit balance of profit and loss account as per the Restated Financial Information, but does not include reserves created out of revaluation of assets and amalgamation.

3) Weighted average = Aggregate of year-wise weighted Return on Net Worth divided by the aggregate of weights i.e., (RoNW x weight) for each year divided by total of weights.

V. Net Asset Value (“NAV”) per Equity Share

Particulars	NAV per Equity Share (₹)
As on March 31, 2023	19.68
As on March 31, 2022	12.68
As on March 31, 2021	11.25
As on December 31, 2023 [^]	29.50
After the completion of the Issue:	
- At Floor Price	[●]*
- At Cap Price	[●]*
- At Issue Price	[●]*

[^]Not annualised.

* To be computed after finalisation of price band.

Notes:

1) Issue Price per Equity Share will be determined on conclusion of the Book Building Process.

2) Net Asset Value per Equity Share is calculated as Net Worth of the Company as at the end of the year/period divided by the weighted average number of Equity Shares used in calculating basic EPS. The weighted average number of Equity Shares outstanding during the year is adjusted for bonus issue of Equity Shares in December 31, 2023.

3) Net Worth shall mean the aggregate value of the paid-up share capital and all reserves created out of the profits, securities premium account and debit or credit balance of profit and loss account as per the Restated Financial Information, but does not include reserves created out of revaluation of assets and amalgamation.

4) Total equity has been computed by aggregating Equity Share capital and other equity.

5) The Board of Directors at its meeting held on December 25, 2023, had approved the bonus issue in the ratio of 5:1, i.e., five Equity Shares for every one Equity Share held and which was approved by the Shareholders by means of a special resolution dated January 18, 2024. Through a Board resolution dated February 12, 2024, the Company had allotted 1,97,76,155 Equity Shares of face value of ₹10 each as bonus shares to the existing equity Shareholders of the Company. Accordingly, the earnings per Equity Share have been adjusted for the bonus issue.

6) The Company acquired Armee Technology Services Private Limited as the wholly owned subsidiary, w.e.f. October 10, 2023. Accordingly, Armee Technology Services Private Limited became a Wholly Owned Subsidiary of the Company on October 10, 2023. The acquisition of shares was made by way of purchase of 9,54,600 fully paid-up equity shares of face value ₹ 10 each (which includes 100 shares held by Ridhish Kiritbhai Patel as nominee of the Company) of Armee Technology Services Private Limited.

VII. Key performance indicators (“KPIs”)

The table below sets forth the details of KPIs that our Company considers as having a bearing for arriving at the Basis for Issue Price. The KPIs disclosed below have been used historically by our Company to understand and analyse the business performance, which in turn, helps in analysing the growth of various verticals in comparison to our Company’s listed industry peer.

The KPIs disclosed herein below have been approved by a resolution of our Audit Committee dated June 21, 2024. The Audit Committee has confirmed and taken on record that other than the KPIs set out below, our Company has not disclosed any other KPIs to investors at any time during the three years period prior to the date of filing of this Draft Red Herring Prospectus. Additionally, the KPIs have been subjected to verification and certification by M/s Kantilal Patel & Co., Chartered Accountants, our Statutory Auditor by their certificate dated June 21, 2024. The certificate dated June 21, 2024, issued by M/s Kantilal Patel & Co., Chartered Accountants, has been included in “Material Contracts and Documents for Inspection” on page 322.

Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these KPIs should not be considered in isolation or construed as an alternative to Ind AS measures of performance, liquidity, profitability or results of operation.

The KPIs of our Company have also been disclosed in the sections titled “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, on pages 130 and 232, respectively.

Our Company confirms that it shall continue to disclose all the KPIs included in this section on a periodic basis, at least once in a year (or any lesser period as determined by the Board of our Company), for a duration of one year after the date of listing of the Equity Shares on the Stock Exchanges or till the utilisation of the Issue Proceeds as per the disclosure made in the section “Objects of the Issue” on page 75, whichever is later, or for such other duration as may be required under the SEBI ICDR Regulations.

1. This report is issued in accordance with the terms of the engagement letter dated **November 21, 2023**, with the Company.
2. We, M/s Kantilal Patel & Co., Chartered Accountants, the statutory auditors of the Company, hereby confirm that the enclosed **Annexure A**, prepared by the Company and initialled by us for identification purpose (“**Statement**”) for the Issue, provides the possible special tax benefits available to the Company and to its shareholders under direct tax and indirect tax laws presently in force in India, including the Income Tax Act, 1961, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017, Customs Act, 1962 and the Customs Tariff Act, 1975, each as amended (read with the rules, circulars and notifications issued in connection thereto) and as presently in force in India as on the date of this certificate and, as amended by the Finance Act, 2023, i.e. applicable for the Fiscal Year 2023-24 relevant to the assessment year 2024-25. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant statutory provisions. Hence, the ability of the Company and/or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on business imperatives the Company faces in the future, the Company may or may not choose to fulfil.
3. The accompanying Statement states the tax benefits available to the Company and its shareholders under the Income Tax Act, 1961 (Act). The Company does not have material subsidiaries as per the materiality policy considered by the Board of Directors. This statement of possible special tax benefits is required as per Schedule VI (Part A)(9)(L) of the SEBI ICDR Regulations. While the term ‘*special tax benefits*’ has not been defined under the SEBI ICDR Regulations, for the purpose of this Statement, it is assumed that with respect to special tax benefits available to the Company, the same would include those benefits as enumerated in the **Annexure A**. Any benefits under the taxation laws other than those specified in the **Annexure A** are considered to be general tax benefits and therefore, not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in the **Annexure A** have not been examined and covered by this Statement.

Management Responsibility

4. The preparation of the Statement is the responsibility of the management of the Company (“**Management**”) including the preparation and maintenance of all accounting and the other relevant supporting records and documents. The responsibility includes the design, implementation, and maintenance of internal control relevant to the preparation and presentation of the Statement; and making estimates that are reasonable in the circumstances.
5. The Management is also responsible for ensuring that the Company complies with the requirements of the SEBI ICDR Regulations.
6. The ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which

based on the business imperatives, the Company may or may not choose to fulfil.

Auditor's Responsibility for the Statement

7. We conducted our examination of the Statement in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) issued by the Institute of Chartered Accountants of India (“**Guidance Note**”). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
8. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Conclusion

9. Based on our examination, as above, and the information and explanations given to us, we hereby confirm that the enclosed **Annexure A** prepared by the Company states the possible special tax benefits available to the Company and its shareholders. The benefits discussed in the enclosed Statement are not exhaustive. We are informed that this Statement is only intended to provide general information to the investors and hence is neither designed nor intended to be a substitute for professional tax advice.
10. Our conclusion is based on the information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.
11. We do not express any opinion or provide any assurance as to whether:
 - (i) the Company or its shareholders will continue to obtain these benefits in future;
 - (ii) the conditions prescribed for availing the benefits, where applicable have been/would be met; or
 - (iii) the revenue authorities/courts will concur with the views expressed therein.
12. The contents of the enclosed Statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Usage of Report

13. This report may be relied upon by the Company and the Book Running Lead Managers in relation to the Issue. We hereby consent to the extracts of, or reference to, this report being used in the Draft Red Herring Prospectus, the Red Herring Prospectus, the Prospectus and in any other material used in connection with the Issue and other Issue related materials (collectively, the “**Issue Documents**”). We also consent to the submission of this report as may be necessary, to any regulatory authority and/or for the records to be maintained by the Book Running Lead Managers in connection with the Issue and in accordance with applicable law.

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER THE APPLICABLE LAWS IN INDIA

Outlined below are the special tax benefits available to ArMee Infotech Limited (the “Company”) and its Shareholders under the Income-tax Act, 1961 (the “Act”) as amended by the Finance Act, 2023 applicable for Financial Year 2023-24 relevant to the Assessment Year 2024-25.

• Lower corporate tax rate under section 115BAA

Section 115BAA has been inserted in the Act w.e.f. FY 2019-20. It gives an option to domestic company to be governed by this section from a particular assessment year. If a company opts for section 115BAA of the Act, the company can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). However once opted for reduced rate of taxation under the said section, it cannot be subsequently withdrawn.

Section 115BAA further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their ‘book profits’ under section 115JB of the Act. However, such a company will no longer be eligible to avail any specified exemptions / incentives under the Act and will also need to comply with the other conditions specified in section 115BAA. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it is entitled to on account of MAT paid in earlier years, will no longer be available.

Further, it shall not be allowed to claim set-off of any brought forward losses arising to it on account of additional depreciation and other specified incentives.

Further, it shall not be allowed to claim set-off of any brought forward losses arising to it on account of additional depreciation and other specified incentives. The Company has already evaluated and opted for the lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) with effect from AY 2020-21.

• Section 80JJAA: Deduction in respect of employment of new employees

Subject to fulfilment of prescribed conditions, the Company is entitled to claim deduction under the provisions of Section 80JJAA of the Act, of an amount equal to thirty per cent of additional employee cost (relating to specified category of employees) incurred in the course of business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided. The deduction u/s 80JJAA of the Act shall be applicable even if the Company avails the benefits of the special rate u/s 115BAA of the Act.

Special direct tax benefits available to the Shareholders

There are no special direct tax benefits available to the shareholders.

Notes:

1. There are no other special direct and indirect tax benefits that are available to the Company presently.
2. The above Statement sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
3. For direct tax benefits, this Annexure sets out only the special tax benefits available to the Company and the shareholders under the current Income-tax Act, 1961, i.e., the Act as amended by the Finance Act, 2023 applicable for the Financial Year 2023-24 relevant to the Assessment Year 2024-25, presently in force in India.
4. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax arising out of their participation in the Issue.
5. Our views expressed in this statement are based on the facts and assumptions as indicated in the statement. No assurance is provided that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

Industry information included in this Draft Red Herring Prospectus has been derived from an industry report prepared by Dun & Bradstreet Information Services India Private Limited exclusively commissioned and paid for by us for such purpose.” on page 42.

Global Macroeconomic Scenario

The global economy, estimated at 3.1% in 2023, is expected to show resilience at 3.1% in 2024 before rising modestly to 3.2% in 2025. Between 2021 – 2022, global banks were carrying a historically high debt burden after COVID-19. Central banks took tight monetary measures to control inflation and spike in commodity prices. Russia's war with Ukraine further affected the global supply chains and inflated the prices of energy and other food items. These factors coupled with war-related economic sanctions impacted the economic activities in Europe. Any further escalation in the war may further affect the rebound of the economy in Europe.

While China was facing a crisis in the real estate sector and prices of properties were declining between 2020 - 2023, with the reopening of the economy, consumer demand is picking up again. The Chinese authorities have taken a variety of measures, including additional monetary easing, tax relief for corporates, and new vaccination targets for the elderly. The government has also taken steps to help the real estate sector including cracking down on debt-ridden developers, announcing stimulus for the sector and measures to encourage the completion and delivery of unfinished real estate projects. The sector is now witnessing investments from developers and demand from buyers.

Global headline inflation is set to fall from an estimated 6.8% in CY 2023 to 5.8% in CY 2024 and to 4.4% in CY 2025. This fall is swifter than anticipated across various areas, amid the resolution of supply-related problems and tight monetary policies. Reduced inflation mirrors the diminishing impact of price shocks, particularly in energy, and their subsequent influence on core inflation. This decrease also stems from a relaxation in labour market pressure, characterized by fewer job openings, a slight uptick in unemployment, and increased labour availability, occasionally due to a significant influx of immigrants.

Global GDP Growth Scenario

The global economy started to rise from its lowest levels after countries started to lift the lockdown in 2020 and 2021. The pandemic lockdown was a key factor as it affected economic activities resulting in a recession in the year CY 2020, as the GDP growth touched -3.3%.

In CY 2021 disruption in the supply chain affected most of the advanced economies as well as low-income developing economies. The rapid spread of Delta and the threat of new variants in mid of CY 2021 further increased uncertainty in the global economic environment.

Global economic activities experienced a sharper-than-expected slowdown in CY 2022. One of the highest inflations in decades, seen in 2022, forced most of the central banks to tighten their fiscal policies. Russia's invasion of Ukraine affected the global food supply resulting in a further increment in the cost of living.

Further, despite initial resilience earlier in 2023, marked by a rebound in reopening and progress in curbing inflation from the previous year's highs, the situation remained precarious. Economic activity lagged behind its pre-pandemic trajectory, particularly in emerging markets and developing economies, leading to widening disparities among regions. Numerous factors are impeding the recovery, including the lasting impacts of the pandemic and geopolitical tensions, as well as cyclically-driven factors such as tightening monetary policies to combat inflation, the reduction of fiscal support amidst high debt levels, and the occurrence of extreme weather events. As a result, global growth declined from 3.5% in CY 2022 to 3.1% in CY 2023.

In the current scenario, global GDP growth is estimated to have recorded a moderate growth of 3.1% in CY 2023 as compared to 3.5% growth in CY 2022. While high inflation and rising borrowing costs are affecting private consumption, on the other hand, fiscal consolidation is affecting government consumption.

Slowed growth in developed economies will affect the GDP growth in CY 2024 and global GDP is expected to record a flat growth of 3.1% in CY 2024. The crisis in the housing sector, bank lending, and industrial sectors are affecting the growth of global GDP. Inflation forced central banks to adopt tight monetary policies. After touching the peak in 2022, inflationary pressures slowly eased out in 2023. This environment weighs in for interest rate cuts by many monetary authorities.

India Macroeconomic Analysis

GDP Growth Scenario

India's economy is showing signs of resilience with GDP growing to estimated 7.3% in FY 2024. Although this translates into only a slight uptick in demand (compared to FY 2023- 7.2%), the GDP growth in FY 2023 represents a return to pre pandemic era growth path. Despite this moderation in growth, India continues to remain one of the fastest growing economies in the world.

Sectoral Growth Trend: Annual

Sectoral analysis of GVA reveals growth tapered sharply in industrial sector which is estimated to have grown by just 3.6% in FY 2023 against 11.6% in FY 2022. In the industrial sector, growth across major economic activity such as mining, manufacturing, construction sector slowed registering a growth of 3.4%, 0.6% and 9.1% in FY 2023 against a growth rate of 7.1%, 11.05% and 14.8% recorded in FY 2022, respectively. Utilities sector too observed a marginal moderation in y-o-y growth to 9.2% against a decline of 3.6% in the previous years.

Talking about the services sectors performance, with major relaxation in covid restriction, progress on covid vaccination and living with virus attitude, business in service sector gradually returned to normalcy in FY 2022. Economic recovery was supported by the service sector as individual mobility returned to pre-pandemic level. The trade, hotel, transport, communication, and broadcasting segment continued to strengthen and grow by 14.18% in FY 2023 against 13.75% in the previous year and financial services, real estate and professional services sector recorded 6.85% y-o-y growth against 4.73%. However, overall service sector growth was curbed by moderation in public administration and defence services sector which recorded 7.12% yearly increase against 9.7% increase in the previous year.

Growth Outlook

Amidst the difficult and uncertain external economic environment, the Indian government has delivered a balanced Union Budget which focuses on achieving an inclusive and sustainable growth while adhering to the fiscal glide path. Notwithstanding the external risk, there is a sustained momentum in economic activity supported by domestic drivers. The consumer confidence survey by the Reserve bank of India points towards rising confidence of households both for the current situation as well as the future expectations (for a one-year period).

Rural demand is likely to be boosted by good prospects for agricultural output and discretionary spending is expected to support urban consumption supporting. Resilient domestic financial markets, sturdy growth in credit and the government's thrust on capital expenditure is expected to drive momentum in investment activity. Capacity utilization in the manufacturing sector has surpassed its long period average. Thus, the stance taken by the government to not only emphasize on the top-down approach to growth i.e focusing on substantial capital outlay, but also to place focus on the bottom of the pyramid by trying to unleash the potential of the primary sector in the Union Budget should support India's growth momentum in 2023.

Indian Information Technology Industry

According to NASSCOM, the Indian Information Technology (IT) Industry is estimated to have clocked a revenue of USD 244.6 billion in FY 2023. Between FY 2020 – FY 2023, the revenue in the Indian Technology industry grew at a CAGR of 9.60%, recording a phenomenal growth. Annual turnover in the industry grew by nearly 8% in FY 2023, down from approximately 15.5% that was recorded during the previous year. This slowdown in growth during FY 2023 was primarily caused by unfavourable macroeconomic conditions, geopolitical uncertainties, and cautious spending by clients in the technology sector, resulting in delays in closing deals.

Source: NASSCOM

Over the past four quarters or so, technology firms, particularly those providing software services and generating a significant portion of their revenue from international markets like North America and Europe, have experienced subdued business activity due to the economic slowdown in these regions. However, there have been some positive factors, such as stronger performance in the engineering, research, and development (ER&D) sector, and the continued growth of global capability centers (GCCs), with India remaining a preferred location.

Market Segmentation

By segmentation, the overall IT industry is estimated to earn 51.3% of the revenue from IT services while 19.5% from BPM services, 15.9% from ER&D, 7.5% from the IT hardware sector and 5.8% from software products in FY 2023.

Source: NASSCOM

During the past two years, COVID-19 pandemic accelerated the technology adoption across industries as businesses relied on digital tools for resilience and business continuity. The overall industry revenue has been driven by the fast-paced digitization and cloud adoption. Digital revenue share stood at 30-32%, recording an incremental revenue of USD13 bn in FY2022, registering 25% growth on y-o-y basis. The industry observed over 290 cross border M&As deal with their primary focus as digital.

Domestic IT Spending in India

Market Scenario

The Indian IT sector is experiencing a boom, with overall spending projected to reach a staggering USD138.9 billion in 2024, reflecting a healthy 13.2% growth from 2023. This surge is fueled by a collective increase across all major segments: Data Center Systems, Devices, Software, IT Services, and Communication Services.

Source: As per Gartner, sourced from public domain

Leading the pack is the software segment, anticipated to witness the highest growth rate of 18.6% in 2024. This can be attributed to factors like rising adoption of cloud-based solutions, increased demand for security software, and the growing importance of enterprise resource planning (ERP) tools. Businesses are actively investing in software that streamlines operations, enhances data management, and fosters innovation. The devices segment is also expected to experience significant growth of 16.9% in 2024. This could be due to a combination of factors such as the need for upgrading to newer devices with better functionalities, and the increasing penetration of smartphones and tablets across various demographics.

IT services, a major strength of the Indian IT industry, is projected to reach USD 26.1 billion in 2024, reflecting a growth of 14%. This continued growth indicates a strong demand for services like application development, systems integration, and managed IT services. Companies are increasingly outsourcing these tasks to leverage India's skilled workforce and cost-effectiveness. Data center spending is expected to reach USD 4.1 billion in 2024, showing a growth of 9.3%. This growth is likely driven by the expanding need for data storage and processing capabilities as businesses create and manage ever-growing volumes of data.

Communication services, though experiencing a slower growth rate of 5.8% compared to other segments, are still expected to reach USD 35.4 billion in 2024. This indicates a steady investment in communication infrastructure, including cloud-based solutions and enhanced bandwidth capabilities, to facilitate seamless information sharing and collaboration in a digital ecosystem.

Digital Transformation

Digital transformation involves the integration of digital technologies into all aspects of business operations, fundamentally changing how businesses operate and deliver value to customers. Indian businesses are undergoing a significant digital transformation to improve operational efficiency, enhance customer experience, and drive innovation. This transformation involves adopting technologies such as cloud computing, big data analytics, artificial intelligence, machine learning, and IoT to digitize processes, products, and services.

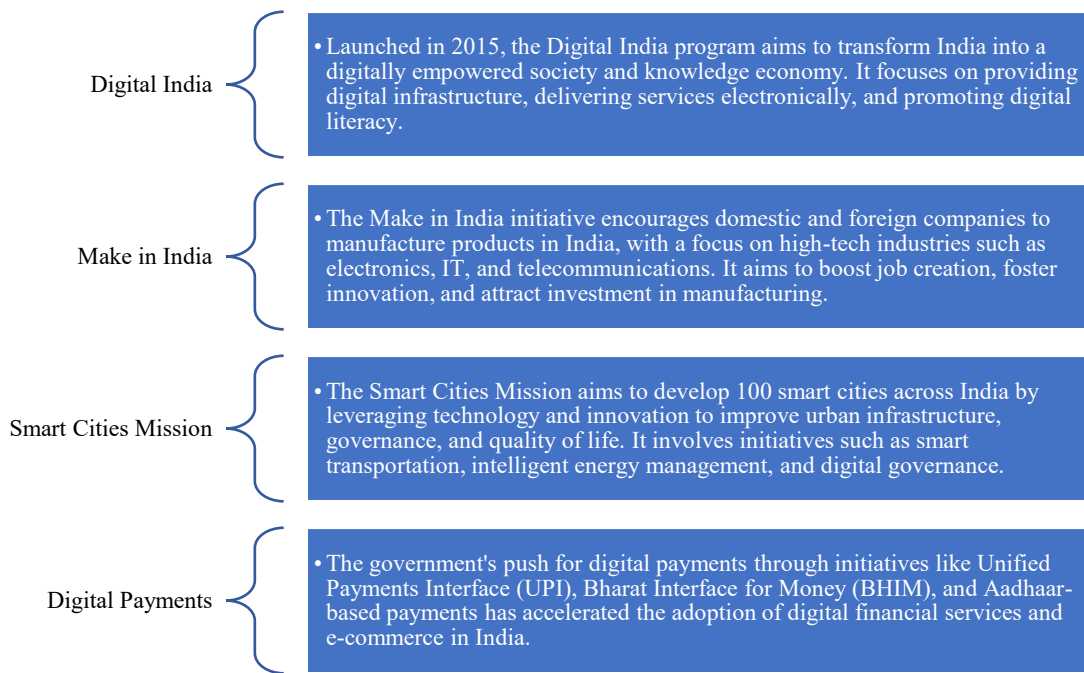

In India, digital transformation initiatives driving IT spending in India are:

Thus, businesses are aggressively investing in advanced technologies like cloud computing, AI, IoT, and big data analytics to revolutionize their operations, boost efficiency, and stay ahead in a fiercely competitive market.

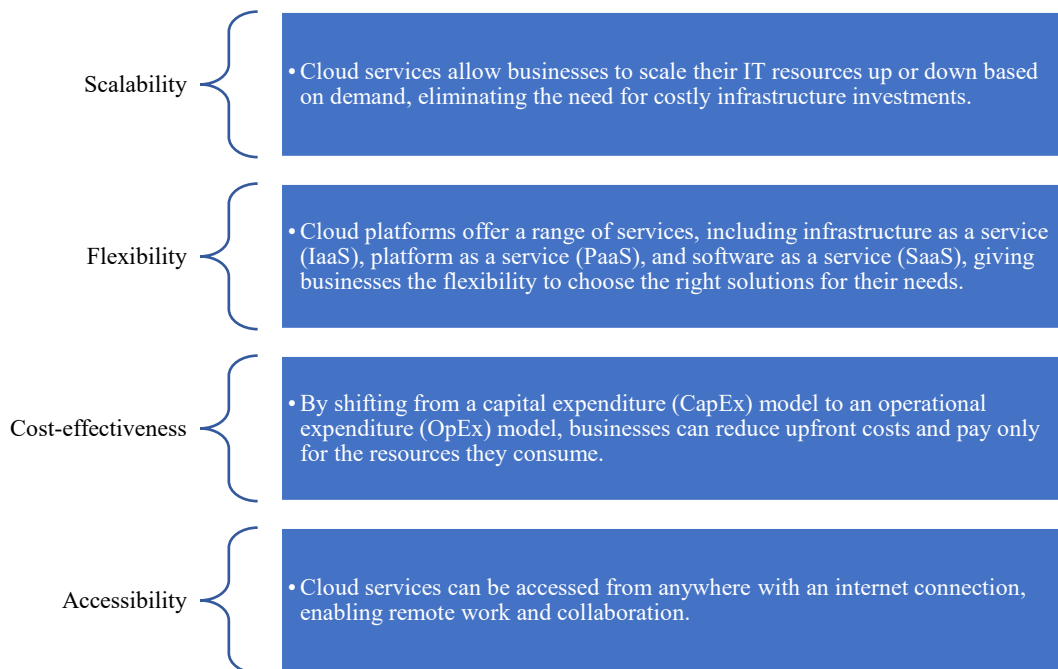

Government Initiatives

The Indian government has launched several initiatives to promote digitalization and innovation across various sectors. These initiatives include:

Cloud Adoption

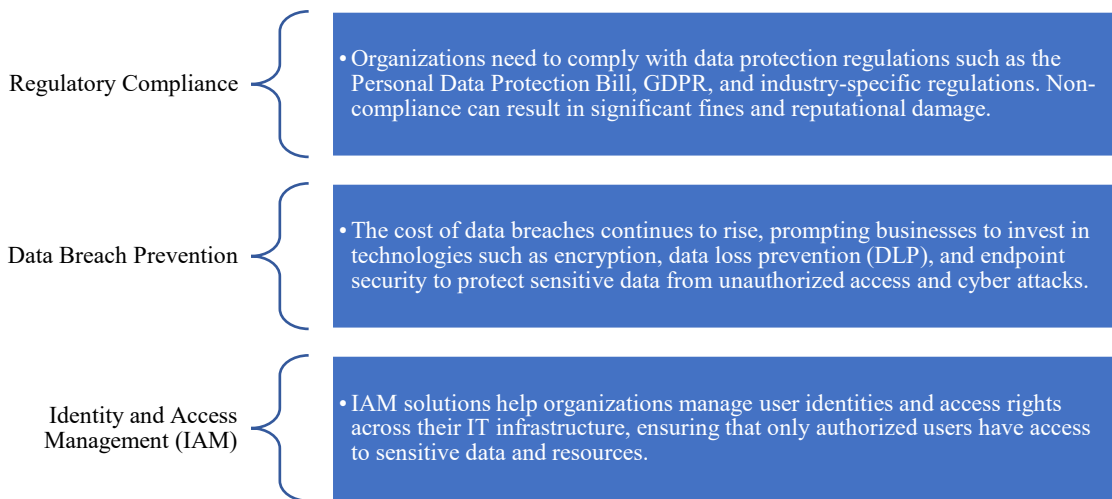

Indian businesses are increasingly adopting cloud computing services due to benefits such as scalability, flexibility, cost-effectiveness, and faster time-to-market. Cloud adoption enables organizations to access IT resources on-demand, without the need for significant upfront investment in hardware or infrastructure.

These benefits of cloud adoption are compelling organizations to ramp up IT spending as they transition towards cloud-based solutions to meet evolving business needs.

Data Privacy and Security

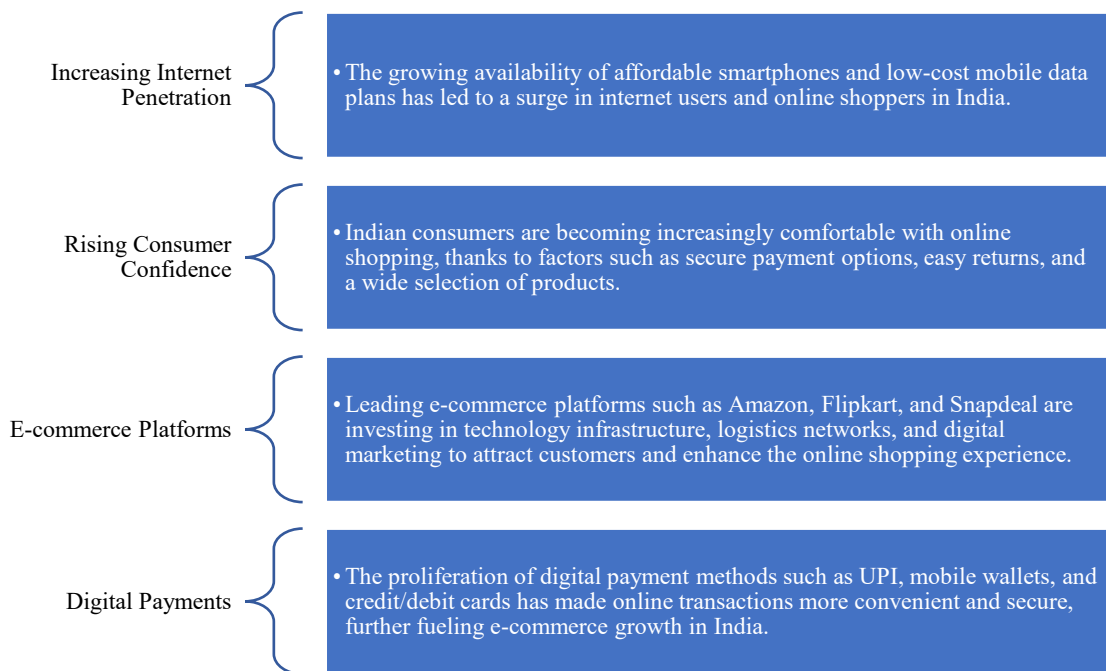

With the proliferation of cyber threats and the growing importance of data privacy regulations, Indian organizations are investing in cybersecurity solutions to protect sensitive data and ensure compliance. This includes investments in technologies such as encryption, threat detection and response, and identity and access management (IAM):

Thus, with cybersecurity threats on the rise and stringent regulations in place, businesses are channelling substantial resources into raising up their cybersecurity measures, ensuring data protection, and maintaining compliance, thus driving IT spending.

E-commerce Boom

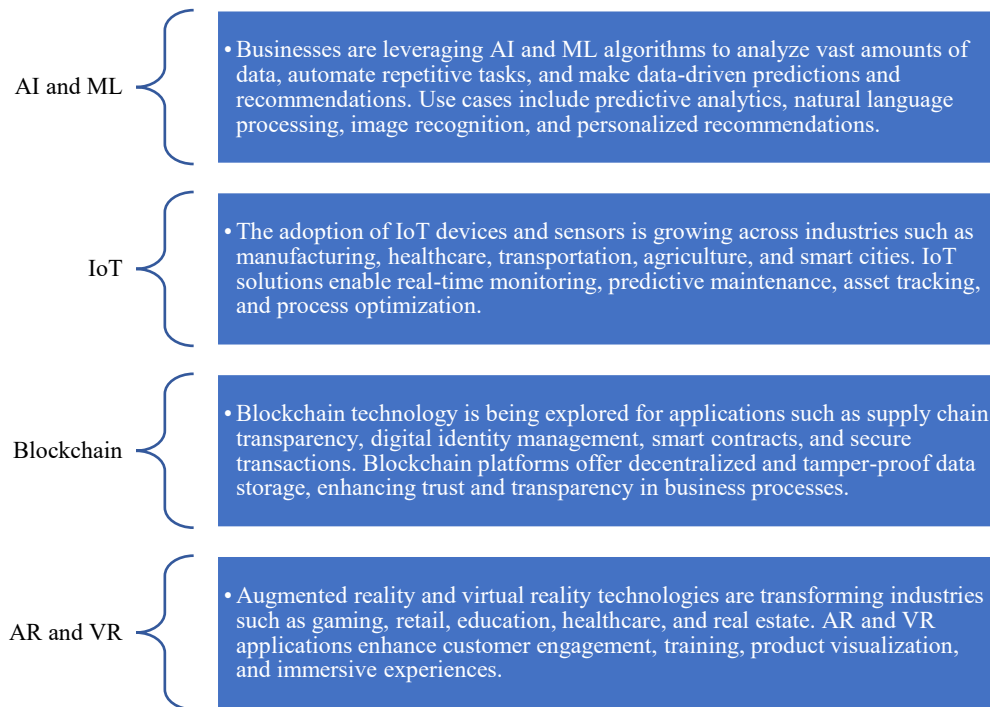

India's booming e-commerce market is driving IT spending as businesses invest in e-commerce platforms, digital marketing, logistics management, and customer relationship management (CRM) systems. India's e-commerce market has witnessed rapid growth in recent years, driven by factors such as:

With the explosive growth of e-commerce in India, businesses are doubling down on IT investments to bolster their online presence, enhance customer experiences, optimize logistics, and scale their operations to capitalize on the booming digital marketplace.

Emerging Technologies

Indian businesses are increasingly exploring emerging technologies such as artificial intelligence, machine learning, Internet of Things, blockchain, and augmented reality to drive innovation and gain a competitive edge. These technologies are being used in various industries, including healthcare, finance, manufacturing, retail, and agriculture, to automate processes, improve decision-making, and create new business models.

The race to harness the power of emerging technologies like AI, ML, blockchain, and AR is pushing organizations to allocate significant budgets towards innovation initiatives, research, and development to unlock new possibilities and drive digital transformation.

Key Trends

A variety of initiatives and trends are shaping the landscape of IT modernization and digital transformation in India's corporate sector:

Digital Transformation Initiatives Driving Growth in the Corporate Sector of India

Digital transformation has become a cornerstone of growth and innovation for the corporate sector in India. Fuelled by technological advancements and changing market dynamics, organizations across industries are embracing digital initiatives to enhance efficiency, agility, and customer-centricity. Given below are the key digital transformation initiatives driving progress in India's corporate sector:

E-commerce and Omnichannel Strategies:

With the proliferation of smartphones and internet connectivity, e-commerce has emerged as a pivotal driver of digital transformation in the corporate sector of India. Organizations are investing in robust e-commerce platforms and omnichannel strategies to reach customers across multiple touchpoints seamlessly. From online marketplaces to mobile applications, companies are leveraging digital channels to enhance customer engagement, drive sales, and build brand loyalty.

Cloud Computing and Infrastructure Modernization:

Cloud computing has revolutionized the way businesses manage and deploy IT infrastructure, enabling scalability, flexibility, and cost efficiency. Organizations in India are migrating their workloads to cloud platforms such as Amazon Web Services (AWS), Microsoft Azure, and Google Cloud Platform to streamline operations, accelerate innovation, and drive digital transformation. By leveraging cloud-native technologies, companies can modernize their IT infrastructure, improve agility, and unlock new capabilities for growth.

Data Analytics and Business Intelligence:

Data has emerged as a strategic asset for organizations seeking to gain actionable insights and make informed decisions. Digital transformation initiatives in India's corporate sector include investments in data analytics and business intelligence tools to harness the power of data. From predictive analytics to real-time dashboards, companies are leveraging advanced analytics techniques to uncover trends, identify opportunities, and drive operational efficiency. Data-driven decision-making is becoming increasingly central to business strategies, enabling organizations to stay competitive in a rapidly evolving marketplace.

Artificial Intelligence and Machine Learning:

Artificial intelligence (AI) and machine learning (ML) are transforming business processes and customer experiences across industries. In India, organizations are leveraging AI and ML technologies to automate repetitive tasks, personalize customer interactions, and optimize operations. From chatbots and virtual assistants to predictive maintenance and fraud detection, AI-powered solutions are driving efficiency, innovation, and value creation. By harnessing the power of AI and ML, companies can unlock new revenue streams, improve productivity, and deliver superior customer experiences.

Cybersecurity and Risk Management:

As digitalization accelerates, cybersecurity has become a top priority for organizations looking to protect their assets, data, and reputation. Digital transformation initiatives in India's corporate sector include investments in cybersecurity solutions and risk management frameworks to mitigate threats and vulnerabilities. From network security and endpoint protection to threat intelligence and incident response, companies are adopting a proactive approach to cybersecurity to safeguard against cyber-attacks and data breaches. By implementing robust security measures and fostering a culture of cybersecurity awareness, organizations can build trust with customers, partners, and stakeholders.

IT Infrastructure Industry

The IT industry plays a pivotal role in driving India's overall economic growth. The industry contributed 7.5% to India's GDP in FY 2023, up from 7.4% in FY 2022. The IT industry added an impressive 3.2 lakh new jobs in FY 2023, taking the total workforce to 5.72 million people.

IT infrastructure services provide the foundation for India's digital transformation by building and managing data centers, networks, and cloud platforms. This ensures ubiquitous internet access, critical for connecting citizens, businesses, and government entities. Reliable and secure IT infrastructure facilitates the adoption of digital technologies like cloud computing, AI, and IoT across sectors like healthcare, education, banking, and agriculture. This translates to improved efficiency, transparency, and innovation within these sectors.

Government initiatives like Digital India rely heavily on robust IT infrastructure for delivering citizen-centric services like e-KYC, e-payments, and online education platforms.

Key Segments

Workplace Services:

The workplace services segment within the IT infrastructure sector goes beyond just maintaining and managing technology within an organization's physical space. It encompasses a comprehensive approach to supporting an increasingly complex and digital work

environment. The workplace is evolving rapidly, with remote and hybrid work models becoming increasingly common. This demands flexible and scalable workplace services that cater to a distributed workforce. Cloud-based solutions are gaining traction in workplace services, providing cost-effectiveness, accessibility, and improved collaboration capabilities. Workplace services are no longer siloed but are increasingly integrated with broader business objectives, focusing on user experience, productivity, and overall employee engagement.

Key Services and Trends:

- **End-user Support:** Evolving from traditional helpdesks to self-service portals and AI-powered chatbots for faster and more personalized assistance.
- **Network and Security Management:** Emphasis on proactive monitoring, threat detection, and zero-trust security models to ensure data protection and compliance.
- **Mobility Management:** Managing diverse device types, securing access to corporate resources, and facilitating secure mobile productivity tools.
- **Unified Communications and Collaboration:** Integrating voice, video, and data tools for seamless communication and collaboration across locations and devices.
- **Workplace Automation:** Automating routine tasks like device provisioning, password resets, and patching vulnerabilities for improved efficiency and reduced downtime.
- **Digital Workspace Management:** Providing a personalized and secure digital workspace with access to applications, data, and tools based on individual roles and needs.
- **Workplace Analytics:** Utilizing data insights to optimize IT services, improve user experience, and identify areas for cost reduction.

Data Security:

Data security plays a critical role in today's digital landscape, safeguarding sensitive information from ever-evolving threats. This segment within IT infrastructure focuses on protecting data from unauthorized access, use, disclosure, disruption, modification, or destruction. Cybercriminals are constantly evolving their tactics, making data security an ongoing challenge. This necessitates staying updated on the latest threats and adopting a layered security approach. Data privacy regulations like GDPR and CCPA are becoming increasingly stringent, demanding robust data protection measures. The growing adoption of cloud services introduces new security considerations, requiring securing data across on-premises and cloud environments.

Key Services and Trends:

- **Network Security:** Implementing firewalls, intrusion detection/prevention systems (IDS/IPS), and vulnerability management solutions to protect networks from unauthorized access and malicious activity.
- **Endpoint Security:** Deploying antivirus, anti-malware, and endpoint detection and response (EDR) solutions to secure individual devices from malware and intrusions.
- **Identity and Access Management (IAM):** Establishing robust IAM practices including multi-factor authentication and role-based access control to ensure only authorized users can access specific data and systems.
- **Data Encryption:** Encrypting data at rest and in transit using industry-standard algorithms to protect its confidentiality even if compromised.
- **Data Backup and Recovery:** Implementing comprehensive backup and recovery strategies to ensure data can be restored quickly and efficiently in case of disasters or cyberattacks.
- **Cloud Security:** Utilizing cloud-specific security solutions like cloud access security brokers (CASBs) and data loss prevention (DLP) to secure data in cloud environments.
- **Security Information and Event Management (SIEM):** Using SIEM tools to aggregate and analyze security data from various sources, identifying potential threats and providing insights for improved security posture.

Physical infrastructure/data Center services:

The physical infrastructure/data center services segment forms the backbone of the IT infrastructure sector. It focuses on providing the physical foundation and associated services to house and manage the critical IT equipment that powers our digital world.

Services and Solutions:

Colocation: Organizations rent space and power within a data center provider's facility to house their IT equipment. This offers cost-efficiency, scalability, and access to advanced infrastructure.

Managed Hosting: Service providers manage and maintain IT infrastructure on behalf of an organization, including servers, storage, network equipment, and operating systems. This frees up internal resources and expertise.

Disaster Recovery: Providers offer backup data centers and infrastructure to ensure business continuity in case of outages or disruptions at the primary location.

Cloud Data Center Services: This encompasses various cloud deployment models (public, private, and hybrid) where infrastructure elements like servers, storage, and networking are delivered as a service.

Edge Computing Services: Infrastructure deployed closer to where data is generated (e.g., factory floor, retail store) to process and analyze data locally, minimizing latency and improving performance.

Trends Shaping the Segment:

- **Hyperscale Data Centers:** Growing demand for large, scalable data centers capable of supporting massive computing workloads, often driven by cloud providers and large enterprises.
- **Edge Computing Adoption:** The rise of IoT and real-time applications necessitates processing data closer to its source, leading to increased adoption of edge computing services.
- **Green and Sustainable Data Centers:** Growing focus on reducing the environmental impact of data centers through energy-efficient technologies, renewable energy sources, and innovative cooling solutions.

IT Infrastructure Management Services

IT Infrastructure Management Services (IMS) encompass a range of services focused on the planning, design, implementation, operation, and ongoing management of an organization's IT infrastructure. This includes hardware, software, networks, data centers, and the associated processes necessary to deliver reliable and efficient IT services. IMS are critical for ensuring the smooth operation, security, and optimization of the technical backbone that supports businesses in India's rapidly expanding digital economy.

Key Offerings	
Managed Data Center Services	<ul style="list-style-type: none"> • Colocation: Renting space and power in a data center to house IT equipment. Provides robust physical infrastructure and security. • Managed Hosting: Outsourcing the entire management of servers, storage, and networking equipment to a service provider. • Disaster Recovery as a Service (DRaaS): Backup and recovery sites, often in the cloud, to facilitate business continuity during unexpected disruptions.
Network Management Services	<ul style="list-style-type: none"> • Network Operations Center (NOC): Real-time monitoring, troubleshooting, and optimization of network performance and availability. • SD-WAN Management: Software-defined wide area network solutions for improved network flexibility and cost optimization. • Managed Security: Firewall management, intrusion detection, and security information and event management (SIEM) to protect networks from threats.
Cloud Infrastructure Services	<ul style="list-style-type: none"> • Infrastructure as a Service (IaaS): Provisioning of virtualized compute, storage, and network resources on demand. • Platform as a Service (PaaS): Cloud-based platforms for software development and deployment. • Software as a Service (SaaS): Cloud-delivered applications accessible over the internet. • Cloud Migration and Management: Assisting businesses to move workloads and applications to the cloud, along with ongoing optimization.
Endpoint Management Services	<ul style="list-style-type: none"> • Desktop and Laptop Management: Centralized management of PCs and laptops, covering software distribution, patching, and configuration.

	<ul style="list-style-type: none"> • Mobile Device Management (MDM): Securing and managing mobile devices (smartphones, tablets) used for business purposes. • Helpdesk and Support: Providing technical support to end-users for a wide range of hardware and software issues

TRANSITION IN IT INFRASTRUCTURE INDUSTRY

Cloud computing has revolutionized the way businesses manage their IT infrastructure. The shift from traditional on-premises setups to cloud-based models has fundamentally altered how IT resources are provisioned, managed, and consumed.

Traditional Hardware-Dominated Infrastructure

- **Capital Expenditure (CapEx) model:** Businesses had to invest heavily in procuring and maintaining physical IT infrastructure, including servers, storage, networking equipment, and data centers.
- **Capacity Planning:** Organizations needed to forecast their future needs, often overprovisioning resources to handle peak demand, leading to underutilized capacity.
- **In-House Management:** IT teams were responsible for the entire hardware and software lifecycle – procurement, deployment, maintenance, upgrades, and troubleshooting.
- **Limited Scalability:** Scaling IT resources up or down to match changing needs was often a time-consuming and expensive process.
- **Security & Compliance Challenges:** Ensuring robust security and meeting compliance standards in a traditional on-premises environment could be complex and demanding.

The Rise of Cloud Infrastructure

- **Operational Expenditure (OpEx) model:** The cloud introduced a pay-as-you-go approach where businesses pay for only the computing resources they use, converting IT costs into operational expenses.
- **On-Demand Provisioning:** Businesses can quickly provision resources as needed, without upfront investments or capacity planning concerns.
- **Managed Services:** Cloud providers handle much of the IT infrastructure management, including hardware maintenance, software updates, and security patching, freeing up internal IT resources.
- **Rapid Scalability:** Cloud infrastructure provides near-instant scalability to accommodate fluctuating workloads, eliminating the need for overprovisioning and supporting business agility.
- **Enhanced Security & Compliance:** Cloud providers invest heavily in advanced security measures and often offer compliance-ready solutions, easing the burden on organizations.

Driving Factors for Cloud Adoption

- **Cost Savings:** The pay-as-you-go model eliminates significant upfront capital expenditures and reduces ongoing IT management costs.
- **Agility & Flexibility:** Cloud allows businesses to experiment, innovate, and adapt quickly to market demands by readily scaling resources to support growth or new initiatives.
- **Focus on Core Business:** Reduced IT management burden allows organizations to focus on their core competencies and business goals.
- **Accessibility:** Cloud-based resources can be accessed from anywhere, enabling remote work and collaboration.
- **Technological Advancements:** Continuous innovation and improvements in cloud technology, such as microservices and containerization, offer greater flexibility and better performance.

Challenges and Considerations

- **Vendor Lock-in:** Migrating to the cloud can sometimes create potential dependency on a specific cloud provider, making switching difficult.
- **Security & Privacy Concerns:** While cloud providers implement robust security measures, some organizations still have reservations about storing sensitive data in the cloud.

- **Regulatory Compliance:** Understanding and adhering to compliance requirements specific to the cloud and the industry is crucial.
- **Hybrid Cloud Landscapes:** Many organizations adopt a hybrid cloud approach, blending on-premise infrastructure with cloud services, leading to increased complexity.

Opportunities Emerging in Indian IT Infrastructure Industry

Start-Up Segment and its Impact in IT Infrastructure Industry

India has emerged as a hub for technology start-ups in recent years, with a growing ecosystem fostering innovation and entrepreneurship. This surge in start-up activity has not only transformed the business landscape but also significantly impacted the IT infrastructure industry.

India's technology start-up ecosystem has witnessed exponential growth fuelled by factors such as increasing internet penetration, availability of skilled talent, supportive government policies, and access to venture capital funding. Start-ups across various sectors including e-commerce, fintech, healthtech, edtech, and SaaS have proliferated, leveraging technology to address diverse market needs.

The exponential growth of India's technology start-up ecosystem can be attributed to several key factors:

- **Increasing Internet Penetration:** According to TRAI, India witnessed a substantial increase in internet subscribers, reaching 1,181.13 million by September 2023. This rise in internet connectivity has facilitated greater access to digital services, driving demand for innovative tech solutions.
- **Abundance of Skilled Talent:** India's vast pool of skilled talent, particularly in the fields of technology, engineering, and business, has been instrumental in fueling the growth of technology start-ups. The availability of qualified professionals has enabled start-ups to build robust teams and drive innovation across various sectors.
- **Supportive Government Policies:** The Indian government has introduced several initiatives and policies to support the growth of the start-up ecosystem, including Startup India, Make in India, and Digital India. These initiatives provide incentives, funding support, and regulatory frameworks to nurture and promote entrepreneurial ventures.
- **Access to Venture Capital Funding:** India has emerged as a lucrative destination for venture capital investment, attracting significant funding from domestic and international investors. According to S&P Global Market Intelligence, India ranked fourth globally in terms of venture capital investment, with the financial technology sector leading the funding charts.

India's start-up landscape is home to more than 100,000 start-ups, with a capital infusion exceeding an impressive \$146 billion between 2014 and 2023. This substantial investment signifies a strong financial bedrock for fostering innovation and expansion. Additionally, the presence of over 20,000 active start-up investors and 112 unicorns, collectively valued at over \$500 billion, firmly establishes India as a leading global hub for entrepreneurial ventures. Factors that show the remarkable growth and potential of India's technology start-up ecosystem are:

- **Global Attraction:** India's prominence as a global start-up destination is evident, with the country capturing 4.2% of global venture capital investments, securing its position as the fourth-most popular destination for start-ups worldwide in 2022.
- **Resilient Growth:** Despite global economic challenges, India witnessed a record-breaking 26,542 startup registrations in 2022, underscoring the resilience and dynamism of the start-up landscape.
- **Expansive Ecosystem:** With over 92,000 recognized start-ups as of February 2023, India boasts a diverse and expansive entrepreneurial ecosystem, fostering innovation across various sectors.
- **Funding Dynamics:** The financial technology sector has emerged as a frontrunner in funding, attracting a cumulative \$9.7 billion in investments in 2021 and 2022, signalling investor confidence and market potential.
- **Future Projections:** Projections indicate a significant growth trajectory, with the number of tech start-ups expected to soar from 68,000 in 2023 to 1.8 lakh by 2030, promising abundant opportunities for innovation, job creation, and economic growth.

Impact on the IT Infrastructure Industry:

The rapid proliferation of technology start-ups has led to a surge in demand for robust IT infrastructure solutions. This demand is driven by several factors:

1. **Cloud Adoption:** Start-ups, particularly those operating in the software-as-a-service (SaaS) domain, rely heavily on cloud computing for scalability, flexibility, and cost-efficiency. This has led to a significant increase in demand for cloud infrastructure services, prompting cloud providers to expand their data center footprint in India.
2. **Edge Computing:** With the proliferation of IoT devices and the need for real-time data processing, edge computing has gained prominence. Start-ups leveraging IoT, AI, and machine learning require edge infrastructure to process data closer to the source, leading to investments in edge computing solutions.
3. **Cybersecurity:** As start-ups handle sensitive customer data and intellectual property, cybersecurity has become a top priority. This has resulted in increased investments in cybersecurity infrastructure, including firewalls, threat detection systems, and encryption technologies.

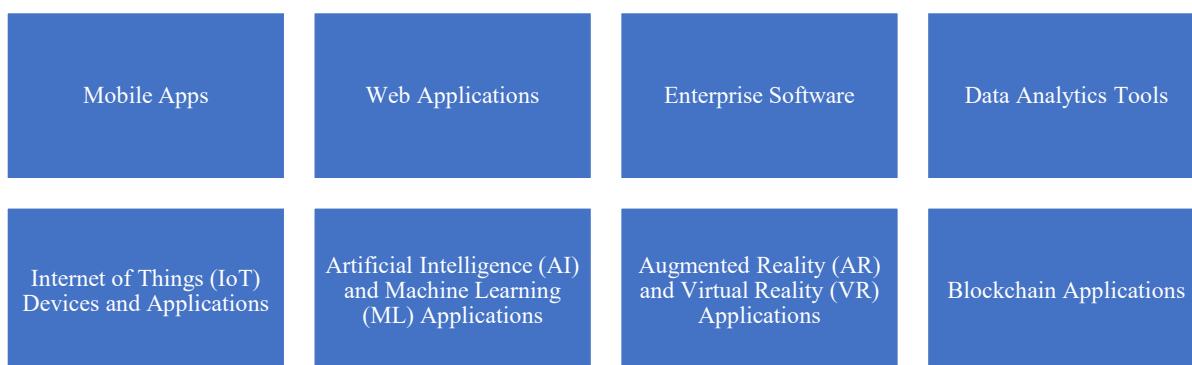

4. **Data Analytics:** Start-ups are increasingly relying on data analytics to gain actionable insights and drive decision-making. This has spurred demand for infrastructure capable of handling large volumes of data and performing complex analytics tasks, leading to investments in big data platforms and analytics tools.
5. **DevOps and Automation:** Start-ups prioritize agility and rapid product development, driving the adoption of DevOps practices and automation tools. This has led to investments in infrastructure automation, continuous integration/continuous deployment (CI/CD) pipelines, and containerization technologies.
6. **Remote Work Infrastructure:** The COVID-19 pandemic accelerated the adoption of remote work practices, prompting start-ups to prioritize remote-friendly infrastructure solutions. This includes robust networking infrastructure to support remote collaboration tools, virtual private networks (VPNs) for secure access to company resources, and cloud-based communication platforms. As start-ups continue to embrace remote work as a permanent or hybrid model, there is a growing demand for infrastructure solutions that enable seamless remote operations while ensuring data security and employee productivity. This shift towards remote work infrastructure presents both opportunities and challenges for the IT infrastructure industry, driving innovation in areas such as remote access technologies, virtualization, and endpoint security solutions.

The rise of technology start-ups in India has reshaped the IT infrastructure landscape, driving demand for innovative solutions that can support the dynamic needs of these companies. To capitalize on this trend, IT infrastructure providers must adapt their offerings to cater to the unique requirements of start-ups while addressing challenges such as scalability, cost, talent shortage, and cybersecurity. By embracing innovation and agility, the IT infrastructure industry can effectively support India's thriving start-up ecosystem and contribute to its continued growth and success.

New technology applications and its impact

Technology applications refer to software, tools, platforms, and systems developed to perform specific tasks, solve problems, or meet user needs using technological solutions. These applications leverage various technologies such as software development, hardware integration, data analysis, artificial intelligence, and internet connectivity to deliver value to users and organizations across different domains.

Examples of technology applications include:

Technology applications are utilized in both consumer and enterprise segments to meet various needs and objectives.

Consumer Segment

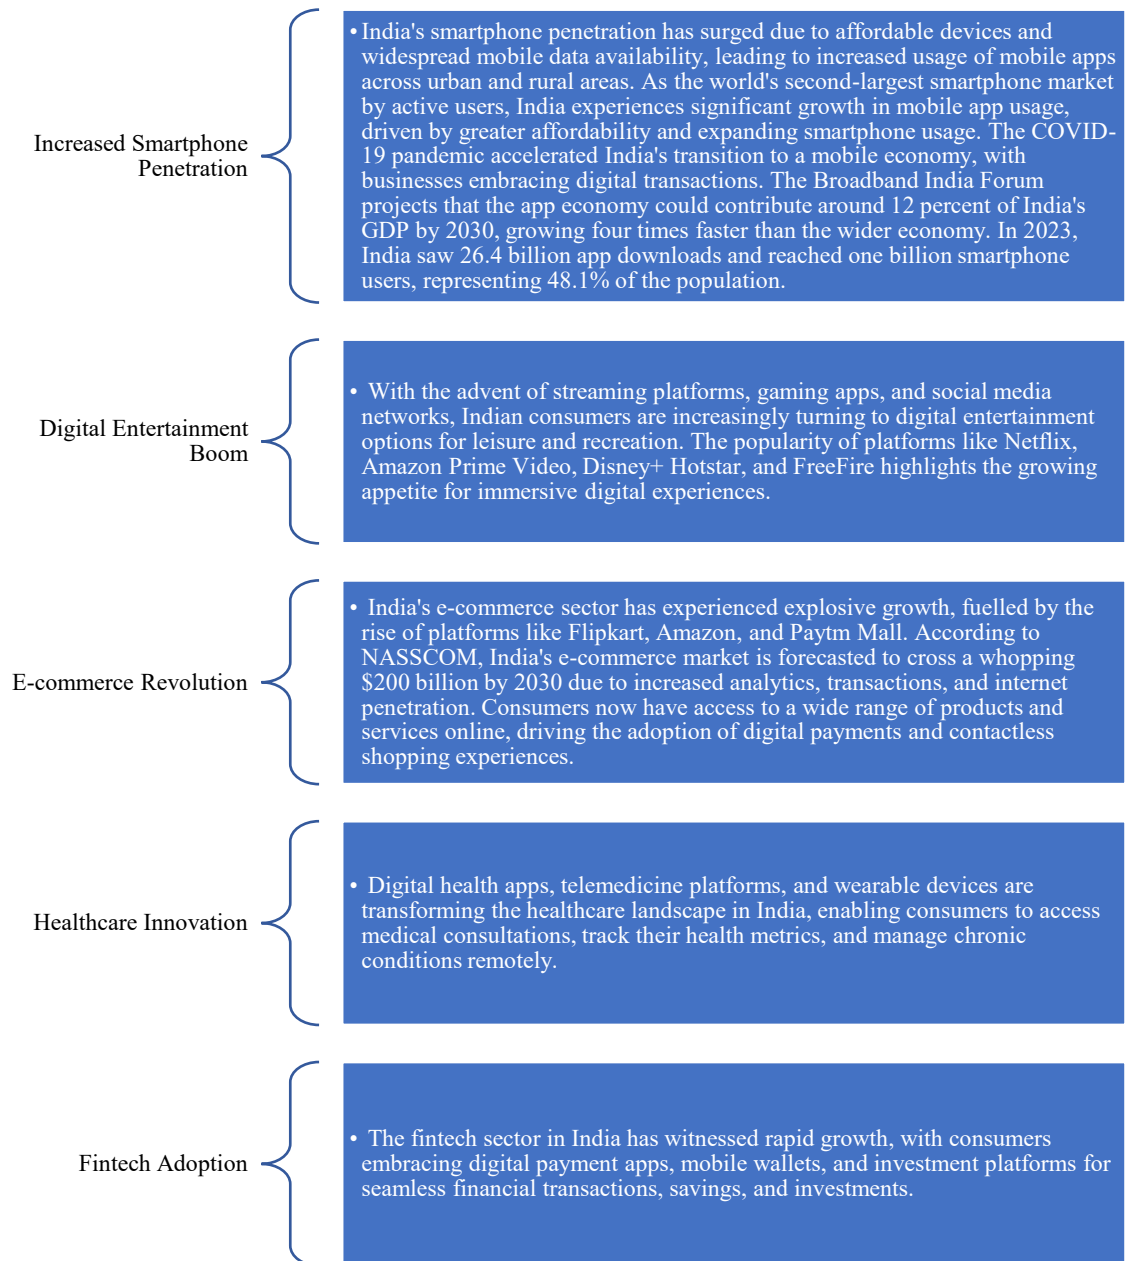

- **Communication:** Consumers use technology applications such as messaging apps, social media platforms, and video conferencing tools for seamless communication and connectivity with friends, family, and peers.
- **Entertainment:** Streaming services, gaming apps, and virtual reality experiences provide consumers with entertainment and leisure options, enhancing their digital lifestyles.
- **E-commerce:** Online shopping platforms and mobile payment apps enable consumers to browse, purchase, and pay for products and services conveniently from the comfort of their homes.
- **Health and Wellness:** Health tracking apps, wearable devices, and telemedicine platforms empower consumers to monitor their health, access medical advice, and engage in fitness activities remotely.
- **Personal Finance:** Banking apps, budgeting tools, and investment platforms assist consumers in managing their finances, making transactions, and planning for the future.

Enterprise Segment

- **Operations Management:** Enterprises leverage technology applications such as enterprise resource planning (ERP) systems, inventory management software, and project management tools to streamline operations, optimize workflows, and enhance efficiency.
- **Customer Relationship Management (CRM):** CRM software enables businesses to manage interactions with customers, track sales leads, and analyze customer data to improve engagement and drive revenue growth.

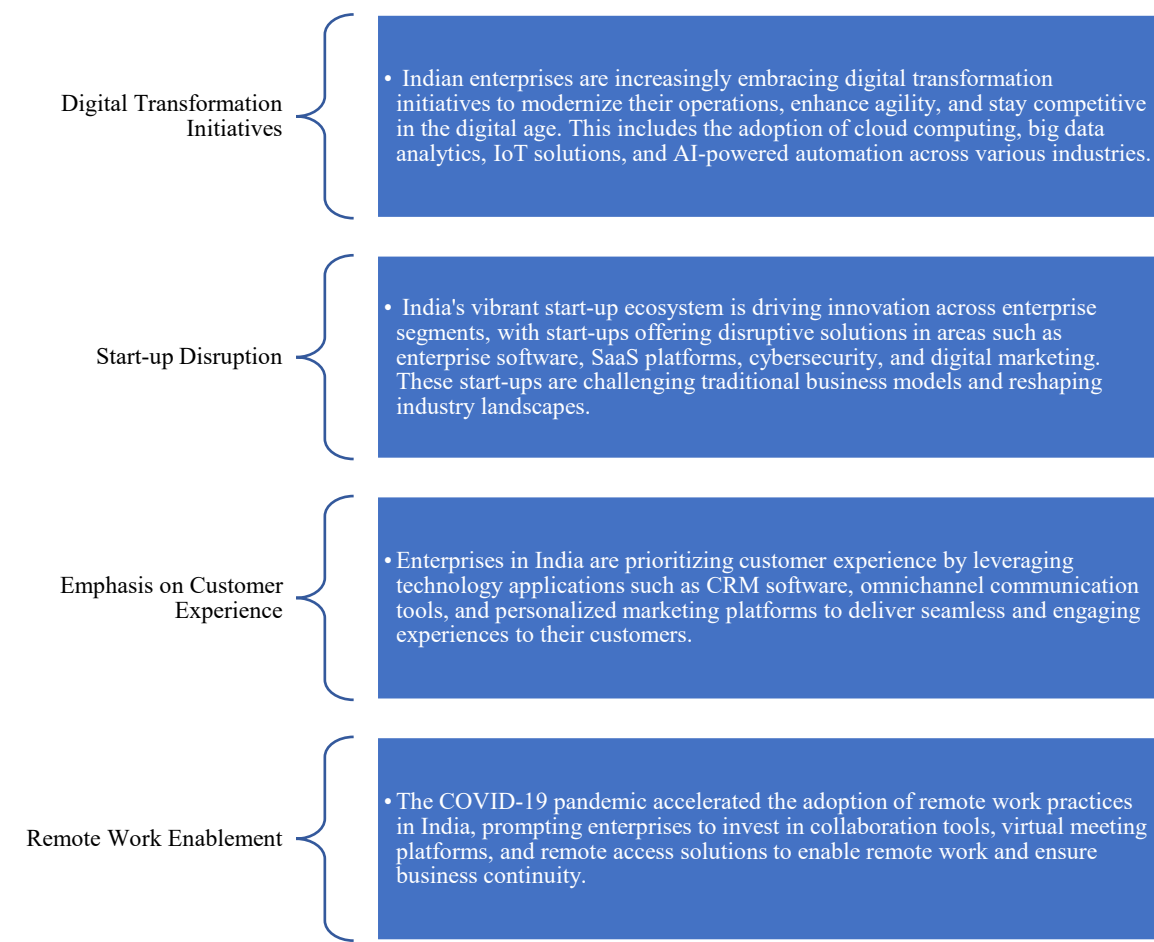

- **Data Analytics:** Business intelligence (BI) tools, data visualization platforms, and predictive analytics software help enterprises analyze large volumes of data, gain insights, and make informed decisions to drive business outcomes.
- **Collaboration and Communication:** Enterprises utilize collaboration tools, video conferencing platforms, and project management software to facilitate teamwork, communication, and collaboration among employees, regardless of location or time zone.
- **Marketing and Sales:** Marketing automation software, customer relationship management (CRM) platforms, and digital marketing tools assist enterprises in reaching target audiences, generating leads, and driving sales through targeted campaigns and personalized messaging.

In India, there has been a notable surge in the adoption and proliferation of new technology applications across both consumer and enterprise segments. This growth is driven by several factors, including increasing internet penetration, rapid digitalization, and a burgeoning start-up ecosystem.

Consumer Segment

Enterprise Segment

The surge in new technology applications, both in consumer and enterprise segments, has significant implications across various aspects of society and the economy. This growth signifies a transformative shift in how individuals and businesses interact, operate, and innovate. Following are the key implications of this phenomenon:

1. **Enhanced Consumer Experiences:** New technology applications are revolutionizing consumer experiences across industries such as retail, entertainment, healthcare, and transportation. From personalized recommendations and immersive content to convenient digital services and seamless transactions, consumers are benefiting from greater convenience, efficiency, and customization.
2. **Empowerment of Businesses:** For enterprises, the proliferation of new technology applications presents opportunities to streamline operations, optimize processes, and unlock new revenue streams. From advanced analytics and automation to cloud computing and IoT integration, businesses can leverage technology to enhance productivity, agility, and competitiveness in an increasingly digital marketplace.
3. **Disruption and Innovation:** The rapid adoption of new technology applications is driving disruption and innovation across traditional industries, challenging existing business models and paving the way for novel approaches to value creation. Start-ups and established companies alike are harnessing emerging technologies such as artificial intelligence, blockchain, and augmented reality to create innovative solutions that address evolving market demands and customer preferences.
4. **Economic Growth and Job Creation:** The growth of new technology applications fuels economic growth by stimulating investment, driving productivity gains, and fostering entrepreneurship. As new markets emerge and existing industries evolve, there is a corresponding increase in job opportunities across various skill levels, from software development and data analysis to digital marketing and customer experience management.
5. **Societal Impacts:** Beyond the economic realm, the proliferation of new technology applications has profound societal implications, influencing how people communicate, collaborate, and interact with the world around them. From the democratization of information and digital inclusion to concerns about privacy, cybersecurity, and ethical use of technology, these developments shape the fabric of society and raise important ethical, legal, and social questions.

The growth of new technology applications represents a paradigm shift in how individuals, businesses, and society as a whole engage with technology and navigate the digital landscape. By understanding and harnessing the potential of these technologies, stakeholders can unlock opportunities for innovation, growth, and positive societal impact in the digital age.

India as a Global Capability Center (GCC) hub & its impact on IT infrastructure spending

In recent years, India has emerged as a key hub for multinational companies establishing their Global Capability Centres (GCCs). With over 1,600 GCCs operating in the country and employing more than 1.6 million people, India's prominence in the global business landscape has significantly grown. This write-up delves into the factors driving this emergence, the evolution of GCCs in India, key industry verticals, growth projections, and the transformative impact on the economy.

Evolution of GCCs in India

The journey of GCCs in India dates back to the 1980s when pioneering companies like Texas Instruments set up their offices in Bengaluru. Originally known as captives or GICs (global in-house centres), these entities have evolved significantly over the years, transitioning into sophisticated GCCs. By 2012, the number of GICs had surpassed 760, and today, India hosts over 1,600 GCCs, a testament to its attractiveness as a strategic destination for global operations.

Several factors contribute to India's appeal as a preferred destination for establishing GCCs:

- **Abundance of Skilled Talent:** India boasts a vast talent pool of 2.5 million people with diverse skill sets, particularly in software product engineering. This futuristic talent pool is not only technically proficient but also possesses a strong work ethic and innovative mindset, essential for driving business growth and competitiveness.
- **Cost-Competitive Operations:** India offers competitive operational costs without compromising on quality standards. This cost advantage, coupled with high-quality services, makes it an attractive proposition for multinational companies seeking to optimize their operational expenses.
- **Strategic Geographic Location:** India's strategic geographic location allows for easy management of satellite operations for neighbouring countries and beyond. This facilitates seamless coordination and enhances operational efficiency for multinational corporations.
- **Culture of Innovation:** The Indian tech ecosystem is characterized by a culture of innovation, fostering creative problem-solving and adaptability. This culture enables GCCs to drive cutting-edge innovations and stay ahead in today's dynamic business environment.
- **Market Access and Growth Opportunities:** With a large domestic market and significant opportunities for further growth and market penetration, India provides GCCs with a platform for expanding their business footprint and tapping into diverse market segments.

Key Industry Verticals and Growth Trajectory

GCCs in India operate across various service lines, including IT services, BPO, engineering services, and software product development. Over the years, they have ascended the value chain, delivering complex work that requires a deep understanding of business context and imperatives. Key industry verticals such as banking and financial services, software, telecom, semiconductor, aerospace, automotive, healthcare, and pharma have witnessed substantial growth driven by GCCs' contributions.

In India, several multinational companies have established Global Capability Centres (GCCs) to drive innovation and operational efficiency. Below are examples of three such companies:

AstraZeneca's Virtual Reality Solution: AstraZeneca's Global Innovation and Technology Centre in Chennai showcases the innovative potential of GCCs in India. By leveraging virtual reality (VR) technology, AstraZeneca has developed an immersive digital replica of its drug production facility in Sweden. This virtual environment allows employees to undergo training and familiarize themselves with the production processes without physically being present on the assembly line. Developed entirely by AstraZeneca's captive unit in India, this VR solution not only enhances training effectiveness but also saves the pharmaceutical giant significant costs associated with traditional training methods. By harnessing the technical expertise and innovation capabilities of its GCC in India, AstraZeneca demonstrates how GCCs contribute to driving efficiency, innovation, and cost savings for multinational corporations.

Rakuten Group's Bengaluru GCC: Rakuten Group, a Japanese conglomerate, has established its Global Capability Centre in Bengaluru. This GCC plays a crucial role in developing and managing digital payment platforms, including Rakuten Pay, which is Japan's equivalent of GooglePay. The Bengaluru GCC oversees the entire product lifecycle, from user experience (UX) design to backend development and strategic planning. By leveraging India's vast talent pool and tech expertise, Rakuten Group's GCC has not only created innovative digital payment solutions but also contributed to the company's strategic goals. The success of Rakuten Pay underscores the pivotal role played by GCCs in driving digital transformation and enhancing customer experiences for multinational corporations.

Lowe's Self-Checkout System: Lowe's, a US-based home improvement retailer, has leveraged its GCC in Bengaluru to develop a robust self-checkout system for its stores. This system, developed in-house at a fraction of the cost of vendor products, has significantly increased the efficiency of transactions at Lowe's stores. With the GCC's expertise in software development and engineering services, Lowe's has successfully implemented innovative solutions to streamline operations and enhance customer satisfaction. The success of the self-checkout system highlights how GCCs in India contribute to driving operational excellence and cost optimization for multinational corporations across diverse industry verticals.

According to projections by NASSCOM, the GCC landscape in India is set to expand further in the coming years. By 2028, the total number of GCCs is expected to surpass 2,100, with revenue exceeding USD 90 billion. Cost savings are no longer the main driving force behind companies' decisions to operate in India. Instead, a combination of skilled talent, a vibrant startup environment, and a digitally savvy industry and customer base is drawing companies to the country.

Impact on IT Infrastructure spending

The emergence of India as a Global Capability Centre (GCC) hub has had a profound impact on IT infrastructure spending, both within the country and globally. This impact can be observed across various dimensions:

- **Increased Investment in IT Infrastructure in India:** As multinational companies establish their GCCs in India, there is a growing need for robust IT infrastructure to support their operations. This includes investments in data centers, networking equipment, cloud computing services, cybersecurity measures, and software development tools. The influx of GCCs has led to a surge in demand for advanced IT infrastructure solutions and services, prompting organizations to allocate significant budgets for infrastructure development and upgrades. According to a collaborative survey conducted by Deloitte and industry association NASSCOM, more than 70 percent of companies with GCCs and engineering service arms in India intend to boost their budgets by 10-25 percent during 2022-23. The survey also highlights that Engineering Research and Development (ER&D) expenditures within the automotive, transportation, and industrial sectors housed in India's GCCs are anticipated to experience the most significant growth, projected to fall within the range of 10-25 percent.
- **Adoption of Emerging Technologies:** GCCs in India often focus on driving innovation and digital transformation within their parent organizations. This entails the adoption and implementation of emerging technologies such as artificial intelligence (AI), machine learning (ML), Internet of Things (IoT), blockchain, and advanced analytics. Consequently, there is a heightened emphasis on investing in IT infrastructure that can support these technologies, including high-performance computing systems, storage solutions, and specialized hardware accelerators.
- **Expansion of Data Center Footprint:** The growing presence of GCCs in India has led to an expansion of data center infrastructure to accommodate the increasing volume of data generated and processed by these centers. Organizations are investing in building new data centers or expanding existing ones to ensure scalability, reliability, and compliance with regulatory requirements. Additionally, there is a trend towards adopting hybrid and multi-cloud strategies, necessitating investments in cloud infrastructure and management platforms.
- **Focus on Security and Compliance:** With the rising cyber threats and stringent regulatory requirements, there is a heightened focus on enhancing cybersecurity measures and ensuring compliance with data protection regulations. Organizations operating GCCs in India are investing in advanced security solutions such as intrusion detection systems, threat intelligence platforms, encryption technologies, and identity and access management solutions. Moreover, there is an increased emphasis on implementing robust data privacy and compliance frameworks to safeguard sensitive information and mitigate risks.
- **Collaboration and Connectivity Requirements:** The seamless collaboration between GCCs in India and their parent organizations worldwide necessitates investments in robust connectivity infrastructure. This includes high-speed internet connectivity, virtual private networks (VPNs), unified communications platforms, and collaboration tools. Organizations are leveraging technologies such as software-defined networking (SDN) and edge computing to optimize network performance, ensure low-latency communications, and support real-time collaboration across geographically distributed teams.
- **Economic Impact on IT Infrastructure Providers:** The growing demand for IT infrastructure solutions and services driven by the proliferation of GCCs in India presents significant opportunities for IT infrastructure providers, including hardware vendors, cloud service providers, network equipment manufacturers, and cybersecurity firms. These providers stand to benefit from increased demand for their products and services, leading to revenue growth and market expansion.

In conclusion, India's emergence as a GCC hub highlights its growing significance in the global business ecosystem. With a conducive business environment, abundant talent pool, cost-competitive operations, and culture of innovation, India offers a compelling value proposition for multinational companies seeking to establish GCCs. As the GCC landscape continues to evolve and expand, India is poised to remain at the forefront of this transformation, driving economic growth, innovation in Information technology, and market leadership in the years to come.

Evolving data security / cybersecurity landscape and its impact

In recent years, India has witnessed significant changes in its data security and cybersecurity landscape driven by technological advancements, regulatory reforms, and evolving cyber threats. India's digital transformation journey has accelerated, leading to a massive proliferation of data across various sectors such as finance, healthcare, e-commerce, and government services. The widespread adoption of digital technologies, including cloud computing, IoT, and mobile devices, has exponentially increased the volume, velocity, and variety of data being generated, posing new challenges for data security and cybersecurity.

Current Challenges for Organisations in India

- **Rise in Cyberthreats:** The proliferation of cyber threats has surged in the digital era, underscoring the critical importance of cybersecurity. India is confronted with a broad spectrum of cyber threats, ranging from financial fraud and data breaches to sophisticated cyber-espionage campaigns.

- **Diverse Attack Techniques:** Given its expansive population, India has become a focal point for cybercriminals who employ various attack techniques such as phishing, ransomware, and social engineering tactics to exploit vulnerabilities.
- **Targeted Sectors:** Key sectors including financial institutions, e-commerce platforms, and government entities are particularly targeted due to the sensitive nature of their data, amplifying the need for robust cybersecurity measures.
- **Ransomware Surge:** A notable surge in ransomware incidents has resulted in significant disruptions to businesses, lasting from a few days to several weeks, further emphasizing the evolving and pervasive nature of cyber threats.

The IBM Security Data Breach Report of 2022 revealed that the average cost of data breaches in India reached a record high of ₹17.5 crores (₹175 million) rupees, equivalent to around \$2.2 million, for the fiscal year of 2022. This marks an increase of 6.6% from the previous year and a staggering 25% rise from the average cost in 2020.

During the first half of the fiscal year 2023-24, the healthcare, education/research, and utilities sectors were the most impacted industries in terms of weekly cyber attacks per organization. Additionally, the retail, hospitality, manufacturing, and transportation sectors are urged to enhance their cybersecurity measures due to increasing threats.

On average, each organization in India experienced 2,157 cyber attacks per week in the last six months, compared to 1,139 attacks per organization globally.

Furthermore, the first half of 2023 witnessed several significant cybersecurity incidents in India, ranging from financial frauds to data breaches. Notably, the Odisha Economic Offenses Wing apprehended 60 fraudsters involved in various online scams that yielded ₹100 crore. The Kangra Co-operative Bank suffered a ₹7.79 crore cyber fraud, emphasizing the urgent need for stronger cybersecurity measures in the banking sector.

In another incident, a major data breach occurred in the Ministry of Health and Family Welfare, where a hacking group known as Phoenix allegedly breached the Health Management Information System, jeopardizing sensitive hospital data nationwide. Concurrently, a scam targeted Indian investors, exploiting the growing popularity of cryptocurrencies. Fake platforms deceived unsuspecting investors into losing over ₹1,000 crore, highlighting the necessity for increased awareness among crypto investors.

Impact on IT Sector

Increased Spending on IT Infrastructure

With the escalating cyber threats, organizations are compelled to invest more in strengthening their IT infrastructure to safeguard against potential breaches and cyber attacks. This surge in spending on IT infrastructure encompasses the implementation of robust cybersecurity measures, including advanced threat detection systems, encryption technologies, and secure network architecture.

Growing Demand for Cybersecurity Solutions and Services:

The heightened awareness of cybersecurity risks has fuelled a surge in demand for cybersecurity solutions and services across various industries. This increased demand encompasses a wide range of cybersecurity offerings, including threat intelligence platforms, endpoint security solutions, penetration testing services, and security consulting services. As a result, cybersecurity providers are witnessing a significant uptick in business opportunities and revenue growth.

Rise in Cybersecurity Jobs and Skill Development:

The evolving cybersecurity landscape has created a growing demand for skilled professionals capable of combating sophisticated cyber threats. Consequently, there is a surge in cybersecurity job opportunities across the country, ranging from cybersecurity analysts and engineers to ethical hackers and incident responders. This increased demand for cybersecurity talent has prompted organizations and educational institutions to invest in cybersecurity training and skill development programs to bridge the skills gap and groom the next generation of cybersecurity professionals.

Emphasis on Regulatory Compliance and Data Protection:

The enactment of regulatory reforms such as the Digital Personal Data Protection (DPDP) Act, 2023, has heightened the focus on regulatory compliance and data protection among organizations operating in India. Companies are now mandated to adhere to stringent data protection requirements and implement comprehensive data security measures to ensure compliance with regulatory standards. This emphasis on regulatory compliance has spurred investments in data protection technologies and compliance frameworks to mitigate regulatory risks and safeguard sensitive customer information.

Rise in Cyber Insurance Adoption:

As organizations recognize the financial implications of cyber incidents, there is a growing trend towards the adoption of cyber insurance policies to mitigate the financial impact of cyber attacks and data breaches. Cyber insurance policies provide organizations with financial protection against the costs associated with data breaches, including legal expenses, regulatory fines, and incident response costs. This rise in cyber insurance adoption reflects a proactive approach towards managing cyber risks and enhancing financial resilience in the face of cyber threats.

Government Spending on Information Technology

Annual spending by Indian Government on IT is estimated to have reached USD 11.6 billion in 2023, increasing by nearly 10.2% over previous year. Despite the signs of contraction in technology spending in private sector, spending trend in public domain is showing signs of resilience. The positive trend in IT spending in public space is driven by two key factors – IT modernization initiatives and digitization measures to improve productivity. This is in line with the trend seen in Government spending across the world, with investments in application modernization driving the spending.

Source: Gartner, IDC

Specific to Indian Government, the focus is on providing a unified digital experience and a mobile first experience. Schemes like Unified Mobile Application for New-Age Governance (UMANG), Open Government Data Platform (OGDP) and IndiaStack are designed to achieve this objective. Among these, the IndiaStack program is focused on creating a unified software platform to fast track the digital journey of Indian population. IndiaStack has five programs: Aadhar, e-KYC, e-Signature, Digital Locker, and Unified Payment Interface (UPI). These five programs together are transforming the digital landscape in India.

Government Flagship Digital Policies

While digitization of common citizen services has improved operational efficiencies as well as service delivery, it has generated massive data necessitating the requirement for a robust and flexible digital infrastructure. Subsequently the Government has scaled up its spending and budgetary allocation towards digital infrastructure updation, and adoption of cloud infrastructure.

Digital India Initiative

The Digital India program has spurred the development of citizen-centric applications like CoWIN and DigiLocker, emphasizing innovation, service quality, and operational efficiency. These apps have led to increased data generation and the need for flexible, scalable solutions. These solutions have significantly impacted vaccination distribution, worker registration, and document issuance, showcasing the tangible benefits of cloud technology adoption.

The scheme launched in 2015 is an umbrella program which covers programs including Aadhaar, country-wide rural broadband connectivity, common service centers, Bharat Interface for Money (BHIM), Aadhar enabled payment system, and MyGov program.

The Union Government in August 2023 approved the extension of Digital India programme for five years (period 2021-22 to 2025-26) with an outlay of INR 14,903 crore. The extension would focus on skill upgradation, IT infrastructure modernization, and improvement in cyber security, among others.

Adoption of Hybrid Cloud Model

Rapid digitization of citizen services has created massive volume of data, with varying sensitivity levels. This has created the need for a hybrid cloud strategy, which provides both flexibility as well as enhanced data security. The hybrid cloud model has facilitated initiatives such as the MyGov Saathi app, engaging over 2.5 crore users. Additionally, entities like the IT Regulators of India and the Development Authority of Maharashtra leverage hybrid cloud models for government-to-consumer operations.

The Government of India has embraced a cloud-first approach, aiming to make it the default option for ministries/departments to enhance citizen-centric services and internal efficiency. The introduction of MeghRaj in 2013 facilitated cloud technology benefits within the government sector, leading numerous ministries/departments to initiate their cloud journey. Despite progress, some

entities hesitate due to concerns like data security, control after migration, data loss, and application compatibility. Central and state governments are actively promoting cloud awareness.

Impact on IT infrastructure

The most direct benefit is a surge in demand for IT infrastructure solutions. Government projects often involve large-scale data center upgrades, network expansion, and cloud adoption, all of which require robust hardware, software, and implementation services. This translates to increased revenue and project opportunities for IT infrastructure providers.

The government's initiatives often involve implementing advanced technologies like cloud computing, Big Data analytics, and cybersecurity solutions. This pushes IT infrastructure providers to innovate and offer new solutions, keeping them at the forefront of technological advancements. Government IT projects tend to be large-scale and often involve multi-year contracts. This provides stability and recurring revenue for infrastructure providers, allowing them to invest in research and development and expand their capabilities.

Increased Demand for Products and Services:

- **Hardware:** Increased spending translates to a greater demand for hardware components like servers, storage solutions, networking equipment, and security solutions. This creates a larger market for companies that manufacture, sell, and maintain these products.
- **Software:** Government projects often require specialized software solutions for data management, analytics, communication, and cybersecurity. This opens doors for software providers who can cater to these specific needs.
- **Services:** Implementation, integration, and management of these complex IT systems require expertise. IT infrastructure providers benefit by offering services like system design, deployment, data center management, and ongoing maintenance.

Focus on Emerging Technologies:

- **Cloud Adoption:** The government's push for cloud migration creates a demand for cloud service providers (CSPs) who offer public, private, or hybrid cloud solutions. This benefits companies like Amazon Web Services (AWS), Microsoft Azure, and Google Cloud Platform (GCP) along with domestic players.
- **Cybersecurity Solutions:** As the government stores and manages more data, robust cybersecurity measures become crucial. This creates opportunities for companies specializing in network security, data encryption, and intrusion detection systems.

Project Opportunities:

- **Large-Scale Infrastructure Projects:** Government initiatives like "Digital India" and "Smart Cities Mission" involve building large-scale IT infrastructure like data centers, fiber optic networks, and citizen service platforms. These projects provide lucrative contracts for IT infrastructure providers who can design and build these networks.
- **Specialization and Innovation:** Government projects often have unique requirements, prompting infrastructure providers to develop specialized solutions and niche expertise. This fosters innovation within the sector and allows companies to differentiate themselves.

IT Infrastructure Modernization in Public Education Sector

The rapid growth in internet penetration in the country have facilitated the integration of ICT into public education domain. The development of digital infrastructure has helped in improving the access to education specifically among rural population. The Union Government have implemented a range of policy initiatives to leverage the ICT infrastructure. These include Digital Infrastructure for Knowledge Sharing (DIKSHA) platform, and initiatives by various state Governments to popularity virtual classroom & digital learning.

Current Scenario

According to Ministry of Education, only 46% of the schools in the country has a functional computer facility while only 34% has internet availability. These numbers decline to 36% and 24% respectively when only Government / public schools are considered. These numbers highlight the underdeveloped state of ICT infrastructure in Indian school education landscape.

Government schemes promoting ICT infrastructure in education sector.

Samagra Shiksha Scheme:

The ICT and Digital Initiatives component of Samagra Shiksha targets Government and Aided Schools offering classes VI to XII. This facet entails providing financial support for the establishment of ICT Labs and Smart Classrooms within schools. States and Union Territories (UTs) have access to non-recurring and recurring grants under the 'ICT and Digital Initiatives' component, with two available options:

- **Option I:** Schools lacking previous ICT facilities can choose between establishing an ICT Lab or Smart Classrooms, depending on their specific needs. Additionally, if a school enrolls over 700 students, it may be eligible for an additional ICT lab.
- **Option II:** Schools already equipped with ICT facilities can opt for Smart Classrooms according to the scheme's guidelines.

PM e-VIDYA

The National Mission on Education through Information and Communication Technology (NMEICT) has been conceptualized as a Centrally Sponsored Scheme aimed at harnessing the potential of ICT to enhance the teaching and learning process for learners in Higher Education Institutions, accessible anytime and anywhere. Its primary objective is to narrow the digital gap, which refers to the disparity in the ability to utilize computing devices for educational purposes among urban and rural teachers/learners in higher education.

In response to the directives outlined in the National Education Policy 2020, which emphasize investment in digital infrastructure and innovative teaching methodologies, the government launched a comprehensive initiative known as PM e-VIDYA on May 17, 2020, as part of the Atma Nirbhar Bharat Abhiyaan. This initiative aims to consolidate all endeavours related to digital, online, and on-air education, facilitating multi-mode access to educational resources.

PM e-VIDYA offers a diverse range of educational resources and platforms to students across all states, free of cost. These resources include digital infrastructure, online teaching platforms and tools, virtual laboratories, digital repositories, online assessments, and technology and pedagogy for online teaching-learning. Additionally, PM e-VIDYA promotes multilingualism and recognizes the importance of language in teaching and learning by employing innovative and experiential teaching methods.

Through the PM e-VIDYA initiative, the government seeks to democratize access to education, ensuring that all students have equitable opportunities to engage with high-quality educational content regardless of their geographical location or socio-economic background.

Digital University

Government of India in its Budget 2022-2023 has announced establishment of Digital University. The University will provide access to students across the country for world-class quality universal education with personalised learning experience at their doorsteps. This will be made available in different Indian languages and Information & Communication Technology (ICT) formats. The University will be built on a networked hub-spoke model, with the hub building cutting edge ICT expertise. The best public universities and institutions in the country will collaborate as a network of hub-spokes. The Department of Higher Education, in consultation with University Grants Commission (UGC), All India Council for Technical Education (AICTE) and other stakeholders has initiated the process to ensure the early start of this digital university.

IT Infrastructure Modernization Initiatives

India's Ministry of Education has embarked on a groundbreaking modernization journey by selecting Oracle Cloud Infrastructure (OCI) to transform the national education technology platform, 'Digital Infrastructure for Knowledge Sharing' (DIKSHA). This strategic migration not only enhances the accessibility of DIKSHA but also significantly reduces its IT costs, marking a pivotal advancement in India's educational landscape.

DIKSHA, a cornerstone of India's Digital Public Infrastructure (DPI) initiatives, was meticulously crafted to cater to school education and foundational learning programs. Leveraging the open-source platform Sunbird, DIKSHA empowers teachers to foster inclusive learning environments for underserved and disabled learners nationwide. With over 200 million students and 7 million teachers from government and private schools accessing content contributed by more than 11,000 collaborators, DIKSHA serves as a beacon of educational empowerment.

Since transitioning to OCI, DIKSHA has experienced a paradigm shift, reaping the benefits of enhanced scalability, security, cost-effectiveness, and dynamic capacity adjustment based on demand. This transformation has bolstered DIKSHA's ability to deliver vast amounts of content, accommodating the burgeoning needs of students and educators as the platform expands.

The monumental scale of the DIKSHA platform necessitated a cloud service provider capable of efficiently handling extensive data processing, storage, and distribution. OCI emerged as the ideal solution, equipped with robust capabilities to manage DIKSHA's diverse data formats and intricate workflows. Employing OCI Compute VMs, OCI Storage, and OCI Container Engine for Kubernetes (OKE), DIKSHA seamlessly manages its workload, stores application content, and orchestrates microservices to ensure uninterrupted service delivery.

Furthermore, OCI Media Flow and OCI Media Streams play a pivotal role in optimizing user access to DIKSHA's extensive library of nearly 1.5 million videos. By processing and storing video content in the appropriate formats and resolutions, OCI facilitates seamless content delivery tailored to users' preferences.

The adoption of OCI by India's Ministry of Education underscores a transformative shift towards leveraging cutting-edge technology to revolutionize education delivery and accessibility. As DIKSHA continues to evolve and expand its reach, Oracle Cloud Infrastructure remains a steadfast partner, driving innovation and empowerment within India's educational ecosystem.

IT Infrastructure Modernization in BFSI Domain

In recent years, the BFSI sector has witnessed a rapid shift towards digitalization, driven by changing consumer preferences, technological advancements, and regulatory mandates. The adoption of digital technologies has revolutionized banking, financial services, and insurance operations, enabling organizations to streamline processes, expand market reach, and deliver personalized services to customers. Moreover, IT infrastructure modernization has become imperative to support the growing demands of digital banking, data analytics, and cybersecurity in an increasingly interconnected world.

The Government of India's commitment to fostering a cashless economy, notably following the 2016 demonetization drive, has accelerated the country's transition to digital financial services. The Digital India initiative has also played a significant role in promoting awareness and adoption of digital payments. Over the past decade, India has witnessed a surge in digital transactions, facilitated by widespread smartphone penetration and the availability of affordable data plans.

As a result of these technological advancements, digital financial transactions in India have increased exponentially, particularly in the wake of the COVID-19 pandemic. Between FY 2018 and FY 2023, the number of digital transactions in banking space increased by a CAGR of nearly 44% to reach approximately 12,650 crore transactions per annum.

Source: Government of India

Among these platforms, Unified Payments Interface (UPI) has emerged as a game-changer since its launch in 2016. Initially representing only 6% of digital transactions compared to 36% for card payments, UPI's share has skyrocketed to 63%, while card payments have dwindled to 9% as of 2021. In April 2023 alone, over 33 crore Indian UPI users conducted 89880 crores digital payment transactions valued at Rs. 14.07 lakh crore, solidifying UPI's status as the nation's preferred payment method, with three out of every four digital transactions in India being carried out on the UPI platform.

IT Infrastructure Modernization Initiatives

In the dynamic landscape of the BFSI sector, IT infrastructure modernization plays a critical role in enabling organizations to adapt to evolving technological trends, enhance operational efficiency, and deliver seamless customer experiences. This section delves into the importance of IT infrastructure modernization in the BFSI domain, highlighting key initiatives and technologies driving transformation in this sector.

With the exponential growth of data and increasing customer expectations for real-time services, BFSI organizations are under pressure to modernize their IT infrastructure to meet the demands of the digital age. This modernization effort encompasses various components, including hardware, software, networking, and cybersecurity systems. Upgrading legacy systems to more agile and scalable architectures is essential for supporting the rapid pace of innovation and ensuring seamless integration with emerging technologies.

One of the primary drivers of IT infrastructure modernization in the BFSI sector is the adoption of cloud computing technology. Cloud solutions offer scalability, flexibility, and cost-effectiveness, allowing organizations to optimize resource utilization, improve data management, and enhance operational agility. By migrating data and applications to cloud platforms, BFSI organizations can streamline operations, reduce infrastructure costs, and accelerate time-to-market for new products and services.

Furthermore, the proliferation of digital channels and the increasing volume of online transactions have heightened the importance of cybersecurity in the BFSI sector. IT infrastructure modernization efforts include the implementation of advanced cybersecurity measures, such as multi-factor authentication, encryption, and threat detection systems, to safeguard sensitive data and mitigate cyber risks. Building a resilient cybersecurity framework is crucial for maintaining customer trust and complying with regulatory requirements in an increasingly interconnected and data-driven environment.

Additionally, BFSI organizations are leveraging emerging technologies such as artificial intelligence (AI), machine learning (ML), and robotic process automation (RPA) to enhance operational efficiency and customer engagement. AI and ML algorithms are being deployed for predictive analytics, fraud detection, and personalized customer services, enabling organizations to gain valuable insights from data and deliver tailored solutions to individual customers. RPA solutions are automating repetitive tasks, reducing manual errors, and improving process efficiency across various business functions.

Digital Transformation Initiatives

The BFSI sector is witnessing a profound digital transformation driven by changing consumer behaviours, technological advancements, and evolving regulatory landscapes. This section explores the key digital transformation initiatives undertaken by BFSI organizations to stay ahead in a competitive market and meet the evolving needs of customers.

One of the primary digital transformation initiatives in the BFSI sector is the development and deployment of mobile banking applications. Recognizing the increasing reliance on smartphones and mobile devices, banks and financial institutions have invested heavily in creating user-friendly and feature-rich mobile apps. These apps enable customers to perform a wide range of banking transactions, such as account inquiries, fund transfers, bill payments, and mobile deposits, conveniently from their mobile devices. Mobile banking apps not only enhance customer experience but also drive customer engagement and loyalty.

Furthermore, BFSI organizations are leveraging advanced analytics and artificial intelligence (AI) technologies to gain actionable insights from vast amounts of data. By harnessing the power of data analytics, banks and financial institutions can better understand customer behaviour, preferences, and needs. AI-powered chatbots and virtual assistants are being deployed to provide personalized recommendations, address customer queries, and facilitate self-service transactions, thereby improving customer satisfaction and reducing operational costs.

Another critical digital transformation initiative in the BFSI sector is the adoption of blockchain technology. Blockchain offers immutable and transparent transaction records, enhancing security, trust, and efficiency in financial transactions. BFSI organizations are exploring various use cases for blockchain, including cross-border payments, trade finance, identity verification, and smart contracts. By leveraging blockchain technology, banks and financial institutions can streamline processes, reduce fraud, and lower transaction costs, ultimately enhancing operational efficiency and fostering innovation.

Moreover, BFSI organizations are embracing open banking and API (Application Programming Interface) ecosystems to facilitate collaboration and innovation in the industry. Open banking initiatives enable banks to securely share customer data and services with third-party developers and fintech startups through APIs. This collaboration fosters the development of innovative financial products and services, such as personal finance management apps, peer-to-peer lending platforms, and robo-advisors, enriching the overall customer experience and expanding market opportunities.

IT Infrastructure Modernization in Government Service Delivery

UIADI Biometric Upgrade

The Unique Identification Authority of India (UIDAI) is mandating an upgrade from L0 to L1 biometric devices for Aadhaar authentication. This upgrade signifies a significant step towards enhancing security and accuracy in Aadhaar-based fingerprint and iris recognition systems.

The older L0 devices rely on basic sensors to capture fingerprints and iris scans. They offer a lower level of security and may be prone to errors due to limitations in sensor technology. This risk has prompted an upgrade to L1 devices which are equipped with advanced capacitive fingerprint sensors and high-resolution iris scanners. L1 devices offer improved image quality, leading to higher accuracy and better resistance to spoofing attempts.

Impact of Upgrade: Opportunities for IT Infrastructure Service Providers

The L1 biometric upgrade presents a lucrative opportunity for IT infrastructure companies in several ways:

- **Device Deployment and Maintenance:** The rollout of millions of L1 devices across India necessitates efficient deployment and maintenance services. IT infrastructure companies can offer logistics and on-site support for device installation, configuration, and troubleshooting.
- **System Integration:** Integrating L1 devices with existing Aadhaar infrastructure requires expertise in system integration. IT infrastructure companies can provide services for seamless integration and data transfer between devices and central systems.
- **Cybersecurity Solutions:** The increased focus on security necessitates robust cybersecurity solutions for L1 devices and the overall Aadhaar infrastructure. IT infrastructure companies can offer security assessments, penetration testing, and vulnerability management services.
- **Training and Awareness:** The transition to L1 devices requires training for users and administrators. IT infrastructure companies can develop training programs to educate users on the proper use of L1 devices and create awareness about Aadhaar security best practices.

Point of Sale (PoS) Mandate for Direct Benefit Schemes

The Indian government's initiative to mandate Point-of-Sale (PoS) machines for Direct Benefit Transfer (DBT) schemes signifies a significant shift towards financial inclusion and transparency. DBT involve electronically transferring government subsidies and benefits directly to beneficiaries' bank accounts. The PoS mandate requires using PoS machines for authenticating beneficiaries and recording transactions when they utilize these benefits at designated points.

Opportunities for IT Infrastructure Service Providers

The PoS mandate creates exciting opportunities for IT infrastructure companies in several areas:

- **PoS Hardware and Software Providers:** There will be a surge in demand for PoS machines, catering to various functionalities and price points. IT infrastructure companies can supply, and install these devices. Additionally, there's a need for developing and integrating secure PoS software solutions.
- **Connectivity Solutions:** Reliable internet connectivity is crucial for PoS transactions, especially in rural areas. IT infrastructure companies can provide solutions like satellite internet, VSAT, or robust broadband services to ensure seamless connectivity for PoS devices.
- **Payment Network Services:** The increased volume of PoS transactions necessitates efficient payment network processing. IT infrastructure companies can offer payment gateway solutions and network management services to ensure smooth transaction processing.
- **Data Security and Management:** Securing sensitive financial data from PoS transactions is paramount. IT infrastructure companies can provide data encryption solutions, security audits, and robust data management solutions to safeguard sensitive information.
- **Training and Support:** Rolling out PoS systems across a vast nation requires training for retailers, beneficiaries, and government officials. IT infrastructure companies can develop training programs and provide ongoing technical support for all stakeholders involved.
- Pradhan Mantri Gramin Digital Saksharta Abhiyan (PMGDSA)

The Pradhan Mantri Gramin Digital Saksharta Abhiyan (PMGDSA), launched in 2017, is a flagship initiative of the Government of India aimed at empowering rural India with digital literacy skills.

Opportunities for IT Infrastructure Service Providers

The PMGDSA has opened doors for IT infrastructure companies to play a vital role in India's digital transformation journey:

- **Training and Development:** There's a demand for companies that can develop and deliver effective digital literacy training programs tailored to the needs of rural populations. This includes creating content in local languages and utilizing user-friendly training modules.
- **Technology Infrastructure:** Providing access to computers, tablets, or smartphones for training purposes is crucial. IT infrastructure companies can collaborate with the government to set up training centers or provide low-cost devices for rural communities.
- **Connectivity Solutions:** Bridging the digital divide in rural areas requires innovative solutions for internet connectivity. IT infrastructure companies can explore options like satellite internet, VSAT, as well as establishing robust broadband networks in rural areas.

Data Centre Policy 2020:

The Data Centre Policy 2020, launched by the Ministry of Electronics and Information Technology (MeitY), aims to accelerate the growth of data center infrastructure in India. This policy introduces a series of reforms to streamline the setup process, incentivize investments, and position India as a global data center hub.

Opportunities for IT Infrastructure Service Providers

The Data Centre Policy 2020 presents a golden opportunity for IT infrastructure companies offering a range of services:

- **System Integration:** Designing and integrating complex data center infrastructure, including hardware, software, and network components, will be in high demand. Companies with expertise in system integration can play a crucial role.
- **Hardware Services:** Supplying, installing, and maintaining data center hardware like servers, storage solutions, cooling systems, and security equipment will see a surge in demand. IT infrastructure companies with robust hardware service portfolios are well-positioned.
- **Project Management Services:** Managing large-scale data center projects from planning and construction to deployment and ongoing maintenance requires skilled project managers. Companies with experience in managing complex IT infrastructure projects will be in high demand.
- **IT Facility Management Services:** Providing comprehensive data center facility management services, encompassing power management, environmental controls, physical security, and disaster recovery solutions, will be crucial. Companies with expertise in this area can capitalize on this opportunity.
- **IT Consulting Services:** Offering strategic IT consulting services to businesses planning to set up or migrate to data centers will be in high demand. This includes advising on data center design, technology selection, and implementation strategies.
- **IT Infrastructure Solutions:** Delivering complete IT infrastructure solutions encompassing hardware, software, managed services, and expertise in data center design and deployment will be attractive to businesses. Companies offering bundled solutions can gain a competitive edge.

Digital Personal Data Protection (DPDP) Act

The Digital Personal Data Protection Act (DPDP) Act, 2023, is a landmark legislation in India that governs the processing of digital personal data. It aims to strike a balance between protecting individual privacy and enabling businesses to leverage data for legitimate purposes.

Impact on Businesses Handling Data:

The DPDP Act will significantly impact businesses that handle personal data of Indian citizens.

- **Compliance Costs:** Businesses will need to invest in building processes and systems to comply with the Act's requirements. This includes obtaining consent management platforms, data security solutions, and potentially hiring data protection officers.
- **Shift in Data Governance:** Businesses will need to adopt a more transparent and accountable approach to data governance. This involves documenting data collection practices, purposes, and retention periods.
- **Potential for Disruption:** Non-compliance with the Act can lead to penalties and reputational damage. Businesses may need to review their data collection practices and marketing strategies to ensure compliance.

Opportunities for IT Infrastructure Service Providers

The DPDP Act presents significant opportunities for IT infrastructure companies that can help businesses achieve compliance:

- **Data Security Solutions:** The increased focus on data security creates a demand for solutions like data encryption, access controls, and intrusion detection systems. IT infrastructure providers can offer these solutions and consulting services to help businesses secure their data.
- **Consent Management Platforms:** Businesses will need tools to manage consent from individuals for data collection. IT infrastructure providers can develop or integrate consent management platforms that streamline this process.
- **Data Governance Solutions:** Software solutions for data lineage tracking, data discovery, and data anonymization can help businesses manage and govern their data effectively. IT infrastructure providers can offer these solutions or partner with existing providers.
- **Cloud-based Compliance Solutions:** Cloud service providers can offer solutions specifically designed to help businesses comply with the DPDP Act's data storage and residency requirements.

Growth Forecast

The Indian IT industry is experiencing a period of significant growth, driven by a confluence of factors. According to estimates, the industry is expected to grow at CAGR of 7.2% to reach USD 323 billion by 2027. The global shift towards digitalization has increased the demand for IT services across industries. Indian IT firms, with their expertise in software development, cloud solutions, and system integration, are well-positioned to capitalize on this trend.

Compared to developed economies, India offers competitive rates for IT services, making it an attractive option for businesses worldwide. This advantage, coupled with a large pool of skilled professionals, continues to attract global clients. The rise of technologies like artificial intelligence, blockchain, and the Internet of Things (IoT) is creating new opportunities for the Indian IT industry. Companies are investing in developing expertise in these areas to meet evolving client needs.

Notably, the domestic IT market is expected to grow even faster. This rapid expansion presents exciting opportunities for both Indian businesses and the global IT landscape. The Indian government is actively promoting digital adoption through initiatives like "Digital India," which aims to make government services more accessible online and bridge the digital divide. This creates significant demand for IT infrastructure and services within the country. The rising middle class in India is driving demand for consumer-focused IT products and services, such as e-commerce platforms, digital payment solutions, and online entertainment options. India's thriving start-up ecosystem is fueling demand for IT services as these new businesses require solutions for website development, app development, cloud infrastructure, and cybersecurity.

Competitive Landscape

The Indian IT infrastructure industry is flourishing, driven by a growing demand for digital solutions. The competitive landscape is dynamic, with established players facing competition from innovative mid-tier players and niche specialists. The market is teeming with both established players and emerging ones, creating a dynamic competitive environment. Major players like TCS, Wipro, Infosys, and HCL Technologies offer comprehensive IT infrastructure solutions, including data center services, network management, and cloud solutions. These companies leverage their vast experience, global reach, and diverse service portfolios to gain a competitive edge.

Mid-sized players like L&T Infotech, Tech Mahindra, and Mphasis are also making their mark, offering cost-effective solutions and catering to specific market segments. Additionally, niche players with specialized expertise in areas like cloud migration, network security, and disaster recovery are carving out their space, further intensifying the competitive landscape.

Competition is evolving beyond just cost and service offerings. Factors like innovation, agility, and specialization are becoming increasingly important. Companies are differentiating themselves by investing in cutting-edge technologies like artificial intelligence and automation, adopting agile methodologies, and developing domain-specific expertise. Additionally, the rise of cloud-based solutions is disrupting traditional business models, forcing players to adapt and develop new competitive strategies.

The Government of India's Digital India initiative fuels the demand for IT infrastructure solutions as businesses and government entities across the country rapidly digitize their operations to facilitate e-governance, citizen services, and business enablement. The rapid adoption of cloud-based solutions drives the need for IT infrastructure services focusing on cloud migration, management, and optimization. Companies look for providers to help them move workloads to the cloud and manage hybrid cloud environments. Rising cybersecurity threats increase the demand for robust network, data, and infrastructure security solutions. Companies require assistance in vulnerability assessments, threat detection, and incident response. The need for data centers to store and process increasing volumes of data is pushing the requirement for IT infrastructure players with specialized expertise in data center design, build-out, and management.

The domestic IT infrastructure industry in India is highly competitive, featuring a mix of established global players, large Indian conglomerates, and specialized mid-sized firms. Companies like TCS, Wipro, Infosys, and HCL Technologies dominate the market, leveraging their global reach, extensive resources, and diversified portfolios. These players offer a full range of IT infrastructure services, from cloud solutions and data center management to network security and managed services. Mid-sized players like L&T Infotech, Tech Mahindra, Mphasis, and others compete by providing a mix of cost-effectiveness, niche specialization, and focus on specific industry verticals. They often have strong regional presence and established relationships with specific clientele. Smaller, niche players compete by focusing on specialized areas like cloud migration, network security, cybersecurity, or infrastructure solutions for specific sectors like healthcare or education.

Entering the domestic IT infrastructure industry requires significant technical expertise and investment in skilled resources. Setting up modern data centers, establishing cloud solutions, and building robust networking infrastructure can be capital intensive. Especially to cater to the government sector, where pre-qualifications are mandatory, which often involve a minimum number of years of experience, proven track record of successfully executing similar projects, and financial stability. Additionally, obtaining security clearances and adhering to stringent compliance regulations can be challenging for new entrants. Government contracts often require domain-specific expertise and experience in handling large-scale projects. Additionally, specific security certifications and adherence to data privacy regulations are mandatory.

TCS provides a comprehensive portfolio of IT infrastructure services, including data center operations, managed services, and cloud solutions. For example, TCS established and currently maintains the infrastructure for the Passport Seva, a government initiative facilitating passport issuance.

Wipro offers a comprehensive portfolio of IT infrastructure services for government agencies, including cloud solutions, data center management, and network security. They have been involved in projects like the implementation of the Integrated Traffic Management System (ITMS) for Delhi and the National Knowledge Network (NKN) project.

HCL Technologies offers a diverse IT infrastructure service portfolio for the government sector, encompassing data center operations, network management, and cloud solutions. They have implemented projects like the National e-Governance Plan (NeGP) and the digitization of land records for various state governments.

L&T Infotech specializes in offering IT infrastructure solutions catering to specific needs of government agencies. They have been involved in projects like the implementation of the Goods and Services Tax Network (GSTN) and the automation of various processes for the Ministry of Defence.

While the government sector presents unique challenges with its stringent entry barriers and specific requirements, it also offers significant opportunities for players with the right expertise and experience.

SWOT Analysis of Armee Infotech

STRENGTHS

- **Strong Government Clientele:** Armee Infotech has established itself within the government and government education sectors, which often have high barriers to entry. This provides a stable and reliable source of revenue with less competition from new players.
- **Regional Expertise:** The company holds a strong regional presence in Gujarat, indicating a deep understanding of the local IT landscape and potentially strong relationships within the region's government bodies.
- **Experience and Quality Standards:** Years of experience have allowed Armee Infotech to develop high-quality standards and expertise in handling government projects. This established reputation gives them an advantage over competitors when bidding for tenders.

WEAKNESSES

- **Limited Geographic Reach:** Dependence on the Gujarati market limits growth potential and restricts access to opportunities in other parts of India.
- **Underdeveloped Private Sector Presence:** Limited presence in the private sector hinders diversification and exposes Armee Infotech to over-reliance on government projects.

SWOT

OPPORTUNITIES

- **Leveraging Government Initiatives:** Government digitalization initiatives create a significant opportunity for Armee Infotech to expand its services in both the public and private sectors. Their existing government clientele and experience position them well to capitalize on these initiatives.
- **Rural IT Infrastructure Development:** Government efforts to improve rural India's IT infrastructure present a new market segment for Armee Infotech to explore. Their regional expertise could be valuable in this space.

THREATS

- **Highly Competitive Market:** The IT infrastructure services market is volatile with numerous players from large enterprises to small businesses. This leads to intense competition on pricing and can make it difficult for Armee Infotech to secure deals, especially against bigger brands or those offering lower prices.
- **Maintaining High Quality Standards:** Since they primarily cater to the government sector, Armee Infotech needs to continuously meet stringent quality standards to retain projects. Government tenders and projects have specific requirements, and failing to meet them can lead to disqualification.

Payment Devices

India is witnessing a phenomenal rise in digital payments, rapidly transforming the financial landscape. This surge is driven by a potent combination of government initiatives, infrastructure development, and a growing ecosystem of players.

Government Initiatives:

Jan Dhan Yojana

- Launched in 2014, this scheme provides basic bank accounts to the unbanked population. As of February 2024, over 46 crore (460 million) Jan Dhan accounts have been opened.

Digital India Mission

- Launched in 2015, this flagship program aims to create a "cashless society" by promoting digital payment adoption. The initiative focuses on infrastructure development, awareness campaigns, and financial inclusion

Unified Payments Interface (UPI)

- Developed by the National Payments Corporation of India (NPCI), UPI is a revolutionary platform enabling instant interbank money transfers through mobile apps. Its simplicity and ubiquity have been key drivers of digital payments adoption.

BHIM App

- Launched by the government, BHIM is a user-friendly mobile app that allows easy access to UPI services. This has helped bridge the digital divide and empower people with basic feature phones to participate in the digital payments ecosystem.

Aadhaar Enabled Payment System (AEPS)

- This system leverages Aadhaar, a unique biometric identification system, for cashless transactions at micro ATMs in rural areas. This has improved financial inclusion for the unbanked and underbanked population.

Infrastructure Development:

- **Jan Dhan-Aadhaar-Mobile (JAM) Trinity:** This framework leverages existing infrastructure – bank accounts (Jan Dhan), unique identity numbers (Aadhaar), and mobile phones – to facilitate secure and efficient digital transactions.
- **Increased Internet Penetration:** Improved internet connectivity, particularly in rural areas, is crucial for digital payment adoption. Initiatives like BharatNet aim to bridge the digital divide.
- **Point-of-Sale (PoS) Infrastructure:** The government incentivizes the deployment of PoS terminals in small shops and businesses, making digital payments accessible to a wider audience.

Driving Digital Transformation:

Merchant Onboarding

- Government initiatives incentivize businesses to adopt digital payment methods by offering fee waivers and cashback schemes. This has significantly increased the acceptance of digital payments across various sectors.

Digital Transactions for Government Services

- The government encourages citizens to pay taxes, utility bills, and other dues electronically, creating a strong use case for digital payments.

Demand for Payment Devices:

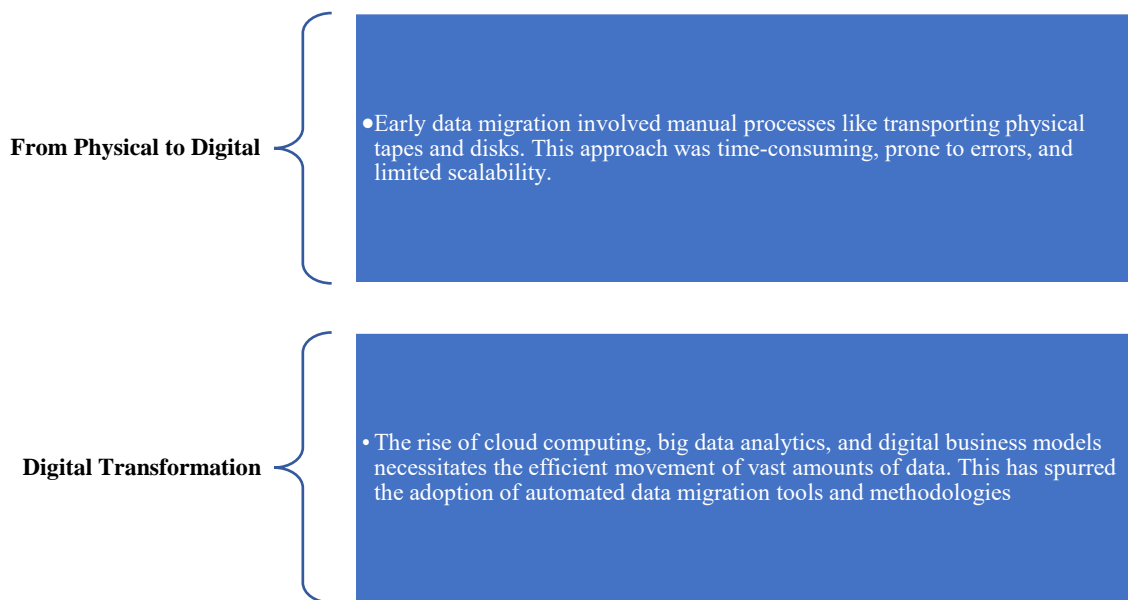

- **Increased Digital Transactions:** The volume of digital transactions in India has grown exponentially. As per the RBI, digital transactions reached a staggering 13,462 crore in FY 2022-23, up from 2,071 crore in FY 2017-18. This growth surge necessitates a wider range of payment devices.
- **UPI's Dominance:** As per NPCI, UPI recorded over 83.75 billion transactions in FY 2023. This signifies the immense popularity and reach of UPI in India. It has emerged as the most popular digital payment method in India. Its compatibility with various mobile wallets and banking apps allows for seamless transactions using smartphones, a ubiquitous device even in rural areas.
- **Card Adoption:** Debit and credit cards continue to play a vital role, particularly for online transactions and larger purchases. Increased financial inclusion has led to a rise in debit card usage.
- **Small Business Adoption:** Small businesses have embraced digital payments due to convenience, faster settlements, and reduced cash handling costs. UPI and QR code payments have been particularly beneficial for micro-merchants who can now accept cashless payments easily.

The government's relentless push for digital payments, coupled with the development of a robust infrastructure and ecosystem, has significantly transformed India's financial landscape. The increasing adoption of digital payment devices by individuals and businesses across urban and rural areas signifies a paradigm shift towards a cashless future. As digital payment solutions continue to evolve and offer greater convenience and security, their penetration is expected to soar further, fostering financial inclusion and economic growth in India.

Data Migration

Data migration, the process of transferring data from one storage system to another, has undergone a significant shift in India. Traditionally, data resided on physical media like tapes and disks. However, the digital revolution has driven a massive migration towards cloud-based and digital storage solutions. This shift presents a growing demand for data migration services.

Evolution of Data Migration:

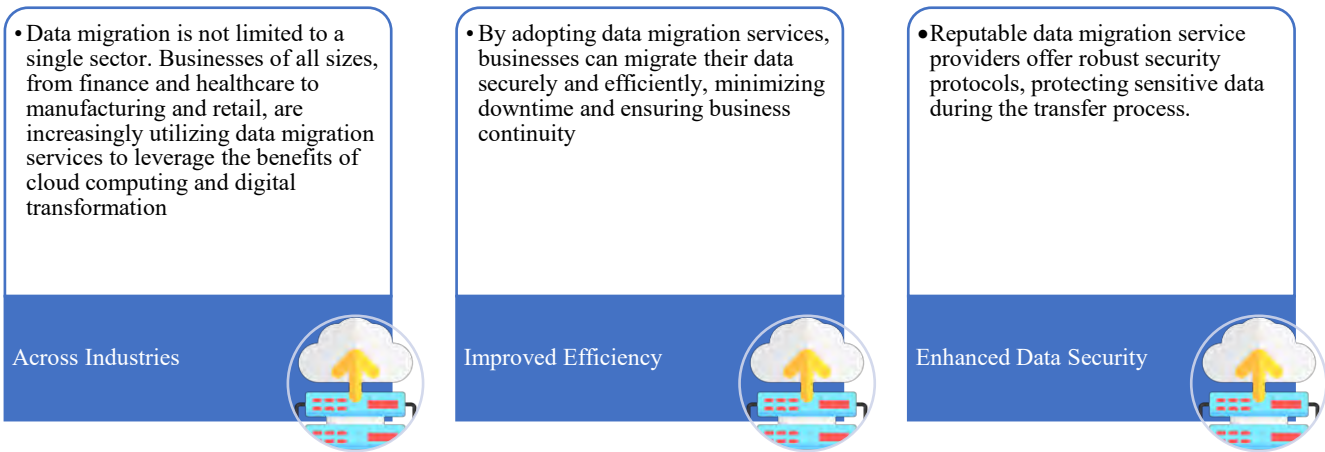

Driving Forces for Data Migration Services:

- Government Initiatives: India's "Digital India" mission emphasizes digitalization across various sectors. This promotes cloud adoption and data center consolidation, driving the need for secure and efficient data migration services.
- Compliance Requirements: Regulations like the Data Protection Bill necessitate robust data security practices. Data migration services ensure compliance by facilitating the secure transfer of sensitive data to secure cloud environments.
- Business Process Optimization: Companies are migrating data to the cloud to optimize operations, improve data accessibility, and benefit from scalability and cost-effectiveness.
- Evolving Technologies: As technologies like artificial intelligence and machine learning become more prevalent, the need for efficient data migration to support these applications grows.

Government Facilitation:

- Digital Infrastructure Development: The government is investing in building a robust digital infrastructure, including high-speed internet connectivity. This facilitates faster and more reliable data transfer processes.
- Skilling Initiatives: Government programs are focusing on developing a skilled workforce for the IT sector, including data migration specialists. This ensures the availability of qualified professionals to manage data migration projects.

Adoption by Businesses:

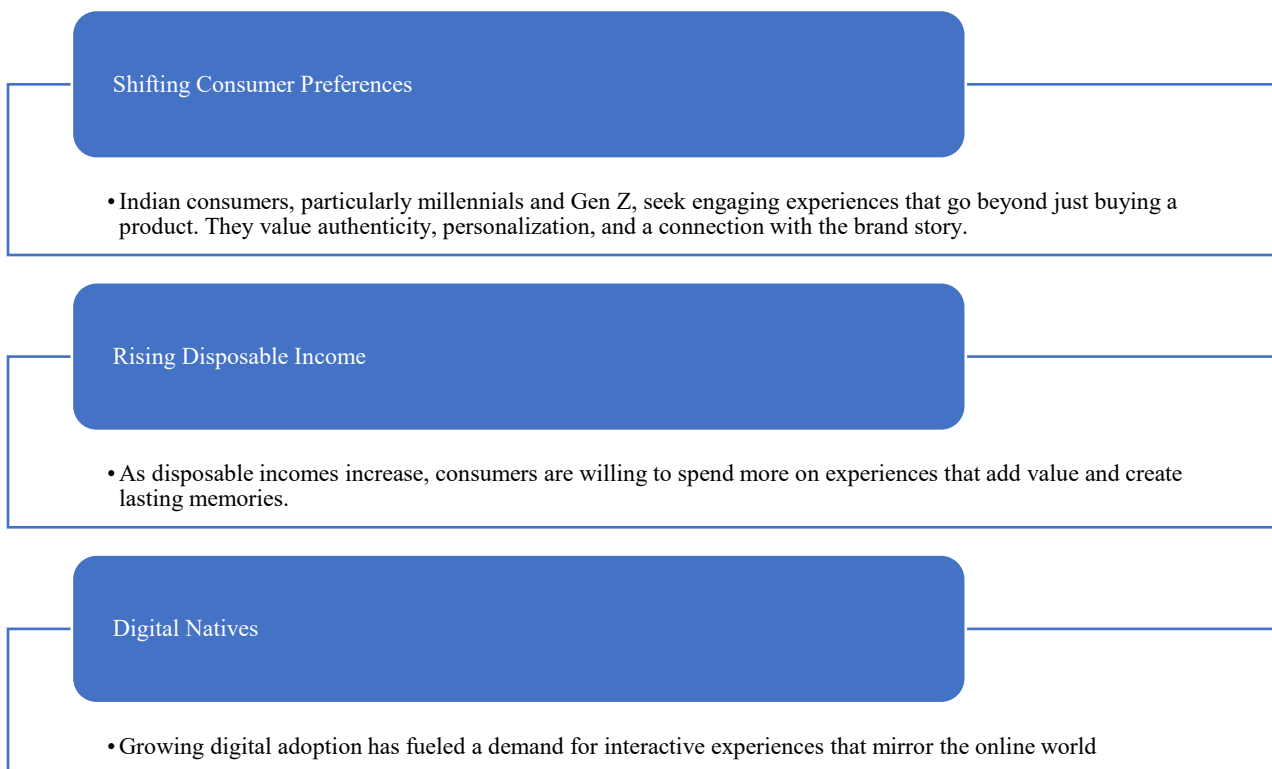

The digital revolution in India has transformed data migration from a manual process to a critical element of digitalization. Government initiatives, evolving technologies, and the growing need for secure and efficient data movement are driving the demand for data migration services. As businesses across industries embrace the cloud and digital transformation, the future of data migration in India is bright, offering significant opportunities for service providers in this dynamic market.

Experience Zones

The Indian retail landscape is undergoing a paradigm shift, moving from purely transactional stores to immersive experiences. Enter experience zones – interactive spaces designed to engage all five senses and create a deeper connection between brands and consumers.

Factors Fuelling the Growth of Experience Zones in India:

Demand Drivers for Experience Zones:

- **Brand Differentiation:** Experience zones provide a unique platform for brands to differentiate themselves from competitors. They can showcase product functionalities, highlight brand values, and create a lasting impression.
- **Increased Customer Engagement:** Interactive elements and engaging activities lead to higher customer engagement, fostering brand loyalty and advocacy.
- **Data Collection and Insights:** Experience zones allow brands to collect valuable customer data through interactive elements. This data can be used to personalize future interactions and tailor product offerings.

Current Examples of experience zones operating in India:

- Customers can experience the latest VR technology and features of their phones. These stores also offer personalized consultations and workshops

Samsung Experience Stores

- These centers offer interactive tutorials on product usage, live demonstrations, and personalized consultations. They foster a sense of community and brand trust.

Amway Experience Centers

- This immersive experience allows visitors to explore the Kia BEAT car through virtual reality and interactive displays, providing a unique way to engage with the product.

KiaBEAT360

Experience zones are poised for significant growth in India. With increasing urbanization, rising living standards, and a growing tech-savvy population, the demand for engaging and interactive experiences will continue to rise. Brands across various sectors – from automobiles and electronics to fashion and beauty – are likely to embrace this trend to enhance their customer connect.

Overview

We are an IT Infrastructure solutions and IT managed services company headquartered in Ahmedabad, Gujarat. We are sector agnostic and service a wide variety of projects for both Government/public sector undertakings (PSUs) and private sector with a focus on Government/PSU projects and a predominant presence in the state of Gujarat.

Under IT Infrastructure solutions, we provide IT hardware and software (e.g., computers, servers, interactive panels and their peripherals), work on the installation and integration of the hardware and software as per the client requirements, and also provide maintenance of the IT Infrastructure installed by us for periods as may be specified under the relevant contracts. To ensure seamless transition for our clients, we also provide functional training of the IT Infrastructure installed by us. We have undertaken multiple projects under the IT Infrastructure solutions segment including setting up of ICT labs, smart classes, installing digital infrastructure for public distribution system, mobile workforce management, and digitalization of primary agriculture credit societies etc. The projects undertaken by us are for a specific contractual period. The revenue generated from operations in IT Infrastructure solutions segment was ₹ 49,998.43 lakhs or 89.25% of our total revenue from operations for the nine months period ended December 31, 2023, ₹ 40,844.98 lakhs or 81.25% of our total revenue from operations for Fiscal 2023, ₹ 7,528.69 lakhs or 60.14% of our total revenue from operations for Fiscal 2022, and ₹ 6,226.79 lakhs or 59.27% of our total revenue from operations for Fiscal 2021, reflecting a CAGR of 156.12% between Fiscal 2021 and Fiscal 2023.

Under IT managed services category, in addition to providing IT Infrastructure solutions as mentioned above, we also provide technical manpower, skill development training and offer annual maintenance services. Our employees provide on-site and off-site operational support and maintenance of the IT infrastructure, as may be specified under the relevant contracts. IT managed services are typically delivered under a service level agreement and payments are made at pre-defined intervals or as per contractual terms. The revenue generate from operations in IT managed services segment was ₹ 6,019.54 lakhs or 10.75% of our total revenue from operations for nine months period ended December 31, 2023, ₹ 9,424.53 lakhs or 18.75% of our total revenue from operations for Fiscal 2023, ₹ 4,989.29 lakhs or 39.86% of our total revenue from operations for Fiscal 2022, and ₹ 4,278.50 lakhs or 40.73% of our total revenue from operations for Fiscal 2021, reflecting a CAGR of 48.42 % between Fiscal 2021 and Fiscal 2023.

In the projects undertaken by us, certain activities like site preparation, electrification, installation, commissioning and maintenance of IT Infrastructure are provided by third party service providers including Armee Technology Services Private Limited, our Wholly Owned Subsidiary. For further details on our Subsidiary, please see “Our Subsidiary” on page 154.

As of December 31, 2023, a significant number of our projects are with the Government/PSU clients. Revenue from operations generated from our Government/PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29%, respectively, as a percentage of total revenue from operations, for the respective periods.

We classify Ongoing Projects as projects wherein we have received contract/purchase orders and there is pending obligation either for supply and/or installation and/or maintenance as per the terms and conditions of the contract/purchase orders. As on December 31, 2023, we have 13 Ongoing Projects out of which six are under IT Infrastructure solutions category and seven are under IT managed services category. Further, as on December 31, 2023, we have 153 projects wherein we have completed the execution and received the payment in full but the term of the project for warranty period is still ongoing. The warranty period for these 153 projects ranges from three to five years depending upon the terms of the contract.

We classify our projects as completed when we have received contract/purchase orders, booked and realised the amount and completed the warranty obligations, as per the terms of the contract/purchase orders. In the nine months period ended December 31, 2023, and the last three Fiscals we have completed 149 projects under the IT Infrastructure solutions category and 11 projects under the IT managed services category.

The details of Order Book for our Ongoing Projects as of December 31, 2023, is as follows:

(In ₹ lakhs, except for percentages)

Service categories	No. of projects	Order Book as of December 31, 2023	Order Book percentage as of December 31, 2023 (%)	Order Book as a percentage of revenue from operations in the nine months period ended December 31, 2023

OUR STRENGTHS

Proven track record in executing projects for Government and PSU clients

Our Company has a proven track record in executing projects for Government and PSU clients. For the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, we have serviced and completed 5, 36, 36 and 28 projects, respectively, for Government and PSU clients. For the same periods, we have executed 74, 52, 16 and 5 projects, respectively, for Government and PSU clients, wherein the term of warranty period is still ongoing. Our work for Government and PSUs is focused on the usage of IT Infrastructure solutions to digitize Governmental functions. Revenue from operations generated from our Government and PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29%, respectively, as a percentage of total revenue from operations, for respective periods. We obtain most of our business by a competitive bidding process and undertake multilocational projects providing end-to-end IT Infrastructure solutions and IT managed services to various departments of different state Governments and PSUs. Further, our Company has been part of successful implementation of Government schemes such as E-gram Vishwagram project by the Government of Gujarat, Deen Dayal Upadhyaya Grameen Kaushalya Yojana by Central Government, Gyankunj scheme- a digitization program of Government of Gujarat, Samagra Shiksha Abhiyan by Central Government amongst others.

Government IT projects tend to be large-scale and often involve multi-year contracts. This provides stability and recurring revenue for infrastructure providers, allowing them to invest in research and development and expand their capabilities. [Source: D&B Report]. We believe that projects executed by Government and PSU clients are time bound and there is greater certainty of payments. We believe our understanding of being able to execute Government/PSU projects helps us execute these projects in a time and cost-efficient manner.

Further, we have a predominant presence in the state of Gujarat. Out of the 13 Ongoing Projects, 10 projects are being serviced in Gujarat and one project each is being serviced in Uttar Pradesh, Karnataka and Bihar. For the nine months period ended

December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, 92.27%, 82.81%, 58.77% and 61.15% of our revenue from operations for the respective periods came from the projects executed by us in the state of Gujarat.

Consistent track record of financial performance

We have a strong balance sheet and have successfully demonstrated consistent growth in terms of revenues and profitability. We have experienced sustained growth in various financial indicators. Ability to service IT Infrastructure solutions and IT managed services to clients engaged in diverse sectors

As an IT Infrastructure and IT managed services company, we are sector agnostic and have serviced a wide variety of projects for both Government/PSUs and private sector clients. Our strength lies in being able to provide IT Infrastructure and IT managed services to clients engaged in diverse sectors. We have provided IT Infrastructure solutions and IT managed services to various sectors including education, healthcare, public distribution system, rural & urban development, science & technology sectors etc. We are therefore able to quickly adapt to the requirements of different sectors. Under our Ongoing Projects we are providing services to various departments of different state Governments and operating under different Government schemes. And in the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, we have provided our services to over 30 different state Government departments and PSUs and operated under various Government schemes. Being sector-agnostic helps us mitigate risks associated with specific industries that may experience downturns or economic fluctuations and allows us flexibility and adaptability to new sectors.

Experienced Board of Directors and management with extensive domain knowledge.

Our operations are conducted by an experienced management team that has significant expertise in all aspects of our business operations. Our Promoters, Kiritkumar Chimanhai Patel and Ami Ridhish Patel have been associated with the Company since its inception and have an experience of over two decades each in the IT Infrastructure industry and our Promoter, Ridhish Kiritbhai Patel joined the operations of our Company as an Executive Director on May 22, 2012 and has an experience of more than a decade in the IT Infrastructure industry.

Our Board of Directors and management are involved in various aspects of our business. We believe that our experienced senior management team has contributed to the growth of our business, and their experience and industry knowledge provides us with a significant competitive advantage. Our senior management team is supported by a team of qualified personnel with relevant domain experience which provides us with a competitive advantage as we seek to expand our service portfolio. For further details on our senior management, please see "Our Management" on page 156.

We believe that the combination of our experienced Board of Directors and our dynamic management team positions us well to capitalize on future growth opportunities. Their industry experience enables us to anticipate and address client needs, manage and grow our operations, maintain and leverage client relationships and respond to changes in client preferences. In addition, we are supported by experienced and qualified employees who possess a range of qualifications in various disciplines. For further details, please see “*Our Management*” on page 156.

STRATEGIES

Expanding and augmenting our products and services portfolio

We offer a wide ranging and diversified bouquet of product and service offerings and classify our business into two verticals viz., IT Infrastructure solutions and IT managed services. We also intend to leverage upon the upcoming technological advancements in segments such as experience zone, payment devices and data migration.

Experience Zone- The “experience zone” are interactive spaces designed to engage all five senses and create a deeper connection between brands and consumers. [Source: *D&B Report*] Experience zones provide a unique platform for brands to differentiate themselves from competitors, they can showcase product functionalities, highlight brand values, and create a lasting impression. [Source: *D&B Report*] Experience zones are poised for significant growth in India. With increasing urbanization, rising living standards, and a growing tech-savvy population, the demand for engaging and interactive experiences will continue to rise. [Source: *D&B Report*] We have entered into a non-binding MoU with Acer India Private Limited to collaborate for setting-up customer experience centers across India. The aim is to set up such interactive customer experience centers which provide customers with a real time brand experience.

Payment devices – India is witnessing a phenomenal rise in digital payments, rapidly transforming the financial landscape. This surge is driven by a potent combination of Government initiatives, infrastructure development, and a growing ecosystem of players. [Source: *D&B Report*] Government has launched various initiatives in this segment, like Jan Dhan Yojna, Digital India Mission, Unified Interface Payment, Aadhar enabled payment system etc. [Source: *D&B Report*] We have worked on projects in the payment device sector whereby we have facilitated automation of fair price shops on BOO model basis and performed integration services on PoS devices used for online electricity bill collection. For further details, please refer to the table under section “*Our Services – IT managed services*” on page 135. As digital payment solutions continue to evolve and offer greater convenience and security, their penetration is expected to soar further, fostering financial inclusion and economic growth in India. [Source: *D&B Report*] We intend to expand our product portfolio and focus on this segment in the coming years.

Data migration – Data migration, the process of transferring data from one storage systems to another, has undergone a significant shift in India. Traditionally data resided on physical media like tapes and disks. However, the digital revolution has driven a massive migration towards cloud-based and digital storage solutions. This shift presents a growing demand for data migration services. [Source: *D&B Report*]. In addition to our IT infrastructure and IT managed services, we also offer our clients data migration services and in future, we plan to undertake more data migration projects. As businesses across industries embrace the cloud and digital transformation, the future of data migration in India is bright, offering significant opportunities for service providers in this dynamic market. [Source: *D&B Report*] And as an IT service provider company, we intend to expand in this segment in the coming years.

Continue to expand our geographical footprints

We are located in Gujarat and have branch offices in three states, being, Haryana, Karnataka and Maharashtra. In recent years, the Government of India has recognized the crucial role of IT Infrastructure in bridging the digital divide and fostering socio-economic development in rural India. [Source: *D&B Report*] As digital literacy rises and people become comfortable with technology, the demand for internet-based services like e-commerce, online education, and telemedicine will soar. This creates fertile ground for managed service providers to offer solutions like cloud storage, data analytics, and cybersecurity. [Source: *D&B Report*]

Currently, we provide IT Infrastructure solutions and IT managed services to various sectors including education, healthcare, public distribution system, rural & urban development, science & technology sectors etc. We have a predominant presence in the state of Gujarat. Out of the 13 Ongoing Projects, 10 projects are being serviced in Gujarat and one project each is being serviced in Uttar Pradesh, Karnataka and Bihar. We intend to increase our presence pan India by securing and servicing projects in other states of India. We have currently bid for various projects in multiple states and as of date, have won bids for projects located in the state of Haryana, Himachal Pradesh, Maharashtra, and Uttarakhand.

Continue to bid for Government/PSUs projects while also focus on expanding our operations to private clients

As of December 31, 2023, a significant number of our projects are with the Government and PSUs. Revenue from operations generated from our Government/PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29%, respectively, as a percentage of total revenue from operations, for respective periods. We undertake projects under various models such as O&M, BOO, and BOOT. As of May 31,

2024, we have following projects under various stages of bidding. Please note that none of these projects are awarded to us as yet.

Sr No	Name of the project	Description of the project	Stage of bidding	Estimated project value (In ₹ lakhs)*	Nature of capital expenditure	Duration of project
1	Food, Civil Supplies & Consumer Affairs Department, Uttarakhand	Project for selection of system integrator for supply, installation and maintenance support of Pos devices with electronic weighing scale (EWS), FPS automation application and hosting support towards the automation of fair price shops operations	LOI	5,000.00	PoS Devices	5 years

While we will continue to focus and service Government/PSU clients, we intend to increase our focus on the private clients to ensure a healthy mix of Government/PSU and private clients. We aim to significantly expand our operations to include private clients by leveraging our expertise and experience in executing and managing projects of varied scales across multiple sectors for Government/PSUs. We have set-up three branch offices, in Bangalore, Gurgaon and Mumbai with an intention to scale-up our sales and marketing and focus on acquiring private clients

OUR SERVICES

We have undertaken a wide variety of projects for both Government/PSUs and private sector clients. The range of projects undertaken by us are inclusive of supply and installation of IT hardware and software (eg. computers, servers), setting up of ICT labs, setting up of smart classes, installing digital infrastructure for public distribution system, digitalisation of primary agriculture credit societies etc. Our operations are broadly classified in two categories namely:

- i) **IT Infrastructure solutions;** and
- ii) **IT managed services**

IT Infrastructure solutions

Under IT Infrastructure solutions, we provide IT hardware and software (e.g. computers, servers, interactive panels and their peripherals), work on the installation and integration of the hardware and software as per the client requirements, and also provide maintenance of the IT Infrastructure solutions installed by us for periods as may be specified under the relevant contracts. To ensure seamless transition for our clients, we also provide functional training of the IT Infrastructure installed by us. We have undertaken multiple projects under the IT Infrastructure solutions segment category including setting up of ICT labs, smart classes, installing digital infrastructure for public distribution system, mobile workforce management, digitalization of primary agriculture credit societies and others. The IT Infrastructure solutions projects undertaken by us are for a specific contractual period. We also provide cyber-security solutions such as firewall, antivirus, intrusion detection/prevention systems, and encryption services on cloud. Our Company has provided IT Infrastructure solutions as part of successful implementation of various Government schemes.

We believe our relationship with Technology Partners enables us to deliver trusted IT infrastructure products to empower our clientele with the utmost sophisticated and reliable technologies. We have maintained good relationships with our Technology Partners, through which we are able to provide reliable end-to-end IT Infrastructure solutions and IT managed services to our clients tailored to specific client requirements. We install and maintain hardware and software as a customised service, and also perform comprehensive turnkey IT solutions on hardware and software platforms and applications for our clients.

As of December 31, 2023, we are servicing the following Ongoing Projects under our IT Infrastructure solutions category:

Sr. No.	State	Project value (In ₹ lakhs)*	Order Book as on December 31, 2023 (In ₹ lakhs)	Services provided
1.	Gujarat	38,515.04	12,211.85	Setting-up of 7,500 ICT labs in schools across Gujarat which includes supply, installation, commission of hardware, software and connected accessories.

				We are also required to undertake maintenance of the ICT labs for five years and provide user functional training for the equipment and software.
2.	Karnataka	1,837.30	350.66	Digitization of 5,491 Primary Agriculture Credit Societies through supply, installation and commissioning of computer desktops across the state of Karnataka. We are required to undertake warranty for a period of three years and comprehensive maintenance contract for a period of two years.
3.	Gujarat	15,793.94	15,793.94	Supply, installation, commissioning and maintenance of hardware software and connected accessories in 17,500 classrooms of Government elementary and secondary schools under Project Gyankunj - school digitisation programme. Our scope of services includes warranty and preventive maintenance during the contract period i.e. five years. Additionally, we are responsible for providing maintenance support and operational training to school teachers post installation.
4.	Gujarat	15,793.94	15,793.94	Supply, installation, commissioning and maintenance of hardware software and connected accessories in 17,500 classrooms of Government elementary and secondary schools under Project Gyankunj - school digitisation programme. Our scope of services includes warranty and preventive maintenance during the contract period i.e. five years. Additionally, we are responsible for providing maintenance support and operational training to school teachers post installation.
5.	Gujarat	24,660.76	606.99	Supply, installation, commissioning, testing and maintenance of hardware software for digitization of 30,000 classrooms of Government elementary and secondary schools in Gujarat. Our scope of work under the project also includes providing operational training to all school teachers post installation of all items at schools. Additionally, we are required to undertake maintenance of the installed infrastructure for five years and provide users functional training for the equipment and software.
6.	Gujarat	21,375.68	345.08	Supply, installation, commissioning and maintenance of hardware, software and connected accessories in 4,162 ICT labs in Gujarat. Our scope of work also includes providing training to the users and school teachers, maintenance and warranty for the equipment for five years.

*The total project value is exclusive of GST.

IT managed services

Under IT managed services category, in addition to providing, installation and integration of IT hardware and software products, we provide technical manpower, skill development training and offer annual maintenance services. Our employees provide on-site and off-site operational support and maintenance of the IT infrastructure, as may be specified under the relevant contracts. IT managed services are typically delivered under a service level agreement and payments are made at pre-defined intervals or as per the contractual terms of the service agreements. We have undertaken multiple projects under the IT managed services category including setting up of e-gram centres and providing technical training to executives at various levels in rural areas of Gujarat, deployed on-site team at multiple rural areas of Uttar Pradesh for successful automation of fair price shops, setting up smart classes and providing training to schoolteachers to operate the smart classes. Our Company has provided IT managed services as part of successful implementation of various Government schemes.

We also execute projects under the BOO and BOOT model. Under the BOO model, we deploy IT Infrastructure during the contract period and upon completion of the project, the IT Infrastructure is completely removed, whereas under the BOOT model, the IT Infrastructure is transferred to the client. Under these contracts, we provide turnkey IT solutions that includes, site preparation, procurement, supply and installation of hardware, software and related peripherals, maintenance, troubleshooting and helpdesk support, training and education services to the staff and deployment of trained manpower. We have to make an investment in the IT Infrastructure at the start of the contract while the revenues are generated over the lifetime of the contract. Due to this, sizeable investments are to be made by our Company at the start of such projects. This enables our clients to benefit from cost-savings due to them not having to invest in the IT Infrastructure underlying such projects and allowing them to manage their cash flows more efficiently.

As of December 31, 2023, we are servicing the following Ongoing Projects under our IT managed services category:

The projects undertaken by us have different billing cycles. However, the IT Infrastructure solutions and IT managed services projects are majorly billed on milestone basis whereby we are required to furnish performance bank guarantees to the clients. The PBGs furnished ranges from three to 10 percent of the project value, depending up on contractual terms, and are released by the clients only upon completion of the operation & maintenance support.

These PBGs are required to be furnished at the beginning of the project and could remain valid up to a period beyond the date of completion of all contractual obligations, including warranty obligations depending upon the terms of the projects. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts. As of December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 we had issued PBGs (including letter of credit) amounting to ₹ 2,089.08 lakhs, ₹ 2,553.34 lakhs, ₹ 1,304.13 lakhs and ₹ 1,060.87 lakhs, respectively, towards securing our financial/performance obligations under our Ongoing Projects. The said PBGs amounted to 3.73%, 5.08%, 10.42% and 10.10% of our revenue from operations for the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021.

CLIENT BASE

As an IT Infrastructure solutions and IT managed services company, we are sector agnostic and have serviced a wide variety of projects for both Government/PSUs and private sector clients.

Government/PSUs

Our work for Government/PSU clients is focused on the usage of IT Infrastructure solutions to digitize Governmental functions. We have provided our services to various Government departments and PSUs. Services provided for Government projects not only includes hardware and software supply but a wide variety of IT managed services like area networking, facility management services, third-party software deployment, large-scale systems integration, wide area network surveillance, setting up of video conferencing solutions, etc.

Under our Ongoing Projects we are providing services to various departments of different state Governments and operating under different Government schemes. During the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, we have provided our services to over 30 different state Government departments and PSUs and operated under various Government schemes. Our experience with the Government and PSU clients, allows us to acquire in-depth knowledge of their respective areas of operation which, provides us the opportunity to better understand their IT infrastructure needs and provide customised IT Infrastructure solutions.

PROJECT CYCLE

We obtain most of our Government/PSUs projects by a competitive bidding process through which we have undertaken multilocational projects providing end-to-end IT Infrastructure solutions and IT managed services. Further, private clients are obtained through our sales and marketing team. Below is a pictorial representation of a typical project cycle for a project obtained through competitive bidding process:

PROJECT CYCLE FLOWCHART

We undertake the following procedure during the pre and post bidding process:

Pre-Bidding Stage

1. **Detail project report / Budget:** Client prepares detailed project report and budget based on the requirement of the project and submits it to authorities for approval.
2. **Nodal agency:** Client appoints a nodal agency for fulfilment of the project requirements.
3. **Tender note / Tender publish:** Client / nodal agency will publish tender on their respective websites.
4. **Identification of potential projects by Company:** We have placed a dedicated team, which is responsible for reviewing websites of all authorities like Government of India e-marketplace and other e-procurement websites, compiling all tenders floated and carrying out a preliminary internal assessment, checking viability based on our profile, area of business interest and depending on factors like geographic location, complexity, workload, profitability estimates, competitive advantages, and eligibility.
5. **Pre-Bid:** Client /nodal agency invites bidders for a pre-bid meeting for discussion on details of scope of work and queries/clarification, if any.
6. **Corrigendum:** Based on the queries received during pre-bid, client may publish corrigendum to tender.
7. **Pre-qualification and bid submission by Company:** Our dedicated team evaluates our Company's eligibility criteria. In case certain criteria cannot be met individually by us, we may consider applying together with other qualified contractors. The bid submission process involves dwelling deep into various aspects, such as financial parameters, employee capacity, equipment availability, project portfolio, legal requirements etc. Upon consideration of all these factors, we prepare and submit a bid in response to the tender.

Post-Bidding Stage

1. **Bid evaluation:** Client reviews and evaluates all bids received. First the bidders are qualified on the basis of eligibility, if they qualify the eligibility criterion, thereupon the financial bids are opened and evaluated.
2. **L1:** Financial bids are opened in the presence of prospective bidders to maintain transparency and the lowest bidder (L1) is announced.
3. **Award of contract:** Once the evaluation and negotiation process concludes, the client awards the contract to the successful bidder who meets their requirements and expectations. This is typically communicated formally through an award letter or a letter of intent which allows specific time period for submission of PBGs.
4. **PBGs submission:** After award of contract, PBG needs to be submitted as per tender terms and conditions within specified time period.
5. **Procurement:** Upon submission of PBG, our procurement team starts work for procurement of the requisite material as per terms & conditions of tender.
6. **Project inspection and planning:** Our project team further assess the site requirements of a given project. Upon such assessment, our project team figures out the delivery route, site office space and other logistics.
7. **Project kick-off meeting:** Usually, a kick-off meeting is organised by the client, inviting key project stakeholders to ensure alignment on project goals, timelines, procedures, and expectations.
8. **Project execution:** The actual work begins as per the agreed-upon project plan, adhering to quality standards, safety regulations, and the project timeline.
9. **Monitoring and reporting:** We regularly monitor the project's progress, track milestones, manage risks, and provide periodic progress reports to the client.
10. **Completion and handover:** Upon completion of the work and successful project milestones, the project is prepared for handover to the client. This involves inspections, snagging, and addressing any outstanding issues before formal handover.
11. **Final documentation and closing:** This stage includes providing all necessary documentation along with invoices and obtaining client sign-off, and completion of financial settlements and final payments.

12. Operation & maintenance & completion: Project then enters into operation & maintenance phase as per the terms and conditions of bid, to provide after sales warranty support till completion of the warranty period.

Project Management

Typically, we deploy a dedicated project implementation team depending upon the size of the project and requirements of our client. The said project implementation team is headed by a skilled project manager. The project implementation team overlooks the implementation of the project and is supported by other teams and departments that are involved in the planning and execution of the project like on-site project management team, and other internal departments of the Company like finance and administration department, logistic and procurement department, business development department and human resources.

Our in-house commercial department takes care of procurement and logistics, during which they might employ external services providers, on case-to-case basis. Our project management team takes care of deployment and documentation. Further, we mobilise the equipment at the project sites based on requirements in the service contracts. Our project management team, in coordination with the project implementation team, ensures timely delivery of materials at sites to avoid delays in achieving project timelines.

We source various hardware products such as servers, laptops, desktops, printers, webcams, interactive panels, point of sale machines, storage hardware, and third-party software products such as operating system software, database software, antivirus software and other allied hardware and software products from our Technology Partners.

Our business is, therefore, heavily dependent on our relationships with Technology Partners. During the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, 96.41%, 72.82%, 51.04% and 46.56% of our purchases from Technology Partners are cumulatively from our top three Technology Partners for the nine months ended December 31, 2023, respectively. Our top three Technology Partners for the nine months ended December 31, 2023, were Acer India Private Limited, Kaatsys Tech and Supertron Electronics Private Limited.

We do not enter into any long-term contracts with our Technology Partners for supply of these products. We place purchase orders with Technology Partners from time to time basis our requirements and prices for products are normally based on the quotes we receive from these Technology Partners.

Facilities and Infrastructure

We utilise the software, Tally Prime for management of finances, and for supply chain of our products and services. We also use CRM tools and automated software for client management, and generation of new opportunities and clients. We also utilise a human resource management software designed to streamline various human resources tasks and processes such as employee data management, compliance and reporting etc.

Sales and Marketing

Our sales and marketing team is the driving force behind our client engagement. Our sales network is structured into specialized verticals, to meet the unique demands of different sectors such as Government/PSUs, BFSIs, private sector, capacity building etc. Our team is focused on engagement with our clients for sustainable relationships, supported by timely and efficient project execution. Our team is responsible for tracking the new development in the business segment we operate in to stay abreast of emerging trends and capitalize on new business opportunities.

Awards and Recognition

For further details on the awards and recognition received by our Company, see “*History and Certain Corporate Matters – Key awards, accreditations, certifications and recognitions received by our Company*” on page 152.

Intellectual Property

As on the date of this Draft Red Herring Prospectus, our Company has registered two trademarks of the logo of our Company,

, in India for which we have obtained valid registration certificates under class 9 and 37 from the Trade Marks Registry, Government of India under the Trade Marks Act.

Our Company has also filed for six applications for trademark of the logo of our Company, under classes 11, 35, 36, 38, 41 and 42, respectively, which are currently pending and have been objected on various grounds. Our Company has filed replies to the examination reports received in connection with these applications. For further details, please see “*Government and Other Approvals – Our Intellectual Property*” on page 265.

For risks associated with intellectual property, please see, “*Risk Factors- 14. Inability to obtain or protect our intellectual property rights may adversely affect our business.*” on page 30.

Health and Safety

Our Company’s information security management system is compliant with the requirements of ISO/IEC 27001:2022, our IT service management system is compliant with the requirements of ISO/IEC 20000-1:2018 and our environmental management system has been accredited with ISO 14001:2015 certification respectively.

We are committed to complying with applicable health, safety and environmental regulations and other requirements in our operations. To help ensure effective implementation of our safety policies and practices, at the beginning of each project we identify potential material hazards, evaluate all material risks and institute, implement and monitor appropriate risk mitigation measures. We endeavour to achieve no accidents at our project sites by undertaking necessary preventive measures.

Insurance

We have obtained insurance policies that we believe are customary in our industry and provide commercially appropriate insurance coverage for a variety of risks. Our Company has maintained various insurance policies, including goods storage and property insurance policy, burglary and house breaking policy, standard fire and special perils policy, general liability insurance, product liability insurance policy, group mediclaim policy, group personal accident insurance, group term policy, employees compensation policy. The Company also maintains insurance policies for storage and transportation of goods for our projects from time to time.

As of the nine months ended December 31, 2023 and March 31, 2023, 2022, 2021, respectively, our insurance coverage was for ₹ 8,699.99 lakhs, ₹ 1,106.46 lakhs, ₹ 316.20 lakhs and ₹ 327.59 lakhs, respectively, which was 72.14%, 60.94%, 9.14% and 7.63% of our net tangible assets for the respective periods. However, our insurance coverage may not adequately protect us against all material hazards as the policies may not be sufficient to cover all our economic losses. For further details, please see “*Risk Factors – 43. Our insurance policies may not be adequate to cover all losses incurred in our business. An inability to maintain adequate insurance cover to protect us from material adverse incidents in connection with our business may adversely affect our operations and profitability.*” on page 41.

Human resources

Our business is manpower intensive and the success of our business depends on maintaining skilled employees with technical knowledge, who are able to liaise with the Technology Partners, as well as our clients. As of December 31, 2023, we have 1,686 employees on our payroll, out of the same 1,640 are skilled and semi-skilled technical manpower for IT Infrastructure solutions and IT managed services.

Further, as on December 31, 2023, we had engaged 820 employees on contractual basis through third party service providers, based upon the requirements of the projects. For further details, please see “*Risk Factors – 18. We engage contractual workers for carrying out certain functions in relation to few of our Ongoing Projects. In the event of non-availability of such contractual workers at reasonable cost, any adverse regulatory orders or any default on payments to them by the independent contractors could lead to disruption of our business operations.*” on page 32.

The breakdown of our employees on our payroll as of December 31, 2023, by function is set out in the table below:

Department	Number of employees
Executive team	3
Sale and marketing department	16
Finance and account department	10
Human resource and admin department	17
Project implementation team	1,623
Project management team	17
Total	1,686

In addition to our full-time employees, we engage personnel on a temporary and contractual basis in connection with our projects depending upon the project sites. For further details on risks, please see “*Risk Factors – 13. We have delayed in payments of employee state insurance contributions, provident fund and other statutory dues in the past. We may be subject to regulatory actions and penalties for any such past or future delays which in turn could have an adverse impact on our business, financial condition, results of operations and cash flows.*” on page 30.

Competition

We operate in a competitive industry with a plethora of large, mid-sized and small operators. We face competition from Indian multinational companies, domestic Indian companies, and transnational corporations. Some of our competitors, particularly the Indian multinational companies and the transnational corporations, are significantly larger than us and the size of their operations gives them the benefits of economies of scale. Some of these companies may be entrenched in their specific geographies. Some of our key competitors in each of our business verticals include Dynacons Systems & Solutions Limited, Telecommunications Consultants India Limited, Larsen & Toubro Limited (L&T), Extramarks Education India Private Limited, Hitachi Systems Micro Clinic Private Limited, Value Point Systems Private Limited, Aabasoft technologies India Private Limited.

Corporate Social Responsibility

We adopted our CSR Policy on October 13, 2022, in compliance with requirements of the Companies Act, 2013 and the Companies (Corporate Social Responsibility) Rules, 2014, as amended, since we booked a profit of more than ₹ 500 lakhs in Fiscal 2022. Our CSR Committee was constituted on October 13, 2022. In line with the CSR Policy adopted by us, our CSR activities are focused on areas of promoting education and skill development. In the nine months period ended December 31, 2023, and Fiscal 2023, we incurred CSR expenses amounting to ₹ 10.48 lakhs and ₹ 9.20 lakhs, respectively. For Fiscal 2022 and 2023, while we made profits and accordingly allocated a portion of such profits towards CSR activities formulated under our CSR policy, we did not incur the requisite portion of the expenditure towards such activities. Therefore, such unspent amounts have been transferred to the CSR unspent account on April 29, 2023, to be spent for ongoing projects. The amount transferred to the CSR unspent account shall be spent by our company on CSR activities within a period of three Fiscals from the date of such transfer. For risk related to CSR, please see “*Risk Factors. 15- We have not spent certain allocated portions of our profits towards CSR, as required under the Companies Act, 2013. The unspent amounts have been transferred to the CSR unspent account and are required to be used for CSR purposes within three Fiscals from the date of transfer. Failure to do so may subject us to penalties, and have an adverse effect on our reputation, financial condition, cash flows and results of operations.*” on page 31.

**The office space is leased from our Promoter and Director, Ami Ridhish Patel. For further details, please see “*Our Promoters and Promoter Group- Interest in property, land, construction of building and supply of machinery*” on page 38.

In addition, we lease out warehouses from third party service providers depending upon the location of the project sites serviced by us. The agreements with warehouse providers are entered on a need basis depending upon the locations of the projects being serviced by us at any time. We store our project-based inventories in these serviced warehouses, and transport products from these serviced warehouses to our clients, based on project requirements. As on date, we have taken four warehouses on leasehold basis from these third party service providers. For risks related to such third-party warehousing services, please see “*Risk Factors- 9. We enter into warehousing agreements with third party service providers from time to time, for our warehousing needs. The failure to enter into warehousing agreements in a timely manner could adversely affect our business and our ability to deliver orders on time, which in turn may have impact of our business, results of operations and financial condition.*” on page 29.

KEY REGULATIONS AND POLICIES

The following is an overview of the relevant sector specific laws and regulations which are applicable to our business and operations in India. The information detailed below has been obtained from publications available in the public domain. The description of laws and regulations set out below are not exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of Indian law, and remain subject to judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative, or judicial decisions. For details of government approvals obtained by our Company and its Subsidiary, please see “Government and Other Approvals” on page 264.

A. Laws in relation to our business

Information Technology Act, 2000 and Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011 (the “IT Act”)

The IT Act governs and provides legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as electronic commerce. It also gives legal recognition to digital signatures and facilitates storage of data. The IT Act is applicable to any offence or contravention committed outside India as well. If the conduct of person constituting the offence involves a computer or a computerized system or network located in India, then irrespective of his/her nationality, the person is punishable under the IT Act.

Digital Personal Data Protection Act, 2023 (the “Data Protection Act”)

The Data Protection Act was introduced in Lok Sabha on August 3, 2023, and received presidential assent on August 11, 2022, and came into force on such date. The Data Protection Act regulates the processing of digital personal data within the territory of India where such personal data is collected (a) in digital form; or (b) in non-digital form and digitized subsequently. Further, it regulates the processing of digital personal data outside the territory of India, where such processing is in connection with any activity related to offering goods or services to data principals in India. However, personal data processed by an individual for any personal or domestic purpose and the publicly available personal data is excluded from the scope of the law.

Data Protection refers to the set of privacy laws, policies and procedures that aim to minimise intrusion into one's privacy caused by the collection, storage and dissemination of personal data. Personal data generally refers to the information or data which relate to a person who can be identified from that information or data.

National Digital Communications Policy, 2018

With significant capabilities in both telecommunications and software, India, more than most countries, stands poised to benefit from harnessing new digital technologies and platforms to unlock productivity, as well as to reach unserved and underserved markets; thus, catalyzing economic growth and development, generating new-age jobs and livelihoods, and ensuring access to next generation services for its citizens. This policy aims for universal coverage rather than revenue maximization. This policy and principles framework will enable creation of a vibrant competitive telecom market to strengthen India's long-term competitiveness and serve the needs of our aspiring nation. The Policy aims to remove regulatory barriers and reduce the regulatory burden that hampers investments, innovation and consumer interest and identifies steps to strengthen the sector's institutional mechanism and legislative framework, to ensure that India's economy and citizens can derive the full potential of its digital communications sector.

E-Waste (Management) Rules, 2022

These rules are applicable to every manufacturer, producer, consumer, bulk consumer, collection centres, dealers, e-retailers, refurbished, dismantler and recycler involved in manufacture, sale, transfer, purchase, collection, storage and processing of e-waste or electrical and electronic equipment listed in schedule I of the rules, including their components, consumables, parts and spares which make the products operational but does not apply to used lead acid batteries as covered under the Batteries (Management and Handling) Rules, 2001; micro enterprises as defined under the MSMED Act, 2006 and radioactive wastes as covered under the provisions of the Atomic Energy Act, 1962. According to these rules, entities covered under the rules are required to get themselves registered with the concerned state Pollution Control Board and to ensure that no damage is caused to the environment during the storage and transportation of e-waste.

B. Laws in relation to Intellectual Property

Trade Marks Act, 1999 (the “Trademark Act”)

The Indian law on trademark is enshrined in the Trade Marks Act of 1999. Under the existing Trademark Act, a trademark is a mark used in relation to goods and/or services so as to indicate a connection between the goods or services being provided and the proprietor or user of the mark. A ‘Mark’ may consist of a word or invented word, signature, device, letter, numeral, brand, heading, label, name written in a particular style, the shape of goods other than those for which a mark is

proposed to be used, or any combination thereof or a combination of colours and so forth. The trademark once it is applied for is advertised in the trademarks journal, oppositions, if any, are invited and after satisfactory adjudication of the same, is given a certificate of registration. The right to use a mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is ten years, which may be renewed for similar periods on payment of prescribed renewal fees.

C. Labour Laws

The employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws. The following is an indicative list of labour laws which may be applicable to us due to the nature of our business activities:

*****The Government of India enacted 'The Code on Social Security, 2020 ("Code on Social Security") which received the assent of the President of India on September 28, 2020. The provisions of this code are proposed to be brought into force on a date to be notified by the Central Government. It proposes to subsume several separate legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganised Workers' Social Security Act, 2008. The Ministry of Labour and Employment, Government of India has notified the draft rules relating to Employee's Compensation under the Code on Social Security, 2020 on June 3, 2021, inviting objections and suggestions, if any, from the stakeholders. Further, draft rules under the Code on Social Security ("Draft Rules") were notified on November 13, 2020. The Draft Rules propose to subsume the Employees' State Insurance (Central) Rules, 1950, Employees' Provident Funds Appellate Tribunal (Conditions of Service) Rules, 1997 and the Payment of Gratuity (Central) Rules, 1972.*

The Contract Labour (Regulation and Abolition) Act, 1970, as amended (the "CLRA Act")

In respect of our projects, we may use the services of certain licensed contractors who in turn employ contract labour whose number exceeds 20 (twenty), subject to state amendments, in respect of certain facilities. Accordingly, we are regulated by the provisions of the CLRA Act, and the rules framed thereunder which requires us to be registered as a principal employer and prescribes certain obligations with respect to welfare and health of contract labour. The CLRA Act imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the

principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

Shops and establishments legislations

Under the provisions of local shops and establishments legislations applicable in the states in which establishments are set up, establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of opening and closing hours, daily and weekly working hours, rest intervals, overtime, holidays, leave, health and safety measures, termination of service, wages for overtime work, maintenance of shops and establishments and other rights and obligations of the employers and employees. There are penalties prescribed in the form of monetary fine or imprisonment for violation of the legislations. In the case of our Company, the following acts are applicable under this head:

- (i) The Gujarat Shops and Establishments (Regulation of Employment and Conditions of Service) Act, 2019;

D. Taxation Laws

The Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central Government and State Governments. GST provides for imposition of tax on the supply of goods or services and will be levied by the Central Government and by the state government including union territories on intra-state supply of goods or services. Further, Central Government levies GST on the inter-state supply of goods or services. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), relevant state's Goods and Services Act, 2017 (SGST), Union Territory Goods and Services Act, 2017 (UTGST), Integrated Goods and Services Act, 2017 (IGST), Goods and Services (Compensation to States) Act, 2017 and various rules made thereunder.

Further, the Income-tax Act, 1961 (Income Tax Act) is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or rules made there under depending upon its 'Residential Status' and 'Type of Income' involved. The Income Tax Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the Income Tax Act is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax, etc. In 2019, the Government has also passed an amendment act pursuant to which concessional rates of tax are offered to a few domestic companies and new manufacturing companies.

The Customs Act, 1962 as amended, regulates import of goods into and export of goods from India by providing for levy and collection of customs duties on goods in accordance with the Customs Tariff Act, 1975. Any Company importing or exporting goods is first required to get registered under the Customs Act and obtain an Importer Exporter Code under FTDR. Customs duties are administrated by Central Board of Indirect Tax and Customs under the Ministry of Finance, Government of India

E. Regulations Related to Foreign Trade

The foreign policy of India is governed and regulated by the Foreign Trade (Development and Regulation) Act, 1992 (the "**Foreign Trade Act**"). The Foreign Trade Act has empowered the Central Government to make provisions for the development as well as regulation of foreign trade by the way of facilitating imports into as well as augmenting exports from the country and in all the other matters related to foreign trade. It authorises the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given a wide power to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The Foreign Trade Act provides for certain appointments especially that of the Director-General to advise the Central Government in formulating import and export policy and to implement the same. Further, the act commands every importer as well as exporter to obtain a code number called the Importer Exporter Code Number (IEC) from the Director-General or the authorised officer. The act provides the balancing of all the budgetary targets in terms of imports and exports. The principal objectives here include the facilitation of sustain growth as to the exports of the country, the distribution of quality goods and services to the domestic consumer at internationally competitive prices, stimulation of sustained economic growth by providing access to essential raw materials as well as enhancement of technological strength, industry as well as services and improvement of their competitiveness to meet all kinds of requirement of the global markets.

F. Other Applicable Laws

Consumer Protection Act, 2019 and the rules made thereunder (the "Consumer Protection Act")

The Consumer Protection Act, which repeals the Consumer Protection Act, 1986, was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, inter alia to promote and protect the interests of consumers against deficiencies and defects in goods or services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of “consumer” has been expanded under the Consumer Protection Act to include persons engaged in offline or online transactions through electronic means or by tele-shopping or direct-selling or multi-level marketing. One of the substantial changes introduced by Consumer Protection Act is inclusion of the e-commerce industry under Consumer Protection Act with “e-commerce” defined to refer to the buying and selling of goods or services over digital or electronic network.

Therefore, the Consumer Protection Act aims to cover entities that are involved in the process of selling goods or services online. It provides for the establishment of consumer disputes redressal forums and commissions for the purposes of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums, and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ten lakhs.

The Micro, Small and Medium Enterprises Development Act, 2006 (“MSMED Act”)

The MSMED Act, was enacted to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (“MSME”). A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and Regulation) Act, 1951. The Government, in the Ministry of Micro, Small and Medium Enterprises has issued a notification dated June 1, 2020 revising definition and criterion and the same came into effect from July 1, 2020. The notification revised the definitions as “Micro enterprise”, where the investment in plant and machinery or equipment does not exceed one crore rupees and turnover does not exceed five crore rupees; “Small enterprise”, where the investment in plant and machinery or equipment does not exceed ten crore rupees and turnover does not exceed fifty crore rupees; “Medium enterprise”, where the investment in plant and machinery or equipment does not exceed five crore and turnover does not exceed two hundred and fifty crore rupees.

The Consolidated financials statements relate to ArMee Infotech Limited ("the Parent Company") along with its subsidiary ArMee Technology Private Limited (collectively referred as "the Group")

The Board of directors approved the Restated consolidated financial statements for the nine month ended December 31, 2023 & Restated standalone financial statement for the Year ended March 31, 2023, March 31, 2022 and March 31, 2021 and authorised for issue on May 07, 2024.

b Basis of Preparation of Consolidated Financial Statements

i) Statement of Compliance

These Restated Financial Statements have been prepared in accordance with the recognition and measurement principles of Indian Accounting Standard 34, 'Interim financial reporting' and other accounting principles generally accepted in India for the purpose of restated financial information as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended from time to time ("ICDR Regulations") in relation to the proposed initial public offering of the Company. These restated Financial Information shall therefore not be suitable for any purpose other than as disclosed in this note.

ii) Basis of Preparation

The Restated Financial Information of ArMee Infotech Limited (the "Company" or the "Issuer") and its subsidiary (collectively, the "Group"), comprising the Restated Consolidated Statement of Assets and Liabilities as at December 31, 2023 and Restated Standalone Statement of Assets and Liabilities as at March 31, 2023, March 31, 2022 and March 31, 2021, the Restated Consolidated Statements of Profit and Loss (including other comprehensive income), the Restated Consolidated Statement of Changes in Equity and the Restated Consolidated Cash Flow Statement for the nine month ended December 31, 2023 and the Restated Standalone Statement of Profit and Loss (including other comprehensive income), the Restated Standalone Statement of Changes in Equity and the Restated Standalone Cash Flow Statement for the year ended March 31, 2023, March 31, 2022, March 31, 2021 and the Summary Statement of Material Accounting Policies and other explanatory information (collectively, the "Restated Financial Information"), as approved by the Board of Directors of the Company at their meeting held on May 07, 2024 for the purpose of inclusion in the Offer document prepared by the Company in connection with its proposed Initial Public Offer of equity shares ("IPO") prepared in terms of the requirements of:

a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "Act");

b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and

c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").

iii) Compliance with Ind-AS

(a) The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time. Presentation requirements of Division II of Schedule III to the Companies Act, 2013, "as amended", as applicable to the Consolidated Financial Statements have been followed. These consolidated financial statements are separate financial statements of the Group. The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements. The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which are measured at fair value as explained in the accounting policies below.

(b) Certain comparative figures appearing in these consolidated financial statements have been regrouped and/ or reclassified to better reflect the nature of those items.

(c) The consolidated financial statements are presented in INR and all values are rounded to the nearest lakh (INR 00,000) as per the requirement of Schedule III, unless otherwise stated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the parent company along with its subsidiary as at December 31, 2023. The control is achieved when the group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its powers over the investee. Specifically, the group controls an investee if and only if the group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights"

Suitable restatement adjustments (both re-measurements and reclassifications) as per Ind AS 101, are made to these Financial Statements for the year ended 31 March 2021.

2 Material accounting policies

a Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or noncurrent classification of assets and liabilities.

b Property, plant and equipment

The Company has elected to regard previous GAAP carrying values of Property, plant and equipment as deemed cost at the date of transition to Ind AS.

An item of property, plant and equipment is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably.

The initial cost of property, plant and equipment comprises its purchase price, non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Where, during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded, demolished or destroyed, or significant components replaced; depreciation on such assets is calculated on a pro rata basis as individual assets with specific useful life from the month of such addition or, as the case may be, up to the month on which such asset has been sold, discarded, demolished or destroyed or replaced.

The Company reviews the residual value and useful life of an asset at least at each financial year-end and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Depreciation on property, plant and equipment is provided on the straight-line method prescribed under Schedule II of the Act, computed on the basis of useful lives prescribed under Schedule II of the Act. For the following assets useful life is taken bases on technical evaluation of the property, plant and equipment by the management which are mentioned below:

Tangible assets	Useful life (years)
EPOS Devices	5

c Intangible assets

Recognition and initial measurement

The Company has elected to regard previous GAAP carrying values of Intangible assets as deemed cost at the date of transition to Ind AS.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Subsequent measurement (amortisation and useful lives)

All intangible assets are accounted for using the cost model whereby capitalised costs are amortised on a straight-line basis over their estimated useful lives.

De-recognition

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

d Borrowing costs

Borrowing costs directly/generally attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest calculated using the effective interest method that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

e Inventories

Inventories are stated at lower of cost or net realisable value.

Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

f Foreign Currency Translation

Functional and Presentation Currency

The financial statements are presented in Indian Rupees and are rounded to two decimal places of Lakhs which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items as at reporting date are recognised in statement of profit and loss.

g Revenue recognition from sale of products and services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for certain specific services mentioned below, as it typically controls the goods or services before transferring them to the customer.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

The performance obligation in case of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

The performance obligation in case of service is satisfied over a period of time. Income in respect of service contracts, which are generally in the nature of providing maintenance and support services, are recognised in statement of profit and loss on straight line basis over the period of the performance obligation.

The Company provides preventive maintenance services and on-site maintenance on its certain products at the time of sale. These maintenance services are sold together with the sale of product. Contracts for such sales of product and preventive maintenance services comprise two performance obligations because the promises to transfer the product and to provide the preventive maintenance services are capable of being distinct. Accordingly, a portion of the transaction price is allocated to the preventive maintenance services and recognised as a contract liability. Revenue is recognised over the period in which the preventive maintenance services are provided based on the time elapsed.

h Other Income

Interest income

Interest income on financial assets is calculated using the effective interest method is recognised in the statement of profit and loss as part of other income.

Dividend Income

Dividend income from investment is accounted for when the right to receive is established, which is generally when shareholders approve the dividend.

i Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial Recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Trade Receivables are initially recognised at transaction price where that do not contain any significant portion of financing component. Transaction costs that are directly attributable to the acquisition or release of financial assets and financial liabilities respectively, which are not at fair value through profit or loss, are added to the fair value of underlying financial assets and liabilities on initial recognition. Trade receivables and trade payables that do not contain a significant financing component are initially measured at their transaction price.

Financial assets

Subsequent Measurement

Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost which is held with objective to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent Measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

j Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics.

k Right-of-use assets and lease liabilities

As a lessee

Classification of lease:

The Company's leased asset consist of leases for building only. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

Recognition and initial measurement of right-of use assets:

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Subsequent measurement of right-of-use asset:

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Lease liabilities:

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

l Cash and bank balances

Cash and bank balances consist of:

- Cash and cash equivalents - which includes cash in hand, deposits held at call with banks and other short term deposits which are readily convertible into known amounts of cash, are subject to an insignificant risk of change in value and have maturities of less than three months from the date of such deposits. These balances with banks are unrestricted for withdrawal and usage.
- Other bank balances - which includes balances and deposits with banks that are restricted for withdrawal and usage.

m Cash Flow Statement

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- (i) changes during the period in inventories and operating receivables and payables, transactions of a non-cash nature;
- (ii) non-cash items such as depreciation, provisions, and unrealised foreign currency gains and losses etc.; and
- (iii) all other items for which the cash effects are investing or financing cash flows

n Employee Benefits

(i) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages, short term compensated absences etc., and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.

(ii) Post-Employment Benefits:

1. Defined Contribution Plans:

State governed Provident Fund Scheme and Employees State Insurance Scheme are defined contribution plans.

The contribution paid / payable under the schemes is recognised during the period in which the employees render the related services.

2. Defined Benefit Plans:

The Employee's Gratuity Fund Scheme and compensated absences is Company's defined benefit plans. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefits entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government Securities as at the Balance Sheet date, having maturity periods approximating to the terms of related obligations.

For defined benefit plans, the amount recognised as 'Employee benefit expenses' in the Statement of Profit and Loss is the cost of accruing employee benefits promised to employees over the year and the costs of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in rate to the net defined benefit liability or asset is charged or credited to 'Finance costs' in the Statement of Profit and Loss. Any differences between the interest income on plan assets and the return actually achieved and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.

All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligations under the defined benefit plans, to recognise the obligation on net basis.

Gains or losses on the curtailment or settlement of any defined benefits plans are recognised when the curtailment or settlement occurs. Past service cost is recognised as expense on a straight-line basis over the average period until the benefits become vested.

(iii) Long Term Employee Benefits:

The employees' long term compensated absences are Company's defined benefit plans. The present value of the obligation is determined based on the actuarial valuation using the projected unit credit method as at the date of the balance sheet. In case of funded plans, the full value of plan assets is reduced from the gross obligation to recognise the obligation on the net basis.

o Provisions and Contingencies

Provisions

Provisions are recognised in the balance sheet when the Company has a present obligation (legal or constructive) as a result of a past event, which is expected to result in an outflow of resources embodying economic benefits which can be reliably estimated. Each provision is based on the best estimate of the expenditure required to settle the present obligation at the balance sheet date. Where the time value of money is material, provisions are measured on a discounted basis.

Constructive obligation is an obligation that derives from an entity's actions where:

- (i) by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and;
- (ii) as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Contingencies

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

p Contract Balances

(i) Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets are recognised when there are excess of revenues earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The amount recognised as contract assets is reclassified to trade receivables once the amounts are billed to the customer as per the terms of the contract. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section j Impairment.

(ii) Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section i Financial instruments – initial recognition and subsequent measurement.

(iii) Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Unearned and deferred revenue ("contract liability") is recognised when there are billings in excess of revenues.

g Income taxes

Tax expense for the year comprises current and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

r Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Group did not have any potential dilutive securities in any period presented.

■ Key Accounting Estimates and Judgments

The preparation of the Company's Financial Statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical Accounting Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

(i) Income Taxes

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

(ii) Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

(iii) Defined Benefit Obligation

The costs of providing pensions and other post employment benefits are charged to the Statement of Profit and Loss in accordance with IND AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

t Business Combination

Business combinations are accounted for, using the Pooling of Interest Method of accounting as laid down in Appendix C, 'Business Combinations of entities under common control' of Indian Accounting Standard (Ind AS) 103 'Business Combinations' as prescribed under Section 133 of the Companies Act, 2013.

Category-wise Classification of Financial Instruments:

The financial instruments are categorised in to three levels, based on the inputs used to arrive at fair value measurement as described below :

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Inputs based on unobservable market data.

Valuation Methodology

Financial Instrument measured at Amortised Cost

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other financial assets, trade payables, lease liabilities and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

For assets which are measured at fair value as at Balance Sheet date, the classification of fair value calculations by category is summarized below:

ARMEE INFOTECH LIMITED

36. Financial risk management

The Company's business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risks. The company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company has constituted a risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

A. Management of Market Risk

The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- Foreign Currency risk
- Equity risk
- Interest rate risk

The above risks may affect the Company's income and expenses, or the value of its financial instruments. The Company's exposure to and management of these risks are explained below:

i) Foreign Currency Risk

The Group is exposed to foreign exchange risk in the normal course of its business. Multiple currency exposures arise from commercial transactions like sales, purchases, borrowings, recognized financial assets and liabilities (monetary items). Being the import and export act as natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies. Company monitor the risk assessment of Foreign currency on regular basis and report the Audit committee.

ARREE INFOTECH LIMITED

ii) Commodity Price Risk

Commodity Price Risk is the risk that future cash flow of the Company will fluctuate on account of changes in market price of key raw materials. The Company is exposed to the movement in price of key raw materials in domestic and international markets. The Company has in place policies to manage exposure to fluctuations in the prices of the key raw materials used in operations. The Company enters into contracts for procurement of materials, most of the transactions are short term fixed price contract and a few transactions are long term fixed price contracts.

iii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming that the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

B) Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. Credit risk arising from investment in mutual funds, derivative financial instruments and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the international credit rating agencies.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

Three customers accounted for 90.82% of the revenue for the nine month period ending December 31, 2023. Three customer accounted for 67.56% of the revenue for the year ended March 31, 2023. Three customer accounted for 51.19% of the revenue for the year ended March 31, 2022. Three customer accounted for more than 58.57% of the revenue for the year ended March 31, 2021.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively.

Movement in allowance for credit losses of receivables is as below:

F. Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans and post retirement medical benefits at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

Particulars	As at December 31, 2023	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Financial Assumptions				
(a) Expected Return on Plan Assets	7.49%	7.49%	7.33%	6.95%
(b) Rate of Discounting	7.49%	7.49%	7.33%	6.95%
(c) Rate of Salary Increase	7.00%	7.00%	7.00%	7.00%
(d) Rate of Employee Turnover	2.00%	2.00%	2.00%	2.00%
Demographic Assumptions	Published rates under the Indian Assured Lives Mortality (2012-14) Urban table.			

G. Sensitivity

The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are:

(₹ in lakhs)

Particulars	As at December 31, 2023	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
(a) Discount Rate				
- Increase by 100 bps	(4.14)	(3.65)	(3.75)	(3.57)
- Decrease by 100 bps	4.82	4.24	4.40	4.21
(b) Salary Escalation Rate				
- Increase by 100 bps	3.99	3.44	3.60	3.40
- Decrease by 100 bps	(3.48)	(3.01)	(3.31)	(3.58)
(c) Attrition Rate				
- Increase by 100 bps	0.31	0.24	0.12	(0.10)
- Decrease by 100 bps	(0.35)	(0.27)	(0.14)	0.10

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the Defined Benefit Obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the Defined Benefit Obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

H. The defined benefit obligations shall mature after year end as follows:

(₹ in lakhs)

Particulars	As at December 31, 2023	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
1st Following Year	2.58	2.48	2.29	2.03
2nd Following Year	1.00	0.86	0.80	0.66
3rd Following Year	1.07	0.94	0.85	0.73
4th Following Year	1.14	1.00	0.92	0.78
5th Following Year	1.24	1.06	0.98	0.84

Year 11 and thereafter	87.08	75.09	81.22	73.26

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and entity is exposed to the Following Risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

Notes to the Restated Financial Information

42. First time adoption of Ind AS

Upto the Financial year ended 31st March 2023, the Company prepared its financial statements in accordance with accounting standards notified under the Section 133 of the Act, read together with paragraph 7 of the companies (accounts) Rule, 2014 ("Indian GAAP" or "Previous GAAP").

The financial statement for the period ended 31st December 2023 is the first set of Financial Statements prepared in accordance with the requirements of Ind AS 101 - First time adoption of Indian Accounting Standards. Accordingly, the transition date to Ind AS is 01 April 2021.

The Special purpose Ind AS Financial Statements as at and for the year ended 31st March 2023, 31st March 2022 and 31st March 2021 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (01 April 2021) and as per the presentation, accounting policies and grouping/classifications including revised Schedule III disclosures followed as at and for the Nine months period ended 31st December 2023.

In addition to the adjustments carried herein, the Company has also made material restatement adjustments, if any, in accordance with SEBI Circular and Guidance Note. Together these constitute the restated financial statements.

The impact of above to the equity as at 31st March 2023, 31st March 2022 and 31st March 2021 and on total comprehensive income for the years ended 31st March 2023, 31st March 2022, 31st March 2021 has been explained as under.

A. Optional exemptions on first-time adoption of Ind AS

Ind AS 101, First-time Adoption of Indian Accounting Standards, allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions.

i. Deemed cost for property, plant and equipment

Since there is no change in the functional currency, the Company has elected to continue with carrying value for all of its property, plant and equipment as recognized in its Indian GAAP financial statements as its deemed cost at the date of transition after making adjustments for decommissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38, Intangible Assets and investment properties. Accordingly the management has elected to measure all of its property, plant and equipment and intangible assets at their Indian GAAP carrying value.

ii. Leases

Accounting of lease liabilities would not arise since underlying assets are low value.

iii. Designation of previously recognised financial instruments

Financial assets and financial liabilities are classified at fair value based on facts and circumstances as at the date of transition to Ind AS.

B. Mandatory Exemption on first-time adoption of Ind AS

i. Estimates

An entity's estimates in accordance with Ind AS as at date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Indian GAAP (After adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were errors.

Ind AS estimates that, are consistent with the estimate as at the same date made in conformity with previous GAAP.

ii. Classification and measurement of financial assets :

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as at the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Group has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

C. Explanation of transition to Ind AS :

An explanation of how the transition from Indian GAAP to Ind AS has affected the Company's financial position, financial performance and cash flow is set out in the following tables and notes that accompany the tables :

The reconciliations include-

- i) Reconciliation of equity as at 31st March 2023, 31st March 2022, 31st March 2021;
- ii) Reconciliation of total comprehensive income for the year / period ended 31st March 2023, 31st March 2022, 31st March 2021 ;
- iii) The transition from Indian GAAP to IND AS does not have material impact on the Statement of Cash Flows.

43. Statement of adjustments to audited financial statements

1. Adjustment for audit qualification : None

2. Material regrouping :

Appropriate adjustments have been made in the restated financial statements, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings as per the Division II Ind AS Schedule III of the Companies Act, 2013 ('the Act') and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2018 (as amended). Accordingly, the Company has presented the Restated standalone Ind AS financial statements as at and for the years ended 31st March 2023, 31st March 2022 and 31st March 2021 following the requirements of Schedule III of the Act. As a result of amendment to Schedule III of Companies Act, 2013.

OVERVIEW

We are an IT Infrastructure solutions and IT managed services company headquartered in Ahmedabad, Gujarat. We are sector agnostic and service a wide variety of projects for both Government/public sector undertakings (PSUs) and private sector with a focus on Government/PSU projects and a predominant presence in the state of Gujarat.

Under IT Infrastructure solutions, we provide IT hardware and software (e.g., computers, servers, interactive panels and their peripherals), work on the installation and integration of the hardware and software as per the client requirements, and also provide maintenance of the IT Infrastructure installed by us for periods as may be specified under the relevant contracts. To ensure seamless transition for our clients, we also provide functional training of the IT Infrastructure installed by us. We have undertaken multiple projects under the IT Infrastructure solutions segment including setting up of ICT labs, smart classes, installing digital infrastructure for public distribution system, mobile workforce management, and digitalization of primary agriculture credit societies etc. The projects undertaken by us are for a specific contractual period. The revenue generated from operations in IT Infrastructure solutions segment was ₹ 49,998.43 lakhs or 89.25% of our total revenue from operations for the nine months period ended December 31, 2023, ₹ 40,844.98 lakhs or 81.25% of our total revenue from operations for Fiscal 2023, ₹ 7,528.69 lakhs or 60.14% of our total revenue from operations for Fiscal 2022, and ₹ 6,226.79 lakhs or 59.27% of our total revenue from operations for Fiscal 2021, reflecting a CAGR of 156.12% between Fiscal 2021 and Fiscal 2023.

Under IT managed services category, in addition to providing IT Infrastructure solutions as mentioned above, we also provide technical manpower, skill development training and offer annual maintenance services. Our employees provide on-site and off-site operational support and maintenance of the IT infrastructure, as may be specified under the relevant contracts. IT managed services are typically delivered under a service level agreement and payments are made at pre-defined intervals or as per contractual terms. The revenue generate from operations in IT managed services segment was ₹ 6,019.54 lakhs or 10.75% of our total revenue from operations for nine months period ended December 31, 2023, ₹ 9,424.53 lakhs or 18.75% of our total revenue from operations for

Fiscal 2023, ₹ 4,989.29 lakhs or 39.86% of our total revenue from operations for Fiscal 2022, and ₹ 4,278.50 lakhs or 40.73% of our total revenue from operations for Fiscal 2021, reflecting a CAGR of 48.42 % between Fiscal 2021 and Fiscal 2023.

In the projects undertaken by us, certain activities like site preparation, electrification, installation, commissioning and maintenance of IT Infrastructure are provided by third party service providers including Armeem Technology Services Private Limited, our Wholly Owned Subsidiary. For further details on our Subsidiary, please see “*Our Subsidiary*” on page 154.

As of December 31, 2023, a significant number of our projects are with the Government/PSU clients. Revenue from operations generated from our Government/PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29%, respectively, as a percentage of total revenue from operations, for the respective periods.

We classify Ongoing Projects as projects wherein we have received contract/purchase orders and there is pending obligation either for supply and/or installation and/or maintenance as per the terms and conditions of the contract/purchase orders. As on December 31, 2023, we have 13 Ongoing Projects out of which six are under IT Infrastructure solutions category and seven are under IT managed services category. Further, as on December 31, 2023, we have 153 projects wherein we have completed the execution and received the payment in full but the term of the project for warranty period is still ongoing. The warranty period for these 153 projects ranges from three to five years depending upon the terms of the contract.

We classify our projects as completed when we have received contract/purchase orders and booked and realised the amount as per the terms of the contract/purchase orders. In the nine months period ended December 31, 2023, and the last three Fiscals we have completed 149 projects under the IT Infrastructure solutions category and 11 projects under the IT managed services category.

In order to ensure delivery of trusted and reliable IT Infrastructure products to empower our clientele with reliable technologies, we have maintained good working relationships with our Technology Partners and through this we are able to provide reliable end-to-end IT Infrastructure solutions to our clients.

Our Company has a management team with extensive industry experience. Our Promoters, Kiritkumar Chimanbhai Patel and Ami Ridhish Patel have been associated with the Company since its inception and have experience of over two decades each in the IT Infrastructure industry. Further our Promoter, Ridhish Kiritbhai Patel joined the operations of our Company as an Executive Director on May 22, 2012, and has an experience of more than a decade in the IT Infrastructure industry. Our Promoters, Kiritkumar Chimanbhai Patel and Ami Ridhish Patel were carrying on the business of trading, installation and maintenance of computer systems and other allied products under a Partnership Firm, namely, M/s Armeem Infotech from 2003 to 2017. Our Company became a partner in M/s Armeem Infotech on March 1, 2017, and ultimately acquired all the assets, business and operations of the Partnership Firm with effect from April 1, 2017 upon dissolution of the said Partnership Firm. For further details please see “*History and Certain Corporate Matters – Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamations, and revaluation of assets, if any, in the last ten years*” on page 152.

As of December 31, 2023, we have 1,686 employees, out of which 1,640 are skilled and semi-skilled technical manpower. In addition, as of December 31, 2023, we have engaged 820 employees on contractual basis through third party service providers, based upon the requirements of the projects. For further details please see “*Risk Factors - 28. We may be subject to employee unrest, slowdowns and increased wage costs, which may have an adverse effect on our business, operations, our cash flow and financial condition.*” on page 35. The project management team, with support from other teams, such as, project implementation team, logistics and procurement, accounts department, sales department, quality control department, overlooks end-to-end implementation of all the projects serviced by us. We believe that the combination of our experienced Board of Directors, our dynamic management team and our skilled employees positions us well to capitalize on future growth opportunities.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATION

The results of our operations and our financial conditions are affected by numerous factors and uncertainties, many of which may be beyond our control, including as discussed in “*Our Business*” and “*Risk Factors*”, beginning on pages 130 and 24, respectively. Set forth below is a discussion of certain factors that we believe may be expected to have a significant effect on our financial condition and results of operations:

Retaining our existing clients and augmenting our client base

Our ability to grow our business consistently requires us to (i) retain our existing clients; (ii) broad - base our engagement with our existing clients; and (iii) augment our client base. We continually engage with our clients to understand their requirements better to be able to provide more holistic services and to identify new areas where we can engage with them and explore business opportunities as and when they arise. Our constant endeavour is to nurture every client relationship to ensure that it translates into a long term association. Our expertise, honed over the years, in conjunction with the strength of our collaborative efforts with our Technology Partners enables us to provide customised IT solutions to our clients. We also track the developments in the business segments we operate in to stay abreast of emerging trends and capitalise on new business opportunities. All these factors combined with our close interaction with our clients to understand their specific requirements enables us to strengthen, and forge long-term and more successful, relationships with our existing clients. We adopt a similar approach while seeking to establish new relationships. Further, we have broad based the industry segments to which we cater including by venturing into newer business segments, and augmenting our product bouquet within each business segment. IT Infrastructure solutions has been our largest revenue generating business vertical, and contributed ₹ 49,998.43 lakhs or 89.25% of our total revenue from operations for the nine months period ended December 31, 2023, ₹ 40,844.98 lakhs or 81.25% of our total revenue from operations for Fiscal 2023, ₹ 7,528.69 lakhs or 60.14% of our total revenue from operations for Fiscal 2022, and ₹ 6,226.79 lakhs or 59.27% of our total revenue from operations for Fiscal 2021, reflecting a CAGR of 156.12% between Fiscal 2021 and Fiscal 2023.

Our top 10 clients have consistently contributed a significant part of our revenue from operations and in the nine months ended December 31, 2023, and in Fiscal 2023, Fiscal 2022 and Fiscal 2021, revenue from our top 10 clients aggregated ₹ 54,582.92 lakhs, ₹ 45,157.33 lakhs, ₹ 11,167.61 lakhs and ₹ 9,879.73 lakhs constituting 97.44%, 89.83%, 89.21% and 94.05%, of our revenue from operations. Therefore, our continued success and growth will to a certain extent also depend on our continuing to receive the patronage of our existing clients in this particular business segment, while simultaneously broadening and augmenting our client base.

Focus on technology and the ability to deliver innovative solutions

We are a fast growing IT solutions provider headquartered in Ahmedabad, Gujarat. Our business and our reputation are, therefore, intrinsically linked to our ability to continuously augment our technology solutions and to provide improved product and service offerings catering to the specific needs of our clients. Over the years, we have expanded the range of our operations and products. The growth in the range of our product and service offerings is a direct consequence of constantly honing our technical skill-sets and focusing on developing/adapting newer technology. We constantly seek to keep abreast of the latest technology trend in the IT industry. We will also be required to continuously update our existing systems. In addition, rapid and frequent technological changes and market demands can often render existing technologies obsolete and result in requirements for additional expenditures to replace or upgrade / update these technologies. The cost of replacing, updating or implementing new technologies, upgrading our existing technology, or expanding capacity could be significant. Our success will depend on our ability to enhance our existing offerings or develop new solution to meet client needs in a timely manner. Our continued growth will to a large extent depend on our ability to continue our relentless focus on technological advancements and also continually deliver innovative solutions.

Expanding our geographic footprint

We are located in Gujarat and have branch offices in three states, being, Haryana, Karnataka and Maharashtra. In recent years, the Government of India has recognized the crucial role of IT Infrastructure in bridging the digital divide and fostering socio-economic development in rural India. [Source: *D&B Report*] As digital literacy rises and people become comfortable with technology, the demand for internet-based services like e-commerce, online education, and telemedicine will soar. This creates fertile ground for managed service providers to offer solutions like cloud storage, data analytics, and cybersecurity. [Source: *D&B Report*]

Currently, we provide IT Infrastructure solutions and IT managed services to various sectors including education, healthcare, public distribution system, rural & urban development, science & technology sectors etc. We have a predominant presence in the state of Gujarat. Out of our 13 Ongoing Projects, 10 projects are being serviced in Gujarat and one project each is being serviced in Uttar Pradesh, Karnataka and Bihar. We intend to increase our presence pan India by securing and servicing projects in other states of India. We have currently bid for various projects in multiple states and as of date, have won bids for projects located in the state of Haryana, Himachal Pradesh, Maharashtra, and Uttarakhand.

Investors should not consider our Order Book as an accurate indicator of our future performance or future revenue. The successful conversion of orders into revenue and getting new orders will depend on the demand from our clients, which is beyond our control and is subject to uncertainty as well as changes in Government policies and priorities. Going forward, our Order Book may be affected by delays, cancellations, renegotiations of the contracts as well as the long gestation period in concluding such contracts, if any.

Relationship with Technology Partners

We source various hardware products such as servers, laptops, desktops, printers, webcams, interactive panels, point of sale machines, storage hardware, and third-party software products such as operating system software, database software, antivirus software and other allied hardware and software products from our Technology Partners. Our business is, therefore, heavily dependent on our relationships with Technology Partners. During the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, 96.41%, 72.82%, 51.04% and 46.56% of our purchases from Technology Partners are from our top three Technology Partners for the nine months ended December 31, 2023, respectively. Our top three Technology Partners for the nine months ended December 31, 2023, were Acer India Private Limited, Kaatsys Tech and Supertron Electronics Private Limited.

We do not enter into any long-term contracts with our Technology Partners for supply of these products. We place purchase orders with Technology Partners from time to time basis our requirements and prices for products are normally based on the quotes we receive from these Technology Partners. Further, the client acceptance of our products depends on the quality of these products and our ability to deliver our products in a timely manner.

The failure of our Technology Partners to deliver these products in the necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients.

Dependence on projects from Government/PSUs

As of date, our services majorly cater to the needs of Government/PSU clients. Revenue earned from the Government/PSU clients during the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 amounted to 97.44%, 84.65%, 58.22% and 59.29% as a percentage of total revenue from operations, respectively. We obtain majority of our projects by bidding on the government e-marketplace. There can be no assurance that the projects for which we bid will be tendered within a reasonable time, or at all. In the event that new projects which have been announced and which we plan to bid for are not put up for tender within the announced timeframe, or qualification criteria are modified such that we are unable to qualify, our business, prospects, financial condition, cash flows and results of operations could be materially and adversely affected.

Further, any change in policies of the Government, impacting the public at large, scaling back of Government policies or initiatives towards IT Infrastructure solutions projects and/or changes in Governmental or external budgetary allocation, can significantly and adversely affect the business, financial condition and results of operations.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation of Restated Financial Information

i) Statement of Compliance

These Restated Financial Information have been prepared in accordance with the recognition and measurement principles of Indian Accounting Standard 34, 'Interim financial reporting' and other accounting principles generally accepted in India for the purpose of Restated Financial Information as required under the SEBI ICDR Regulations in relation to the proposed initial public offering

of the Company. These Restated Financial Information shall therefore not be suitable for any purpose other than as disclosed in this note.

ii) Basis of Preparation

The Restated Financial Information of the Company and its Subsidiary (collectively, the “**Group**”), comprising the restated consolidated statement of assets and liabilities as at December 31, 2023 and restated standalone statement of assets and liabilities as at March 31, 2023, March 31, 2022 and March 31, 2021, the restated consolidated statements of profit and loss (including other comprehensive income), the restated consolidated statement of changes in equity and the restated consolidated cash flow statement for the nine month ended December 31, 2023 and the restated standalone statement of profit and loss (including other comprehensive income), the restated standalone statement of changes in equity and the restated standalone cash flow statement for the year ended March 31, 2023, March 31, 2022, March 31, 2021 and the summary statement of material accounting policies and other explanatory information, collectively, the restated financial information, as approved by the Board of Directors of the Company at their meeting held on May 7, 2024 for the purpose of inclusion in the Issue Documents prepared by the Company in connection with its proposed Issue, prepared in terms of the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013;
- b) SEBI ICDR Regulations; and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (“**ICAI**”), as amended from time to time (the “**Guidance Note**”).

iii) Compliance with Ind-AS

- a) The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 (“**Act**”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time. Presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the consolidated financial statements have been followed. These consolidated financial statements are separate financial statements of the Group. The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements. The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities which are measured at fair value as explained in the accounting policies below.
- b) Certain comparative figures appearing in these consolidated financial statements have been regrouped and/ or reclassified to better reflect the nature of those items.
- c) The consolidated financial statements are presented in INR and all values are rounded to the nearest lakhs (INR 1,00,000) as per the requirement of Schedule III of the Act, unless otherwise stated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company along with its Subsidiary as at December 31, 2023. The control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its powers over the investee. Specifically, the Group controls an investee if and only if the Group has:

- a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- b) Exposure, or rights, to variable returns from its involvement with the investee and
- c) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- a) The contractual arrangement with the other vote holders of the investee
- b) Rights arising from other contractual arrangements
- c) The Group’s voting rights and potential voting rights”

The Restated Financial Information have been compiled from:

- 1) Audited Special Purpose Interim Consolidated Ind AS Financial Statements of the Group as at and for the nine months period ended December 31, 2023 prepared in accordance with the Indian Accounting Standard 34 "Interim Financial Reporting", as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other recognised accounting practices and policies generally accepted in India including the requirements of the Act, which has been approved by the Board of Directors at their meeting held on May 7, 2024;
- 2) Audited Special Purpose Standalone Ind AS Financial Statements of the Company as at and for the year ended March 31, 2023 prepared in accordance with the Indian Accounting Standards, as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended (referred to as "Ind AS"), and other recognised accounting practices and policies generally accepted in India including the requirements of the Act, which has been approved by the Board of Directors at their meeting held on May 7, 2024;
- 3) Audited Special Purpose Standalone Ind AS Financial Statements of the Company as at and for the year ended March 31, 2022 prepared in accordance with Ind AS, as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other recognised accounting practices and policies generally accepted in India including the requirements of the Act, which has been approved by the Board of Directors at their meeting held on May 7, 2024 ; and
- 4) Audited Special Purpose Standalone Ind AS Financial Statements of the Company as at and for the year ended March 31, 2021, prepared as per following basis:

The Audited Special Purpose Standalone Ind AS Financial Statements of the Company as at and for the year ended 31 March 2021, have been prepared by the management of the Company in accordance with Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ('Previous GAAP' or 'Indian GAAP') after giving effect to accounting policy and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Indian Accounting Standards 101 'First-time Adoption of Indian Accounting Standards' (Ind AS 101)) as initially adopted on transition date i.e. April 01, 2020. These Audited Special Purpose IND AS Financial Statements have been approved by the Board of Directors on May 7, 2024. Suitable restatement adjustments (both re-measurements and reclassifications) as per Ind AS 101, are made to these Financial Statements for the year ended March 31, 2021.

Material accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or noncurrent classification of assets and liabilities.

b) Property, plant and equipment

The Company has elected to regard previous GAAP carrying values of property, plant and equipment as deemed cost at the date of transition to Ind AS.

An item of property, plant and equipment is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably.

The initial cost of property, plant and equipment comprises its purchase price, non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Where, during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded, demolished or destroyed, or significant components replaced; depreciation on such assets is calculated on a pro rata basis as individual assets with specific useful life from the month of such addition or, as the case may be, up to the month on which such asset has been sold, discarded, demolished or destroyed or replaced.

The Company reviews the residual value and useful life of an asset at least at each financial year-end and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Depreciation on property, plant and equipment is provided on the straight-line method prescribed under Schedule II of the Act, computed on the basis of useful lives prescribed under Schedule II of the Act. For the following assets, useful life is taken based on technical evaluation of the property, plant and equipment by the management which are mentioned below:

Tangible assets	Useful life (years)
EPOS Devices	5

c) Intangible assets

Recognition and initial measurement

The Company has elected to regard previous GAAP carrying values of intangible assets as deemed cost at the date of transition to Ind AS.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Subsequent measurement (amortisation and useful lives)

All intangible assets are accounted for using the cost model whereby capitalised costs are amortised on a straight-line basis over their estimated useful lives.

De-recognition

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

d) Borrowing costs

Borrowing costs directly/generally attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest calculated using the effective interest method that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

e) Inventories

Inventories are stated at lower of cost or net realisable value.

Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

f) Foreign currency translation

Functional and Presentation Currency

The financial statements are presented in Indian Rupees and are rounded to two decimal places of lakhs which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items as at reporting date are recognised in statement of profit and loss.

g) Revenue recognition from sale of products and services

Revenue from contracts with clients is recognised when control of the goods or services are transferred to the client at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for certain specific services mentioned below, as it typically controls the goods or services before transferring them to the client.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

The performance obligation in case of product is satisfied at a point in time i.e., when the material is shipped to the client or on delivery to the client, as may be specified in the contract.

The performance obligation in case of service is satisfied over a period of time. Income in respect of service contracts, which are generally in the nature of providing maintenance and support services, are recognised in statement of profit and loss on straight line basis over the period of the performance obligation.

The Company provides preventive maintenance services and on-site maintenance on its certain products at the time of sale. These maintenance services are sold together with the sale of product. Contracts for such sales of product and preventive maintenance services comprise two performance obligations because the promises to transfer the product and to provide the preventive maintenance services are capable of being distinct. Accordingly, a portion of the transaction price is allocated to the preventive maintenance services and recognised as a contract liability. Revenue is recognised over the period in which the preventive maintenance services are provided based on the time elapsed.

h) Other income

Interest income

Interest income on financial assets is calculated using the effective interest method and is recognised in the statement of profit and loss as part of other income.

Dividend income

Dividend income from investment is accounted for when the right to receive is established, which is generally when shareholders approve the dividend.

i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Trade receivables are initially

recognised at transaction price where that do not contain any significant portion of financing component. Transaction costs that are directly attributable to the acquisition or release of financial assets and financial liabilities respectively, which are not at fair value through profit or loss, are added to the fair value of underlying financial assets and liabilities on initial recognition. Trade receivables and trade payables that do not contain a significant financing component are initially measured at their transaction price.

Financial assets

Subsequent measurement

A financial asset is subsequently measured at amortised cost which is held with the objective to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent measurement:

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

De-recognition of financial liabilities:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

j) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss model for the financial assets which are not fair valued through profit or loss. For impairment purposes, significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics.

k) Right-of-use assets and lease liabilities

As a lessee

Classification of lease:

The Company's leased asset consist of leases for building only. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- i) the contract involves the use of an identified asset
- ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- iii) the Company has the right to direct the use of the asset.

Recognition and initial measurement of right-of use assets:

At the date of commencement of the lease, the Company recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Subsequent measurement of right-of-use asset:

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Lease liabilities:

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

l) Cash and bank balances

Cash and bank balances consist of:

- Cash and cash equivalents - which includes cash in hand, deposits held at call with banks and other short term deposits which are readily convertible into known amounts of cash, are subject to an insignificant risk of change in value and have maturities of less than three months from the date of such deposits. These balances with banks are unrestricted for withdrawal and usage.
- Other bank balances - which includes balances and deposits with banks that are restricted for withdrawal and usage.

m) Cash flow statement

Statement of cash flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i) changes during the period in inventories and operating receivables and payables, transactions of a non-cash nature;
- ii) non-cash items such as depreciation, provisions, and unrealised foreign currency gains and losses etc.; and
- iii) all other items for which the cash effects are investing or financing cash flows

n) Employee benefits

- i) Short term employee benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages, short term compensated absences etc., and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.

- ii) Post-employment benefits:

- 1) Defined contribution plans:

State governed provident fund scheme and employees state insurance scheme are defined contribution plans.

The contribution paid / payable under the schemes is recognised during the period in which the employees render the related services.

2) Defined benefit plans:

The employee's gratuity fund scheme and compensated absences is Company's defined benefit plans. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the projected unit credit method, which recognises each period of service as giving rise to an additional unit of employee benefits entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations.

For defined benefit plans, the amount recognised as 'employee benefit expenses' in the statement of profit and loss is the cost of accruing employee benefits promised to employees over the year and the costs of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in rate to the net defined benefit liability or asset is charged or credited to 'finance costs' in the statement of profit and loss. Any differences between the interest income on plan assets and the return actually achieved and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'other comprehensive income' and subsequently not reclassified to the statement of profit and loss.

All defined benefit plans obligations are determined based on valuations, as at the balance sheet date, made by independent actuary using the projected unit credit method. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligations under the defined benefit plans, to recognise the obligation on net basis.

Gains or losses on the curtailment or settlement of any defined benefits plans are recognised when the curtailment or settlement occurs. Past service cost is recognised as expense on a straight-line basis over the average period until the benefits become vested.

iii) Long term employee benefits:

The employees' long term compensated absences are the Company's defined benefit plans. The present value of the obligation is determined based on the actuarial valuation using the projected unit credit method as at the date of the balance sheet. In case of funded plans, the full value of plan assets is reduced from the gross obligation to recognise the obligation on the net basis.

o) Provisions and Contingencies

Provisions

Provisions are recognised in the balance sheet when the Company has a present obligation (legal or constructive) as a result of a past event, which is expected to result in an outflow of resources embodying economic benefits which can be reliably estimated. Each provision is based on the best estimate of the expenditure required to settle the present obligation at the balance sheet date. Where the time value of money is material, provisions are measured on a discounted basis.

Constructive obligation is an obligation that derives from an entity's actions where:

- i) by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and;
- ii) as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Contingencies

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events where it is either not probable that an outflow of resources

will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

p) Contract balances

i) Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the client. If the Company performs by transferring goods or services to a client before the client pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets are recognised when there are excess of revenues earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is an unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The amount recognised as contract assets is reclassified to trade receivables once the amounts are billed to the client as per the terms of the contract. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section P Impairment.

ii) Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section O Financial instruments – initial recognition and subsequent measurement.

iii) Contract liabilities

A contract liability is the obligation to transfer goods or services to a client for which the Company has received consideration (or an amount of consideration is due) from the client. If a client pays consideration before the Company transfers goods or services to the client, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Unearned and deferred revenue (“contract liability”) is recognised when there are billings in excess of revenues.

q) Income taxes

Tax expense for the year comprises current and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

r) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The Group did not have any potential dilutive securities in any period presented.

s) Key accounting estimates and judgments

The preparation of the Company's financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical Accounting Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

i) Income taxes

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

ii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

iii) Defined benefit obligation

The costs of providing pensions and other post employment benefits are charged to the statement of profit and loss in accordance with IND AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

t) Business combination

Business combinations are accounted for, using the Pooling of Interest Method of accounting as laid down in Appendix C, 'Business Combinations of entities under common control' of Indian Accounting Standard (Ind AS) 103 'Business Combinations' as prescribed under Section 133 of the Companies Act, 2013.

PRINCIPAL COMPONENTS OF INCOME AND EXPENDITURE

Set forth below are the principal components of income and expenditure from our continuing operations:

Total Income

Our total income comprises (i) revenue from operations; and (ii) other income.

Revenue from operations

Revenue from operations comprises i) revenue from sale of IT Infrastructure solutions; and (ii) revenue from IT managed services. Revenue from sale of IT Infrastructure solutions further has two components, a) traded goods which includes supply, installation of IT Infrastructure solutions and b) project based -IT Infrastructure solutions includes supply, installation, networking, electrification and other ancillary activity of IT Infrastructure solutions for our projects.

Fiscal Year 2023 compared with Fiscal Year 2022

Total Income

Our total income increased by 304.61%, from ₹ 12,744.90 lakhs in Fiscal Year 2022 to ₹ 51,567.42 lakhs in Fiscal Year 2023. This was driven by a growth in (i) our revenue from operations; and (ii) other income.

Revenue from operations: Revenue from operations increased by 301.58% from ₹ 12,517.98 lakhs in Fiscal Year 2022 to ₹ 50,269.51 lakhs in Fiscal Year 2023. This was primarily due to increase in our i) IT Infrastructure solutions revenue by ₹ 33,316.29 lakhs from ₹ 7,528.69 lakhs in Fiscal Year 2022 to ₹ 40,844.98 lakhs in Fiscal Year 2023. During the Fiscal Year 2023, the Company received projects for supply and installation of 4,162 and 679 ICT labs by Gujarat and Bihar Governments, respectively of ₹ 31,736.75 lakhs, and a project for digitization of elementary and secondary classrooms of ₹ 24,660.76 lakhs. These projects contributed revenue of ₹ 29,096.80 lakhs or 71.24% of total revenue generated from IT Infrastructure solutions during Fiscal 2023. IT Managed services revenue by increased by 88.90% or ₹ 4,435.24 lakhs from ₹ 4,989.29 lakhs in Fiscal Year 2022 to ₹ 9,424.53 lakhs in Fiscal Year 2023. This increase is attributed to the revenue of ₹ 4,057.49 lakhs generated from the e-Gram Vishwagram Project by the Company in Fiscal Year 2023.

Other income: Other income increased by 471.97% from ₹ 226.92 lakhs in Fiscal Year 2022 to ₹ 1,297.91 lakhs in Fiscal Year 2023 primarily due to balances written back on account of liabilities no longer payable. Our balances written back during Fiscal Year 2023 was ₹ 1,206.80 lakhs as compared to ₹ 40.96 lakhs during Fiscal Year 2022. Detailed explanation to the same has been given below:

Our Company entered into an agreement dated March 16, 2019 (“**Agreement**”) with Mantra Softech (India) Private Limited (“**Mantra**”), Arrow Power Tech Private Limited (“**Arrow**”), and Punjab National Bank with respect to the UPDESCO project, whereby it was agreed that our Company, Mantra and Arrow would share the revenue and participate by contributing opex and capex in this project in the ratio of 32.984%, 62.015% and 5.00% respectively.

All the parties to this Agreement reconciled their contribution in Fiscal 2023 and it was observed that the amount debited to our Company as its share of contribution to the said project had exceeded the agreed ratio between the Parties. It was further noticed that our Company had contributed an excess amount of ₹ 1,195.60 lakhs over and above what had been mutually agreed between the parties.

Based on the above facts, and applying the guidance available in the applicable Ind AS, this excess amount of ₹ 1,195.60 lakhs was considered; neither a prior period error nor a change of estimate. The effect of this settlement was given in FY 2022-23 as a write-back resulting in a possibility that the entire excess amount may relate only to FY 2022-23, and as there was no real way to bifurcate the period or the category of the overrun, it was considered as such.

Accordingly, the above transaction cannot be classified between prior period error and a change of estimate, as per the Ind AS.

Expenses

Our total expenses increased by 304.13% from ₹ 12,277.69 lakhs in Fiscal Year 2022 to ₹ 49,617.46 lakhs in Fiscal Year 2023.

Purchase of Stock in Trade: Our purchases of stock-in-trade increased by 437.99% from ₹ 6,786.47 lakhs in Fiscal Year 2022 to ₹ 36,510.67 lakhs in Fiscal Year 2023. This increase was primarily due to increase in purchase price of traded goods by 75.08% from ₹ 6,269.29 lakhs in Fiscal Year 2022 to ₹ 10,976.43 lakhs.

Changes in Inventories of Finished Goods: Our changes of inventories of finished goods was ₹ 1,222.85 lakhs in Fiscal Year 2023 as a result execution of projects received during this period.

Employee benefits expense: Our employee benefits expense increased by 421.62%, from ₹ 716.91 lakhs in Fiscal Year 2022 to ₹ 3,739.55 lakhs in Fiscal Year 2023. This increase was primarily due to an increase in (i) salaries and wages by 408.80% from ₹ 693.85 lakhs in Fiscal Year 2022 to ₹ 3,530.34 lakhs in Fiscal Year 2023, (ii) contribution to provident and other fund increase by 1,357.38% from ₹ 13.96 lakhs in Fiscal Year 2022 to ₹ 203.45 lakhs in Fiscal Year 2023. The reason for increase in employee

benefit expenses is attributed to recruitment of 1,515 technical manpower for the e-Gram Vishwagram Project. The e-Gram Vishwagram Project resulted in increase in employee benefit expenses by ₹ 2,855.01 lakhs and annual performance linked compensation increments given to employees.

Finance costs: Finance costs increased by 6.54 % from ₹ 556.11 lakhs in Fiscal 2022 to ₹ 592.48 lakhs in Fiscal 2023 primarily due to i) increase in interest on unsecured loan by ₹ 103.51 lakhs from ₹ 185.66 lakhs in Fiscal 2022 to ₹ 289.17 lakhs in Fiscal 2023 as a result of enhanced working capital requirements for our projects, ii) increase in bank charges by ₹ 61.19 lakhs from ₹ 52.29 lakhs in Fiscal 2022 to ₹ 113.48 lakhs in Fiscal 2023 on account of bank guarantee issued for projects awarded in Fiscal 2023, which was offset by decrease in other interest expenses in Fiscal 2023. The other interest expense was ₹ 182.67 lakhs in Fiscal 2022 due to an interest payment of ₹ 173.70 lakhs on GST demand raised during GST audit during this fiscal.

Depreciation and amortisation expense: Depreciation and amortisation expenses increased by 7.72% from ₹ 426.60 lakhs in Fiscal 2022 to ₹ 459.52 lakhs in Fiscal 2023 primarily due to an increase in depreciation of property, plant, and equipment by ₹ 29.70 lakhs to ₹ 455.65 lakhs for Fiscal 2023 from ₹ 425.95 lakhs for Fiscal 2022.

Other expenses: Our other expenses increased by 105.13% from ₹ 3,457.57 lakhs in Fiscal 2022 to ₹ 7,092.39 lakhs in Fiscal 2023 primarily due to an increase in our:

- i. Project expenses by 152.76% from ₹ 1,109.48 lakhs to ₹ 2,804.35 lakhs in Fiscal 2023. Project expenses has increased due to increase in installation charges, delivery of IT infrastructure for supply and installation of 4,162 and 679 ICT labs by Gujarat and Bihar Governments, and O&M of UPDESCO and e-Gram Vishwagram projects.
- ii. Rent expenses increase by 24.93% from ₹ 1,633.30 lakhs in Fiscal 2022 to ₹ 2,040.50 lakhs in Fiscal 2023.
- iii. Provision of claims and contingencies increase from ₹ Nil in Fiscal 2022 to ₹ 609.27 lakhs in Fiscal 2023,
- iv. Sales promotion and marketing expense increase by 168.15% from ₹ 127.82 lakhs in Fiscal 2022 to ₹ 342.75 lakhs in Fiscal 2023.
- v. Tender fees increase by 3,939.75% from ₹ 6.29 lakhs in Fiscal 2022 to ₹ 254.10 lakhs in Fiscal 2023.
- vi. Expected credit loss for trade receivables decrease by 99.08% from ₹ 90.11 lakhs in Fiscal 2022 to ₹ 0.83 lakhs in Fiscal 2023, and
- vii. Balances written off of ₹ 237.28 lakhs in Fiscal 2023.

Restated Profit before tax

On account of factors mentioned herein above, our profit before tax increased by 317.36% from ₹ 467.21 lakhs in Fiscal 2022 to ₹ 1,949.96 lakhs in Fiscal 2023.

Tax Expense

Total tax expense (current and deferred) increased by 123.62% from ₹ 130.80 lakhs in Fiscal 2022 to ₹ 292.50 lakhs in Fiscal 2023. This was due to increase in deferred tax assets (DTA) from ₹ (71.49) lakhs in Fiscal 2022 to ₹ 101.02 lakhs in Fiscal 2023. This resulted on account of Ind AS Adjustments, which was partially set off by increase in current tax (net of excess provision of earlier years) by ₹ 290.79 lakhs from ₹ 175.45 lakhs in Fiscal 2022 to ₹ 466.24 lakhs in Fiscal 2023.

Restated Net Profit after tax

For the reasons discussed above, our net profit after tax increased by 392.69 % from ₹ 336.41 lakhs in Fiscal 2022 to ₹ 1,657.46 lakhs in Fiscal 2023.

FISCAL 2022 COMPARED TO FISCAL 2021

Total Income

Total income increased by 19.95 % from ₹ 10,625.41 lakhs in Fiscal 2021 to ₹ 12,744.90 lakhs in Fiscal 2022. This was driven by a growth in (i) our revenue from operations ii) other income.

Revenue from operations: Revenue from operations increased by 19.16% from ₹ 10,505.29 lakhs in Fiscal 2021 to ₹ 12,517.98 lakhs in Fiscal 2022. This was primarily due to increase in our i) IT Infrastructure solutions revenue by ₹ 1301.90 lakhs from ₹ 6,226.79 lakhs in Fiscal 2021 to ₹ 7,528.69 lakhs in Fiscal 2022. During Fiscal 2022, the Company received projects of ₹ 1,532.99 lakhs for supply and installation of IT Infrastructure solutions for 1,377 lower primary schools; ii) IT Managed services revenue by

16.61% from ₹ 4,278.50 lakhs in Fiscal 2021 to ₹ 4,989.29 lakhs in Fiscal 2022. This increased revenue is due to receipt by the Company of a project worth ₹ 20,505.60 lakhs for five years from the e-Gram Vishwagram Society by Government of Gujarat.

Other income: Other income increased by 88.91% from ₹ 120.12 lakhs in Fiscal 2021 to ₹ 226.92 lakhs in Fiscal 2022 primarily due to depreciation write back of ₹ 91.08 lakhs. Our Company had returned few PoS devices bought in Fiscal 2020 back to our Technology Partners on account of quality concerns and depreciation charged in earlier year on these assets has been written back in Fiscal 2022.

Expenses

Our total expenses increased by 21.57% from ₹ 10,099.29 lakhs in Fiscal 2021 to ₹ 12,277.69 lakhs in Fiscal 2022.

Purchase of Stock in Trade: Our purchases of stock-in-trade increased by 0.67% from ₹ 6,741.60 lakhs in Fiscal Year 2021 to ₹ 6,786.47 lakhs in Fiscal Year 2022.

Changes in Inventories of Finished Goods: Our changes of inventories of finished goods was ₹ 334.03 lakhs in Fiscal 2022 as compared to ₹(1602.17) lakhs as a result execution of projects received during this period.

Employee benefits expense: Employee benefits expenses increased by 53.50% from ₹ 467.03 lakhs in Fiscal 2021 to ₹ 716.91 lakhs in Fiscal 2022. This increase was primarily due to an increase in (i) salaries and wages from ₹ 456.77 lakhs in Fiscal 2021 to ₹ 693.85 lakhs in Fiscal 2022, (ii) contribution to provident and other fund from ₹ 6.19 lakhs in Fiscal 2021 to ₹ 13.96 lakhs in Fiscal 2022, primarily owing to an increase in head count mainly on account of technical manpower supply for e-Gram Vishwagram Project. Number of employees increased to 1,528 as on March 31, 2022, from 110 as on March 31, 2021.

Finance costs: Finance costs increased by 91.62% from ₹ 290.22 lakhs in Fiscal 2021 to ₹ 556.11 lakhs in Fiscal 2022 primarily due to interest paid on reversal of excess input credit utilised of GST and increase in unsecured loan by ₹ 109.74 lakhs from ₹ 75.92 lakhs in Fiscal 2021 to ₹ 185.66 lakhs in Fiscal 2022 due to the increased working capital requirements of the Company.

Depreciation and amortisation expense

Depreciation and amortisation expenses decreased by 1.71% from ₹ 434.03 lakhs in Fiscal 2021 to ₹ 426.60 lakhs in Fiscal 2022.

Other expenses

Our other expenses decreased by 8.25% from ₹ 3,768.58 lakhs in Fiscal 2021 to ₹ 3,457.57 lakhs in Fiscal 2022 primarily due to decrease in our i) project expenses by 20.35% from ₹ 1,392.90 lakhs to in Fiscal 2021 to ₹1,109.48 lakhs in Fiscal 2022 ii) Legal and professional expense by 59.07% from ₹ 259.07 lakhs in Fiscal 2021 to ₹ 106.03 lakhs in Fiscal 2022, vii) commission expense by 73.31% from ₹ 285.98 lakhs in Fiscal 2021 to ₹ 76.33 lakhs in Fiscal 2022, which was offset by increase in rent expenses by 4.66% from ₹ 1,560.56 lakhs in Fiscal 2021 to ₹ 1,633.30 lakhs in Fiscal 2022, office expense increase by 748.46% from ₹ 14.94 lakhs in Fiscal 2022 to ₹ 126.76 lakhs in Fiscal 2022 and expected credit loss for trade receivables increase from ₹ Nil lakhs in Fiscal 2021 to ₹ 90.11 lakhs in Fiscal 2022.

Profit before tax

On account of factors mentioned herein above, our profit before tax decreased by 11.20% from ₹ 526.12 lakhs in Fiscal 2021 to ₹ 467.21 lakhs in Fiscal 2022.

Tax Expense

Total tax expense (current and deferred) decreased by (14.80)% from ₹ 153.52 lakhs in Fiscal 2021 to ₹ 130.80 lakhs in Fiscal 2022 primarily due to:

- Current tax expense increase by 54.83% from ₹ 113.32 lakhs in Fiscal 2021 to ₹ 175.45 lakhs in Fiscal 2022 and;
- Deferred tax expense decreased from ₹ 26.95 lakhs in Fiscal 2021 to ₹ (44.65) lakhs in Fiscal 2022 on account of creation of DTA on provision for expected on credit loss.

Net Profit after tax

For the reasons discussed above, our net profit after tax decreased by 9.71% from ₹ 372.60 lakhs in Fiscal 2021 to ₹ 336.41 lakhs in Fiscal 2022.

LIQUITY AND CAPITAL RESOURCE

NON-GAAP MEASURES

Earnings before Interest, Taxes, Depreciation and Amortization Expenses (EBITDA')/ EBITDA Margin/ Return on Capital Employed / PAT Margin / Return on Equity / Gross Margin

In addition to our results determined in accordance with Ind AS, we believe the following Non-GAAP measures are useful to investors in evaluating our operating performance and liquidity. We use the following Non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that Non-GAAP financial information, when taken collectively with financial measures disclosed in the financial statements prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these Non-GAAP measures in isolation or as an alternative to financial measures.

Gross margin, EBITDA, EBITDA margin, return on net asset, PAT margin and return on equity (Non-GAAP Measures) presented in this Draft Red Herring Prospectus is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, IFRS or US GAAP. Further, EBITDA is not a measurement of our financial performance or liquidity under Ind AS, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, IFRS or US GAAP. In addition, Non-GAAP Measures are not standardised terms, hence a direct comparison of Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measure differently from us, limiting its usefulness as a comparative measure. Although Non-GAAP Measures is not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance. See "Risk Factor- 50. We have in this Draft Red Herring Prospectus included certain non-GAAP financial measures and certain other industry measures related to our operations and financial performance. These non-GAAP measures and industry measures may vary from any standard methodology that is applicable across the Indian information technology distribution industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies" on page 43.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to risks that are related to the normal course of our operations, which may affect economic growth in India and the value of our financial liabilities, our cash flows and our results of operations.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

According to the Company, interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming that the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50-basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

50 bp increase would decrease the profit before tax by	(12.59)	(8.11)	(5.26)	(5.74)

Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including, debt and overdraft / credit facilities from both domestic and international banks at an optimised cost.

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or client contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to client credit risk management. Credit quality of a client is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

Based on our Company's accounting policy ₹ 112.70 lakhs, ₹ 0.83 lakhs, ₹ 90.11 lakhs and ₹ Nil lakhs have been created as an expected credit loss in our books of accounts for the nine months ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 respectively.

Inflation Risk

In recent years, India has experienced relatively high rates of inflation. While we believe inflation has not had any material impact on our business and results of operations, inflation generally impacts the overall economy and business environment and hence could affect us.

Revenue recognition from sale of products and services

Revenue from contracts with clients is recognised when control of the goods or services are transferred to the clients at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for certain specific services mentioned below, as it typically controls the goods or services before transferring them to the clients.

The performance obligation in case of product is satisfied at a point in time i.e., when the material is shipped to the clients or on delivery to the clients, as may be specified in the contract.

The performance obligation in case of service sold along with sale of product is satisfied over a period of time. Income in respect of service contracts, which are generally in the nature of providing maintenance and support services, are recognised in statement of profit and loss on straight line basis over the period of the performance obligation.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the service contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

The Company provides preventive maintenance services and on-site maintenance on its certain products at the time of sale. These maintenance services are sold together with the sale of product. Contracts for such sales of product and preventive maintenance services comprise two performance obligations because the promises to transfer the product and to provide the preventive maintenance services are capable of being distinct. Accordingly, a portion of the transaction price is allocated to the preventive maintenance services and recognised as a contract liability. Revenue is recognised over the period in which the preventive maintenance services are provided based on the time elapsed.

Facts of case:

The Company has executed a Contract with a client to supply and install 7,500 ICT labs, with the client agreeing to remit ₹ 38,515.04 lakhs (excluding GST). The contract encompasses provisions for half-yearly preventive maintenance over a five year period following the installation.

In this contract, the Company has distinguished three distinct performance obligations: the sale of the product, the sale of service for Installation/commission of the project, and the sale of preventive maintenance support services. The performance obligation for the sale of the product is fulfilled at a specific point in time, which occurs either upon the material's shipment to the client or upon delivery, as specified in the contract. Similarly, the performance obligation for the sale of service for Installation/commission of the project is also satisfied at a specific point in time, which happens either upon commissioning the product at the client site or upon installation, as stipulated in the contract. On the other hand, the performance obligation for the service sold alongside the product is met over time. Revenue from service contracts, primarily concerning maintenance and support services, is recognized in the statement of profit and loss on a straight-line basis over the performance obligation period.

Based on the contract terms and prevailing business practices, the Company has apportioned the transaction price among the three performance obligations as follows:

- i) Sale of product - 95% of the project value
- ii) Sale of service for Installation/commission of the project - 3.5% of the project value

- iii) Sale of service along with the product - 1.5% of the project value

Contract liability

A contract liability is the obligation to transfer goods or services to a client for which the Company has received consideration (or an amount of consideration is due) from the client. If a client pays consideration before the Company transfers goods or services to the client, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Unearned and deferred revenue (“**Contract Liability**”) is recognised when there are billings in excess of revenues.

Scenario I

The Company issues a tax invoice for 100% of the project value since separate transaction prices for each performance obligation are not stipulated in the contract.

In accordance with the Revenue Recognition policy adopted by the Company, the following recognition is applied:

- i) Sale of product - 95% of the project value
 ii) Sale of service for Installation/commission of the project - 3.5% of the project value
 iii) Sale of service along with the product - 1.5% of the project value

(In ₹ lakhs)

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Taxable Invoice - 100% of project value	38,515.04					
Contract Liability	(577.73)	115.55	115.55	115.55	115.55	115.55
Revenue from operations	37,937.32	115.55	115.55	115.55	115.55	115.55

The Company will recognise Contract Liability of amount equivalent to 1.5% of project value towards pending performance obligation in the year of installation and will be recognised as revenue over the five year period from the installation date, employing the Straight-Line Method (SLM) basis.

Scenario II

If the Company issues a tax invoice for 95% of the project value on delivery and installation and tax invoice for remaining 5% will raise over the period of five years due to contractual obligation of half yearly maintenance.

In accordance with the Revenue Recognition policy adopted by the Company, the following recognition is applied:

- i) Sale of product - 95% of the project value
 ii) Sale of service for Installation/commission of the project - 3.5% of the project value
 iii) Sale of service along with the product - 1.5% of the project value

(In ₹ lakhs)

Contractual assets (B+C-D)	1,348.03	1,078.42	808.82	539.21	269.61	-

Contractual assets

A contractual asset is the right to consideration in exchange for goods or services transferred to the client. If the Company performs by transferring goods or services to a client before the client pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contractual assets are recognised when there are excess of revenues earned over billings on contracts. Contractual assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The amount recognised as contractual assets is reclassified to trade receivables once the amounts are billed to the client as per the terms of the contract.

The Company will recognise contractual assets on the basis of revenue recognition policy adopted as mentioned above.

CHANGES IN ACCOUNTING POLICIES

There have been no changes in our accounting policies in the nine months period ended December 31, 2023, and during the Fiscals 2023, 2022 and 2021.

Our business has been subject, and we expect it to continue to be subject, to significant economic changes arising from the trends identified above in “*Management’s Discussion and Analysis of Financial Condition and Results of Operations - Significant Factors Affecting our Results of Operations*” and the uncertainties described in “*Risk Factors*” on pages 234 and 24, respectively. To our knowledge, except as discussed in this Draft Red Herring Prospectus, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

FUTURE RELATIONSHIP BETWEEN COST AND INCOME

Other than as described in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 24, 130 and 232, respectively, to our knowledge, there are no known factors that may adversely affect our business prospects, results of operations and financial condition.

NEW PRODUCTS OR BUSINESS SEGMENTS

Except as set out in this Draft Red Herring Prospectus in the sections “*Our Business*” on page 130, we have not announced and do not expect to announce in the near future any new products or business segments.

COMPETITIVE CONDITIONS

We operate in a competitive environment and expect to continue to compete with existing and potential competitors. See “*Risk Factors*”, “*Industry Overview*” and “*Our Business*” on pages 24, 94 and 130, respectively, for further details on competitive conditions that we face across our various business segments.

SIGNIFICANT DEPENDENCE ON SINGLE OR FEW CLIENTS

Considering the nature of business, our Company is dependent on few clients. The clients which contribute significantly to our revenue may change every fiscal depending on the projects received. Set forth below are the details of percentage of revenue contributed by our top five clients in the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021.

Clients	Percentage of revenue from operations			
	December 31, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Client 1	82.96%	49.70%	28.77%	30.03%
Client 2	5.16%	9.53%	12.24%	15.74%

Client 5	1.92%	3.06%	7.64%	6.15%

SEASONALITY/ CYCLICALITY OF BUSINESS

Our business is not seasonal in nature.

MATERIAL DEVELOPMENTS AFTER DECEMBER 31, 2023 THAT MAY AFFECT OUR FUTURE RESULTS OF OPERATIONS

There have been no significant developments after December 31, 2023, the date of the last financial statements contained in this Draft Red Herring Prospectus, to the date of filing of this Draft Red Herring Prospectus, which materially and adversely affects, or is likely to affect, our trading or profitability, or the value of our assets, or our ability to pay our liabilities within the next 12 months.

SECTION VI: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as disclosed in this section, there are no (i) outstanding civil litigation involving our Company, Directors, Promoters, and Subsidiary (“**Relevant Parties**”) (ii) outstanding criminal litigation involving the Relevant Parties; (iii) actions taken by statutory or regulatory authorities involving the Relevant Parties; (iv) outstanding claims involving the Relevant Parties, for any direct and indirect tax liabilities; (v) defaults or non-payment of statutory dues by our Company; (vi) material fraud against our Company in the last five years immediately preceding the year of this Draft Red Herring Prospectus; (vii) litigation or legal action against our Promoters by any ministry or Government department or statutory authority during the last five years immediately preceding the year of this Draft Red Herring Prospectus; or (viii) other outstanding litigations involving the Relevant Parties or any other person.*

There are no findings/observations of any of the inspections by SEBI or any other regulator which are material and which needs to be disclosed in the Issue Documents or non disclosure of which may have bearing on the investment decision, other than the ones which have already disclosed in this section.

*Further, except as stated in this section, there are no outstanding material dues to creditors of our Company. For this purpose, our Board in its meeting held on June 21, 2024, has considered and adopted a policy of materiality for identification of material outstanding dues to creditors. In terms of this materiality policy, outstanding dues to any creditor of our Company having monetary value equal to, or exceeding 5% of the total trade payables of our Company as on the last date of the latest period covered in the Restated Financial Information included in this Draft Red Herring Prospectus, shall be considered as ‘material’. Accordingly, for the purpose of this disclosure, any outstanding dues exceeding ₹ 2,257.99 lakhs as on December 31, 2023, have been considered as material outstanding dues for the purposes of disclosure in this section. Further, for outstanding dues to any party which is a micro, small or a medium enterprise (“**MSME**”), the disclosure will be based on information available with our Company regarding status of the creditor under section 2 of the Micro, Small and Medium Enterprises Development Act, 2006, as amended.*

Our Company, our Promoters and our Directors, have not been declared as wilful defaulters by the RBI or any governmental authority, have not been debarred from dealing in securities and/or accessing capital markets by the SEBI and no disciplinary action has been taken by the SEBI or any stock exchanges against our Company, our Promoters or our Directors, that may have a material adverse effect on our business or financial position, nor are there any such proceedings pending or threatened. None of our Promoters or Directors are a Fugitive Economic Offender under Section 12 of the Fugitive Economic Offenders Act, 2018.

Pre-litigation notices received by the Relevant Parties or Group Company from third parties (excluding governmental/ statutory/ regulatory/ judicial/ quasi-judicial/tax authorities or notices threatening criminal action) shall, in any event, not be considered as litigation until such time that Relevant Parties or Group Company (to the extent such litigation has a material impact on the Company) are impleaded as defendants in proceedings initiated before any court, arbitrator, tribunal, judicial forum or governmental authority or is notified by any governmental, statutory or regulatory authority of any such proceedings that may be commenced against the Relevant Parties or Group Company (to the extent such proceeding has a material impact on the Company).

Litigation involving our Company

A. Litigation filed against our Company

i. Criminal proceedings

1. A notice dated March 17, 2020, under Section 138(b) of the Negotiable Instruments Act, 1881 (“**Notice**”) was issued by M/s Select Technologies Pvt. Ltd. (the “**Complainant**”) to our Company and our Managing Director, Ridhish Kiritbhai Patel, alleging that a postdated cheque for an amount of ₹ 278.06 lakhs issued by our Company was dishonoured. In this respect, a complaint dated January 1, 2022, was filed by the Complainant in the Court of the Hon’ble XIVth Additional Metropolitan Magistrate, Nampally, Criminal Courts at Hyderabad, Telangana, with the allegations mentioned in the Notice. Our Company and our Managing Director, Ridhish Kiritbhai Patel filed a petition dated July 27, 2023, under Section 482 of the Code of Criminal Procedure, 1973, in the Telangana High Court to quash the proceedings and to grant a stay of all further proceedings. An interim stay order in this matter has been passed by the High Court for the State of Telangana at Hyderabad on July 27, 2023, which has been extended till July 1, 2024 and the next hearing date is July 1, 2024. The matter is currently pending. Additionally, a civil suit for recovery of money was also filed in this regard by M/s Select Technologies Pvt. Ltd. against our Company and our Managing Director. For further details, please see “*Litigation filed against our Company-Other pending litigation*” on page 260.

ii. Actions by regulatory and statutory authorities

iii. Tax proceedings

1. The Deputy Commissioner of Central Tax, Circle IV, Audit Commissionerate, Ahmedabad, (the “**Deputy Commissioner**”) issued a show cause notice dated December 14, 2023 (the “**Notice**”), demanding payment of integrated goods and services tax amounting to ₹ 30.89 lakhs, in relation to excess availment of input tax credit on inward supply of goods/services, in contravention of Section 16(2) of the Central Goods and Services Tax Act, 2017. Through the notice, the Deputy Commissioner called upon our Company to show cause as to why interest should not be charged and recovered and as to why penalty should not be imposed upon our Company on the proposed demand of tax, under Sections 50(1) and 74(1) of the Central Goods and Services Tax Act, 2017. Our Company has filed a reply dated January 25, 2024, to the Notice stating that there was no availment of excess input tax credit. There has been no further action by the Deputy Commissioner.
2. An assessment order dated March 30, 2022 (“**Order**”) was issued by the Income Tax Department, National Faceless Assessment Centre, Delhi against our Company in relation to the assessment year 2017-18, stating that there has been an under valuation of closing stock of ₹ 48.68 lakhs and such amount is to be added to the total income of the Company. In this regard, a demand notice was issued and penalty proceedings under Section 270A of the Income-tax Act, 1961 have been initiated against our Company. An appeal dated April 22, 2022 was filed by our Company against this Order wherein the addition of ₹ 48.68 lakhs to the total income of the Company was disputed. The matter is currently pending.
3. An assessment order dated December 22, 2022 (“**Order**”) was issued by the Income Tax Department against our Company in relation to the assessment year 2021-22, stating that our Company has shown large payments as fee for technical services to a party, Sheenmoon Pvt. Ltd. (“**Sheenmoon**”), who has not filed returns of income for the relevant year in comparison to total payments. The Order declared that the identity and existence of Sheenmoon remained unverified and therefore, it does not actually exist during the year and bogus expenses amounting to ₹ 50.00 lakhs have been raised just to reduce profit. In this regard, the expenses made by our Company for technical/professional fee as per Section 194J of the Income-tax Act, 1961 (the “**Act**”) to Sheenmoon, amounting to ₹ 50.00 lakhs was disallowed and added back to our Company’s total income. In this regard, a demand notice under Section 156 of the Act was issued and penalty proceedings under Section 270A of the Act, have been initiated against our Company through the Order. An appeal dated January 19, 2023 was filed by our Company against this Order stating that Sheenmoon is carrying on its business and is filing GST returns regularly and its identity is verifiable. Our Company has also stated that it cannot be burdened with uncalled liability by disallowing legitimate expense of ₹ 50.00 lakhs merely because Sheenmoon failed to furnish returns of income. The matter is currently pending.
4. An intimation order dated July 29, 2023, was issued by the Centralized Processing Centre, Income Tax Department against our Company raising a demand for ₹ 1,046.97 lakhs in relation to the assessment year 2022-23, by re-computing our total income under Section 143(1) of the Income-tax Act, 1961 (the “**Act**”). In this regard, a rectification order dated November 27, 2023, was issued by the Centralized Processing Centre, Income Tax Department under Section 154 of the Act which reduced the demand to ₹ 1.20 lakh. This outstanding demand has been adjusted against our refund for the assessment year 2023-24. In connection with this demand, our Company has filed an appeal before the Commissioner of Income-tax (Appeals), Income Tax Department, Delhi to allow for a deduction of ₹ 3.31 lakhs, stating that after the rectification order, a prima facie adjustment of this amount remained on account of disallowance under Section 43B of the Act. The matter is currently pending.

iv. *Other pending litigations*

1. On November 28, 2022, a civil suit for recovery of money was filed by M/s Select Technologies Pvt. Ltd. (“**Plaintiff**”) against our Company and our Managing Director, Ridhish Kiritbhai Patel (collectively, the “**Defendants**”) before the City Civil Court at Hyderabad, praying for a payment of an amount of ₹ 87.96 lakhs and interest at 24% per annum on a principal amount of ₹ 40.00 lakhs from the date of filing of the suit till the date of realization. The suit alleged that an agreement for supply of web cameras was executed between the Plaintiff and the Defendants on December 25, 2019, consequent to which the Plaintiff supplied the necessary material and raised an invoice for ₹ 278.06 lakhs. Thereafter, the Plaintiff presented a post dated cheque issued by the Defendants which bounced and was returned by the bank. The Plaintiff alleged that after multiple attempts to recover the invoice amount, the Defendants only managed to make a part payment of ₹ 238.06 lakhs. A written statement was filed by our Company and our Managing Director, Ridhish Kiritbhai Patel, on April 19, 2023 denying the allegations and stating that the payment of the principal amount of ₹ 40.00 lakhs was rejected by the Plaintiff. The matter is currently pending and the next date of hearing is on July 25, 2024.
2. A civil suit was filed by the heirs of the late Amitkumar Shanubhai Vasava (the “**Deceased**”) in the court of the Hon’ble Principal Senior Civil Judge of Narmada District, Rajpipla, Gujarat, against our Company, our Managing Director, Ridhish Kiritbhai Patel and our Promoter, Kiritkumar Chimanbhai Patel, alleging that the Deceased was appointed as an executive at taluka level with mediclaim and life insurance cover. After his death due to an accident, the heirs of the Deceased served a notice dated September 29, 2022, to our Company to obtain insurance benefits available to the Deceased under his appointment letter. Thereafter, the said suit for recovery of

compensation amounting to ₹ 36.06 lakhs was filed by the heirs of the Deceased and a reply to the suit dated July 19, 2023 was filed by our Company and our Managing Director, Ridhish Kiritbhai Patel and erstwhile Director Kiritkumar Chimanbhai Patel, denying the claims and stating that the filled in appointment letter and the necessary details of insurance and mediclaim were not submitted by the Deceased to the Company as requested, and hence, the Deceased was not issued any appointment letter by the Company. The matter is currently pending and the next date of hearing is on July 4, 2024.

1. A suit dated December 30, 2019, has been filed by Lendingkart Finance Limited (the “**Plaintiff**”), against our Directors, Ridhish Kiritbhai Patel and Ami Ridhish Patel (together, the “**Defendants**”) before the Hon’ble Principle Senior Civil Judge Court at Ahmedabad (Rural), Gujarat, stating that the Plaintiff had leased a property

from the Defendants after providing an interest free security deposit of ₹ 6.25 lakhs. It was alleged that after the Plaintiff had handed over the possession of the property to the Defendants, they have not returned an outstanding balance amount of the security deposit of ₹ 2.86 lakhs to the Plaintiff. Therefore, the Plaintiff has filed this present suit stating that it is entitled to recover the balance amount of the security deposit together with an accrued interest of 18% per annum thereon from the Defendants, as per the terms of their lease agreement. The matter is currently pending and the next date of hearing is July 2, 2024.

V. Our Intellectual Property

As on the date of this Draft Red Herring Prospectus, our Company has registered two trademarks in India for which we have obtained valid registration certificates under class 9 and 37 from the Trade Marks Registry, Government of India under the Trade Marks Act, 1999 (“**Trade Marks Act**”), as amended. The following table provides the details of registered trademarks which are currently being used by our Company:

Registered Trademark	Class of trademark under the Trade Marks Act	Registering Authority

 ArMee	9	Trade Marks Registry, Ahmedabad
 ArMee	37	Trade Marks Registry, Ahmedabad

Our Company has also filed for six applications for trademark of the logo of our Company, under classes 11, 35, 36, 38, 41 and 42 respectively, which are currently pending and have been objected. Three of those applications have been objected by the Registrar of Trademarks, Ahmedabad on the grounds that they are identical with or similar to earlier marks in respect of identical or similar description of goods or services, and we have filed replies to these objections. Two of these applications have been objected because we were required to provide supporting documents (bills, invoices) since 2017 till the date of application. One of these applications has been objected because the mark is a common surname/personal name or a non-distinctive. Our Company has filed replies to the examination reports received in connection with these applications. For risks associated with intellectual property, please see, “*Risk Factors- 14. Inability to obtain or protect our intellectual property rights may adversely affect our business.*” on page 30.

Further, as on the date of the Draft Red Herring Prospectus, our Subsidiary does not have any intellectual property registered.

Prohibition by the SEBI or other governmental authorities

Our Company, Promoters, members of the Promoter Group, Directors are not prohibited from accessing the capital markets or debarred from buying, selling or dealing in securities under any order or direction passed by the SEBI or any securities market regulator in any other jurisdiction or any other authority/court.

None of the companies with which our Promoters and Directors are associated with as promoters or directors have been debarred from accessing capital markets under any order or direction passed by the SEBI or any other authorities.

Our Company, Promoters or Directors have not been declared as Wilful Defaulters or Fraudulent Borrowers. Our Promoters or Directors have not been declared as Fugitive Economic Offenders.

Directors associated with the securities market

None of our Directors are associated with the securities market in any manner.

There have been no outstanding actions initiated by SEBI against the Directors of our Company in the five years preceding the date of this Draft Red Herring Prospectus.

Confirmation under Companies (Significant Beneficial Owners) Rules, 2018

Our Company, Promoters, and members of the Promoter Group (to the extent applicable to them) are in compliance with the Companies (Significant Beneficial Owners) Rules, 2018, in relation to our Company, as of the date of this Draft Red Herring Prospectus.

Eligibility for the Issue

Our Company is an unlisted company not complying with the conditions specified in Regulation 6(1) of the SEBI ICDR Regulations and is, therefore, required to meet the conditions detailed in Regulation 6(2) of the SEBI ICDR Regulations.

The table below sets forth the conditions stipulated in Regulation 6(1) of the SEBI ICDR Regulations and the extent to which our Company meets such conditions:

S.No.	Regulation 6(1) of the SEBI ICDR Regulations	Compliance	Reason
a)	Issuer should have net tangible assets of at least 300 lakh rupees in each of the preceding three full years (of twelve months each), of which not more than 50% are held in monetary assets	Compliant	Not applicable
b)	Issuer should have average operating profit of at least 1,500 lakh rupees, during the preceding three years (of twelve months each).	Not compliant	Not applicable
c)	Issuer should have net worth of at least 100 lakh rupees in each of the preceding three full years (of twelve months each)	Compliant	Not applicable
d)	If Issuer has changed its name within the last one year, at least fifty per cent. of the revenue, calculated on a restated and consolidated basis, for the preceding one full year has been earned by it from the activity indicated by its new name	Not applicable	Our Company has not changed its name in the last one year, other than the deletion of word “Private” from the name of our Company pursuant to conversion to a public limited company. Our Company has not undertaken any new activity pursuant to such change in name.

Therefore, we do not satisfy the conditions stipulated in Regulation 6(1) of the SEBI ICDR Regulations and are hence required to meet the conditions stipulated in Regulation 6(2) of the SEBI ICDR Regulations.

We undertake to comply with Regulation 6(2) of the SEBI ICDR Regulations which is reproduced here as:

“The Issuer shall be eligible to make an initial public offer only if the issue is made through the book-building process and the issuer undertakes to allot at least seventy-five percent of the net offer to qualified institutional buyers and to refund the full subscription money if it fails to do so.”

Provided that in accordance with Regulation 40(3) of the SEBI ICDR Regulations, the QIB Portion will not be underwritten by the Underwriters, pursuant to the Underwriting Agreement. Further, not more than 15% of the Issue shall be available for allocation to NIBs of which one-third of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹2,00,000 and up to ₹10,00,000 and two-thirds of the Non-Institutional Portion shall be available for allocation to Bidders with an application size of more than ₹10,00,000 provided that under-subscription in either of these two sub-categories of the Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Further, not more than 10% of the Issue shall be available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. In the event we fail to do so, the full application monies shall be refunded to the Bidders, in accordance with the SEBI ICDR Regulations.

Our Company confirms that it is in compliance with the conditions specified in Regulation 7(1) of the SEBI ICDR Regulations, to the extent applicable and will ensure compliance with the conditions specified in Regulation 7(2) of the SEBI ICDR Regulations, to the extent applicable.

Further, in accordance with the conditions specified in Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Allottees in the Issue shall be not less than 1,000 failing which the entire application monies shall be refunded forthwith or the application monies shall be unblocked in the ASBA Accounts, in accordance with the SEBI ICDR Regulations and other applicable laws.

Our Company confirms that it is not ineligible to make the Issue under Regulation 5 of the SEBI ICDR Regulations to the extent applicable.

The status of compliance of our Company with the conditions as specified under Regulations 5 and 7(1) of the SEBI ICDR Regulations are as follows:

1. Neither our Company, nor our Directors, Promoters or members forming part of our Promoter Group are debarred from accessing the capital markets by the SEBI;
2. None of our Promoters or our Directors are promoters or directors of companies which are debarred from accessing the capital markets by the SEBI;
3. There are no violations of securities laws committed by them in the past or are currently pending against any of them;
4. None of our Promoters or Directors have been classified as a Fugitive Economic Offender under Section 12 of the Fugitive Economic Offenders Act, 2018;
5. There are no outstanding warrants, options or rights to convert debentures, loans or other instruments convertible into, or which would entitle any person any option to receive Equity Shares, as on the date of this Draft Red Herring Prospectus;
6. Our Company has filed applications dated [●] and [●] with the BSE and NSE, respectively, seeking an in-principle approval for listing its securities on the Stock Exchanges;
7. Our Company, along with the Registrar to the Issue, has entered into tripartite agreements dated February 29, 2024, and March 2, 2024 with NSDL and CDSL, respectively, for dematerialization of the Equity Shares;
8. The Equity Shares of our Company held by our Promoters are in dematerialized form;
9. The Equity Shares are fully paid-up and there are no partly paid-up Equity Shares existing as on the date of filing of this Draft Red Herring Prospectus;
10. There is no requirement for us to make firm arrangements of finance under Regulation 7(1)(e) of the SEBI ICDR Regulations through verifiable means towards 75% of the stated means of finance, as the entire objects of the Issue are proposed to be financed from the Issue proceeds; and
11. The amount for general corporate purposes, as mentioned in the “*Objects of the Issue*” on page 75, shall not exceed 25% of the Gross Proceeds from the Issue.

Disclaimer clause of SEBI

IT IS TO BE DISTINCTLY UNDERSTOOD THAT SUBMISSION OF THIS DRAFT RED HERRING PROSPECTUS TO SEBI SHOULD NOT, IN ANY WAY, BE DEEMED OR CONSTRUED TO MEAN THAT THE SAME HAS BEEN CLEARED OR APPROVED BY SEBI. SEBI DOES NOT TAKE ANY RESPONSIBILITY EITHER FOR THE

FINANCIAL SOUNDNESS OF ANY SCHEME OR THE PROJECT FOR WHICH THE ISSUE IS PROPOSED TO BE MADE OR FOR THE CORRECTNESS OF THE STATEMENTS MADE OR OPINIONS EXPRESSED IN THIS DRAFT RED HERRING PROSPECTUS. THE BOOK RUNNING LEAD MANAGERS, BEING KHANDWALA SECURITIES LIMITED AND SAFFRON CAPITAL ADVISORS PRIVATE LIMITED HAVE CERTIFIED THAT THE DISCLOSURES MADE IN THIS DRAFT RED HERRING PROSPECTUS ARE GENERALLY ADEQUATE AND ARE IN CONFORMITY WITH THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018. THIS REQUIREMENT IS TO FACILITATE INVESTORS TO TAKE AN INFORMED DECISION FOR MAKING AN INVESTMENT IN THE PROPOSED ISSUE.

IT SHOULD ALSO BE CLEARLY UNDERSTOOD THAT WHILE THE COMPANY IS PRIMARILY RESPONSIBLE FOR THE CORRECTNESS, ADEQUACY AND DISCLOSURE OF ALL RELEVANT INFORMATION IN THIS DRAFT RED HERRING PROSPECTUS, THE BOOK RUNNING LEAD MANAGERS ARE EXPECTED TO EXERCISE DUE DILIGENCE TO ENSURE THAT THE COMPANY DISCHARGES ITS RESPONSIBILITIES ADEQUATELY IN THIS BEHALF AND TOWARDS THIS PURPOSE, THE BOOK RUNNING LEAD MANAGERS HAVE FURNISHED TO SEBI, A DUE DILIGENCE CERTIFICATE DATED JUNE 21, 2024 IN THE FORMAT PRESCRIBED UNDER SCHEDULE V(A) OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018.

THE FILING OF THIS DRAFT RED HERRING PROSPECTUS DOES NOT, HOWEVER, ABSOLVE THE COMPANY FROM ANY LIABILITIES UNDER THE COMPANIES ACT, 2013, OR FROM THE REQUIREMENT OF OBTAINING SUCH STATUTORY OR OTHER CLEARANCES AS MAY BE REQUIRED FOR THE PURPOSE OF THE PROPOSED ISSUE. SEBI FURTHER RESERVES THE RIGHT TO TAKE UP, AT ANY POINT OF TIME, WITH THE BOOK RUNNING LEAD MANAGERS, ANY IRREGULARITIES OR LAPSES IN THIS DRAFT RED HERRING PROSPECTUS.

All applicable legal requirements pertaining to this Issue will be complied with at the time of filing of the Red Herring Prospectus and the Prospectus, as applicable, with the RoC in terms of the Companies Act.

Disclaimer from our Company, our Promoters, our Directors and the BRLMs

Our Company, our Promoters, our Directors and the BRLMs accept no responsibility for statements made in relation to our Company or the Issue other than those confirmed by them in this Draft Red Herring Prospectus or in the advertisements or any other material issued by or at our Company's instance. Except when specifically directed in this Draft Red Herring Prospectus, anyone placing reliance on any other source of information, including our Company's website, www.armeeinfotech.com or any website of any member of the Promoter Group, Subsidiary, Group Company or affiliates of our Company, would be doing so at their own risk.

The Book Running Lead Managers accept no responsibility, save to the limited extent as provided in the Issue Agreement and as will be provided in the Underwriting Agreement.

All information, to the extent required in relation to the Issue, shall be made available by our Company and the BRLMs to the public and investors at large and no selective or additional information would be made available by our Company and the BRLMs for a section of the investors in any manner whatsoever including at road show presentations, in research or sales reports, at Bidding Centres or elsewhere.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Underwriters, the BRLMs and their respective directors, officers, agents, affiliates and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares and will not issue, sell, pledge or transfer the Equity Shares to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares. Our Company, the Underwriters, the BRLMs and their respective directors, officers, agents, affiliates and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

The BRLMs and their respective associates and affiliates in their capacity as principals or agents may engage in transactions with, and perform services for, our Company, its Subsidiary and Group Company, and their respective directors and officers, affiliates, associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with our Company, its Subsidiary, and their respective group company, directors, officers, affiliates, associates or third parties, for which they have received, and may in the future receive, compensation.

Stock Market Data of Equity Shares

This being an initial public offer of our Company, the Equity Shares are not listed on any stock exchange as of the date of this Draft Red Herring Prospectus, and accordingly, no stock market data is available for the Equity Shares.

Mechanism for redressal of Investor grievances

The Registrar Agreement provides for the retention of records with the Registrar to the Issue for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, to enable the investors to approach the Registrar to the Issue for redressal of their grievances.

In terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2018/22 dated February 15, 2018, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, read with the SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI master circular SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs in accordance with SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially-allotted applications, for the stipulated period. In the event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the BRLMs shall compensate the investors at the rate higher of ₹100 per day or 15% per annum of the application amount for the period of such delay. Further, in terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

All grievances (other than from Anchor Investors) in relation to the Bidding process may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or first Bidder, Bid cum Application Form number, Bidder DP ID, Client ID, PAN, UPI ID, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder. Further, the Bidder shall also enclose a copy of the Acknowledgement Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All grievances of the Anchor Investors may be addressed to the Book Running Lead Managers, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the Book Running Lead Managers where the Bid cum Application Form was submitted by the Anchor Investor.

The Registrar to the Issue shall obtain the required information from the SCSBs and Sponsor Bank(s) for addressing any clarifications or grievances of ASBA Bidders. Our Company, the Book Running Lead Managers and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations. Investors can contact our Company Secretary and Compliance Officer or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of letters of Allotment, non-credit of allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Our Company, the Book Running Lead Managers and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations.

Disposal of Investor grievances by our Company

Our Company shall, post the filing of this Draft Red Herring Prospectus, apply for the authentication on the SCORES in terms of the SEBI circular no. CIR/OIAE/1/2014 dated December 18, 2014, the SEBI circular no. SEBI/HO/OIAE/IGRD/CIR/P/2019/86 dated August 2, 2019, the SEBI circular no. SEBI/HO/OIAE/IGRD/CIR/P/2021/642 dated October 14, 2021 and the SEBI circular no. SEBI/HO/OIAE/IGRD/P/CIR/2022/0150 dated November 7, 2022, issued by SEBI in relation to redressal of investor grievances through SCORES.

Our Company has appointed Purnima Jain, as the Company Secretary and Compliance Officer for the Issue and she may be contacted in case of any pre- Issue or post- Issue related problems. For details, see “*General Information*” on page 56.

Our Company has also constituted a Stakeholders’ Relationship Committee to review and redress shareholder and investor grievances. Please see “*Our Management – Committees of the Board – Stakeholders’ Relationship Committee*” on page 164.

Our Company has not received any investor grievances during the three years preceding the date of this Draft Red Herring Prospectus and there are no investor complaints pending as of the date of this Draft Red Herring Prospectus.

Our Company estimates that the average time required by it or the Registrar to the Issue or the relevant Designated Intermediary for the redressal of routine investor grievances shall be Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Disposal of investor grievances by listed Group Company and listed Subsidiary

As of the date of this Draft Red Herring Prospectus, we do not have a listed Group Company or a listed Subsidiary.

Exemption from complying with any provisions of securities laws granted by the SEBI

Our Company has not applied for or received any exemption from complying with any provisions of securities laws from SEBI.

- right to receive offers for rights Equity Shares and be allotted bonus Equity Shares, if announced;
- right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- right of free transferability, subject to applicable laws including any RBI rules and regulations; and
- such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the SEBI Listing Regulations and our Articles of Association and other applicable laws.

For a detailed description of the main provisions of our Articles of Association relating to voting rights, dividend, forfeiture and lien, transfer, transmission and/or consolidation/splitting, please see “*Main Provisions of the Articles of Association*” on page 302.

Allotment only in Dematerialised form

In terms of Section 29 of the Companies Act, 2013, and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, the following agreements have been signed among our Company, the respective Depositories and the Registrar to the Issue:

- (a) tripartite agreement dated February 29, 2024 among NSDL, our Company and the Registrar to the Issue; and
- (b) tripartite agreement dated March 2, 2024 among CDSL, our Company and the Registrar to the Issue; and

Market Lot and Trading Lot

Since trading of the Equity Shares is in dematerialised form, the tradable lot is one Equity Share. Allotment in the Issue will be only in dematerialised form in multiples of one Equity Share subject to a minimum allotment of [●] Equity Shares. For details of basis of allotment, please see “*Issue Procedure*” on page 284.

Joint holders

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

Jurisdiction

Exclusive jurisdiction for the purpose of the Issue is with the competent courts/authorities in Ahmedabad, India.

Nomination facility to Bidders

In accordance with Section 72 of the Companies Act, 2013, and the rules framed thereunder, the sole Bidder, or the First Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is modified or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation or variation to our Company. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered and Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by our Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
- (b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, interests, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment in the Issue will be made only in dematerialised mode there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder would prevail. If the Bidders wish to change the nomination, they are requested to inform their respective Depository Participant.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with the UPI Circulars.

The above timetable, other than the Bid/Issue Closing Date, is indicative and does not constitute any obligation on our Company or the BRLMs.

While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of the Bid/Issue Closing Date or such other period as may be prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid/Issue Period by our Company, in consultation with the BRLMs, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchanges. In terms of the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, our Company shall within four days from the closure of the Issue, refund the subscription amount received in case of non –receipt of minimum subscription or in case our Company fails to obtain listing or trading permission from the Stock Exchanges for the Equity Shares. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs' on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by

obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the Working Day.

In terms of the UPI Circulars, in relation to the Issue, the BRLMs will be required to submit reports of compliance with listing timelines and activities prescribed by the SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of this Draft Red Herring Prospectus may result in changes to the listing timelines. Further, the Issue Procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (Other than Bids from Anchor Investors):

Bid/Issue Period (except the Bid/Issue Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. IST
Bid/Issue Closing Date*	
Submission and Revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

* UPI mandate end time shall be 5:00 p.m. on the Bid/ Issue Closing Date

On the Bid/Issue Closing Date, the Bids shall be uploaded until:

- i. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- ii. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by UPI Bidders.

On Bid/Issue Closing Date, extension of time will be granted by Stock Exchanges only for uploading Bids received by RIBs after taking into account the total number of Bids received and as reported by the Book Running Lead Managers to the Stock Exchanges.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date until the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLMs and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids shall be processed only after the application monies are blocked in the ASBA Account and Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and in any case no later than the prescribed time on the Bid/ Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Bids and any revision in Bids will be accepted only during Working Days. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period till 5.00 pm on the Bid/Issue Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

In case of any discrepancy in the data entered in the electronic book *vis-a-vis* data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

Our Company, in consultation with the BRLMs, reserve the right to revise the Price Band during the Bid/Issue Period in accordance with the SEBI ICDR Regulations, provided that the revised Cap Price shall be less than or equal to 120% of the revised Floor Price, the Floor Price shall not be less than the face value of the Equity Shares, and that the revision in the Price Band shall not exceed 20% on either side, *i.e.*, the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. Provided that, the Cap Price of the Price Band shall be at least 105% of the Floor Price and less than or equal to 120% of the Floor Price.

In case of any revision to the Price Band, the Bid/Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Issue Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company may, in consultation with the BRLMs, for reasons to be recorded in writing, extend the Bid/Issue Period for a minimum of one Working Day, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by

indicating the change on the respective websites of the BRLMs and the terminals of the Syndicate Members and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank(s), as applicable.

Minimum subscription

In case our Company does not receive the (i) minimum subscription of 90% of the Issue portion through Issue Document on the date of closure of the Issue, and (ii) minimum subscription in the Issue as specified under the terms of Rule 19(2)(b) of the SCRR including through devolvement on the Underwriters, as applicable, within 60 days from the date of closure of the Issue, or if the subscription level falls below the thresholds mentioned above after the Bid/ Issue Closing Date; or on account of withdrawal of applications; or after technical rejections; or if the listing or trading permission is not obtained from the Stock Exchanges for the securities so issued under the issue document, our Company shall forthwith refund the entire subscription amount received in accordance with applicable law including the including the SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024 (to the extent applicable). If there is a delay beyond the prescribed time, our Company and every Director of our Company, who are officers in default, shall pay interest at the rate of 15% per annum. Further, our Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted shall not be less than 1,000 in compliance with Regulation 49(1) of the SEBI ICDR Regulations failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangement for disposal of odd lots

The General Information Document is also available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue, including in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Issue, (ii) maximum and minimum Bid size, (iii) price discovery and allocation, (iv) payment instructions for ASBA Bidders, (v) issuance of Confirmation of Allocation Note and Allotment in the Issue, (vi) general instructions (limited to instructions for completing the Bid cum Application Form), (vii) Designated Date, (viii) disposal of applications, (ix) submission of Bid cum Application Form, (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds), (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications, (xii) mode of making refunds, and (xiii) interest in case of delay in Allotment or refund; and (xiv) disposal of application.

The SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 as amended from time to time read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective until June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II until further notice. Pursuant to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, the final reduced timeline of T+3 days using the UPI Mechanism for applications by UPI Investors (“**UPI Phase III**”), and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made mandatory for public issues opening on or after December 1, 2023. Accordingly, the Issue is being made under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time, including with respect to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023

Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. Subsequently, vide the SEBI RTA Master Circular, consolidated the circulars no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 to the extent relevant for RTAs, and rescinded these circulars. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 5,00,000 shall use the UPI Mechanism. This circular has come into force for initial public offers opening on or after May 1, 2022 and the provisions of these circular are deemed to form part of this Draft Red Herring Prospectus. Further, a SEBI Master Circular. No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, was released to supersede the SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023, and certain other additional circulars issued for streamlining the process of initial public offers and redressing investor grievances.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). Accordingly, Stock Exchanges shall, for all categories of investors and other reserved categories and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked.

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI Master Circular. No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024 shall continue to form part of the agreements

being signed between the intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process. In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. Additionally, SEBI vide its circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 has reduced the time period for refund of application monies from 15 days to four days.

Our Company and the Syndicate are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Draft Red Herring Prospectus and the Prospectus.

Further our Company and the Syndicate Members are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Issue.

Book Building Procedure

The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations, through the Book Building Process in accordance with Regulation 6(2) of the SEBI ICDR Regulations wherein at least 75% of the Issue shall be available for allocation on a proportionate basis to QIBs, provided that our Company, in consultation with the BRLMs, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not more than 15% of the Issue shall be available for allocation to Non-Institutional Bidders in accordance with the SEBI ICDR Regulations, out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹2,00,000 and up to ₹10,00,000; and (b) two-third of such portion shall be reserved for applicants with application size of more than ₹10,00,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders; and not more than 10% of the Issue shall be available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange subject to receipt of valid Bids received at or above the Issue Price. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Investors should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, the PAN and UPI ID (for UPI Bidders using the UPI Mechanism) shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get their Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Issue, subject to applicable laws.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press release dated June 25, 2021 and September 17, 2021, March 30, 2022 and March 28, 2023.

Phased implementation of UPI

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of, among others, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, a Retail Individual Bidders had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI, vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, extended the timeline for implementation of UPI Phase II until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: Pursuant to SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, Phase III has been notified, and accordingly the revised timeline from six Working Days to T+3 days has been made applicable in two phases i.e., (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023. The Issue was undertaken pursuant to the processes and procedures as notified in the T+3 Circular, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 issued by SEBI, as amended by the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated April 20, 2022 (the “**UPI Streamlining Circular**”), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streamlining Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post- Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase III and the same will be advertised in [●] editions of [●], an English national daily newspaper, [●] editions of [●], a Hindi national daily newspaper, and [●] editions of [●], a Gujarati daily newspaper (Gujarati also being the regional language of Gujarat, where our Registered and Corporate Office is located), each with wide circulation on or prior to the Bid/Issue Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

Bid cum Application Form

For ASBA Forms (other than through the UPI Mechanism) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate the UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank(s) shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (*i.e.*, the Sponsor Bank(s), NPCI or the bankers to an issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank(s) and the Bankers to the Issue. The BRLMs shall also be required to obtain the audit trail from the Sponsor Bank(s) and the Bankers to the Issue for analyzing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in the SEBI circular dated March 16, 2021, as amended pursuant to the SEBI circulars dated June 2, 2021 and April 20, 2022.

Pursuant to NSE circular dated July 22, 2022 with reference no. 23/2022 and BSE circular dated July 22, 2022 with reference no. 20220722-30, has mandated that Trading Members, Syndicate Members, RTA and Depository Participants shall submit Syndicate ASBA bids above ₹5,00,000 and NIB & QIB bids above ₹2,00,000, through SCSBs only.

For all pending UPI Mandate Requests, the Sponsor Bank(s) shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. For ensuring timely information to Bidders, SCSBs shall send SMS alerts as specified by SEBI vide its March 2021 Circular, June 2021 Circular and circular (SEBI/HO/CFD/DIL2/CIR/P/2022/51) dated April 20, 2022.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation on compliance with the UPI Circulars.

The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLMs in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Sponsor Bank(s) shall host a web portals for intermediaries (closed user group) from the date of Bid/Issue Opening Date until the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI

handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

Electronic registration of Bids

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Issue.
- b) On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids until such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.

- (i) rights under a shareholders' agreement or voting agreement entered into with our Promoters or the members of the Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on the Board.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by HUFs

Bids by HUFs, should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "*Name of sole or First Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta*". Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

Bids by Eligible NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries.

Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorise their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External ("**NRE**") accounts, or Foreign Currency Non-Resident ("**FCNR**") Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("**NRO**") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents ([●] in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents ([●] in colour). By way of Press Note 1 (2021 Series) dated March 19, 2021, issued by the DPIIT, it has been clarified that an investment made by an Indian entity which is owned and controlled by NRIs on a non-repatriation basis, shall not be considered for calculation of indirect foreign investment.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs applying in the Issue using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application.

Also please see "*Restrictions on Foreign Ownership of Indian Securities*" on page 301.

Bids by FPIs

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities registered as foreign portfolio investors and having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA Non-debt Instruments Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA Non-debt Instruments Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap is 100% and accordingly, the applicable limit with respect to our Company is 100%.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the

right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents ([●] in colour).

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for Issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- (i) such offshore derivative instruments are transferred to persons subject to fulfilment of criteria provided under Regulation 21(1) of the SEBI FPI Regulations; and
- (ii) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilise the multi investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations (the "**Operational FPI Guidelines**"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("MIM Bids"). FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that utilise the multi investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "**MIM Structure**"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

Further, in the following cases, the bids by FPIs will not be considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) offshore derivative instruments ("**ODI**") which have obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category I FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in this Draft Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms are liable to be rejected in the event that the Bid in the Bid cum Application Form "exceeds the Issue size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of the Red Herring Prospectus."

For example, an FPI must ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the "**FPI Group**") shall be below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Issue Equity Share capital shall be liable to be rejected.

Bids by SEBI registered AIFs, VCFs and FVCIs

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, *inter alia*, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. While the SEBI VCF Regulations have since been repealed, the funds registered as VCFs under the SEBI VCF Regulations continue to be regulated by such regulations until the existing fund or scheme managed by the fund is wound up. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs, subject to the conditions prescribed by the SEBI. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs, subject to the conditions prescribed by the SEBI. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs, and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, ("**Banking Regulation Act**"), and the Master Directions – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company, subject to prior approval of the RBI, if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act, (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank, and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid-up share capital engaged in non-financial services. However, this cap does not apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate equity investment made by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the bank paid up share capital and reserves.

Bids by SCSBs

SCSBs participating in the Issue are required to comply with the terms of the SEBI circulars (Nos. CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013) dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

Bids by systemically important NBFCs

In case of Bids made by Systemically Important NBFCs registered with RBI, a certified copies of the (i) certificate of registration issued by RBI, (ii) last audited financial statements on a standalone basis (iii) a net worth certificate from its statutory auditor(s), and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Company in consultation with the BRLMs, reserves the right to reject any Bid, without assigning any reason thereof, subject to applicable law.

Systemically Important NBFCs participating in the Issue shall comply with all applicable regulations, directions, guidelines and circulars issued by RBI from time to time. The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in which the investee company operates.

Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and comply with all applicable regulations, guidelines and circulars issued by the IRDAI from time to time.

Bids by provident funds/pension funds

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹ 2,500 lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company in consultation with the BRLMs, reserves the right to reject any Bid, without assigning any reason thereof.

Bids under power of attorney

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, Eligible FPIs, Mutual Funds, insurance companies, Systemically Important NBFCs, insurance funds set up by the army, navy or air force of the Union of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹ 2,500 lakhs (subject to applicable laws) and pension funds with a minimum corpus of ₹ 2,500 lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the BRLMs, in its absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the BRLMs, may deem fit.

In accordance with existing regulations issued by the RBI, OCBs cannot participate in this Issue.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment.

The Government of India has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry Government of India (*earlier known as the Department of Industrial Policy and Promotion*) (“**DPIIT**”) issued the FDI Policy, which with effect from October 15, 2020, consolidated, subsumed superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as of and prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Up to 100% foreign investment under the automatic route is currently permitted for our Company.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that: (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations, (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy, and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. For details of the aggregate limit for investments by NRIs and FPIs in our Company, please see “*Issue Procedure – Bids by Eligible NRIs*” and “*Issue Procedure – Bids by FPIs*” on page 289 and 289, respectively.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Bid/Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue. For further details, please see “*Issue Procedure*” on page 284.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Our Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act of 1933 or any other applicable law of the United States. Accordingly, the Equity Shares are being offered and sold outside of the United States in offshore transactions as defined in and in compliance with Regulation S under the U.S. Securities Act of 1933 and the applicable laws of the jurisdiction where such offers and sales are made.
